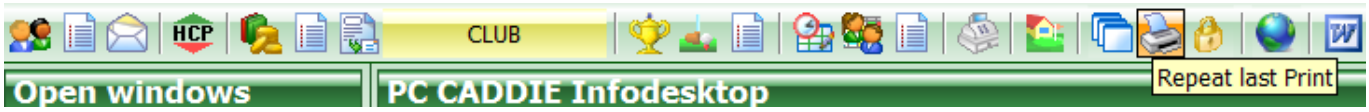
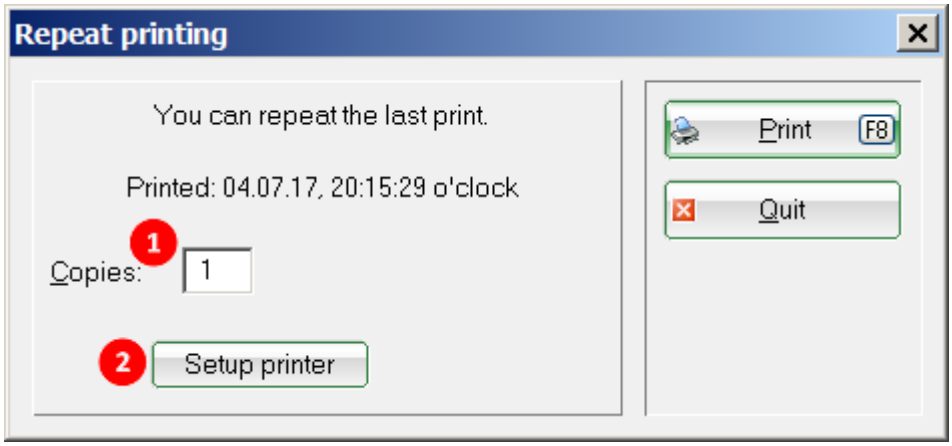
Repeat last printout

You have the option of repeating the last printout in a simple manner.

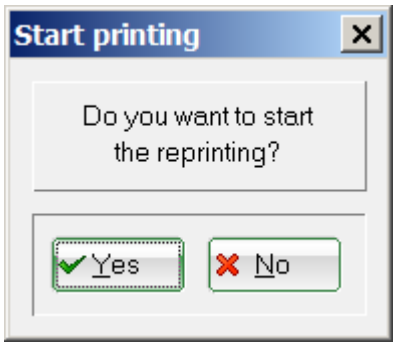
To do this, click in the menu bar on ***Settings/Repeat last printout*** or on the corresponding icon:



The following window opens:



1. Select the number of copies you want to print.
2. Click on ***Printer setup,*** if you want to make changes to the layout.
3. Click on ***Print*** to start the printout and confirm the prompt with ***Ja:***



Please note that only the original printout that has been sent to a printer as a print job can be repeated. Screen printing is no longer possible here.
