Flag race

PC CADDIE also organises flag competitions, in which each player has as many strokes as the par + the handicap, as the par + the handicap. For example, a player with Hcp „25“ on a course with par 72 his flag after his 97th shot. Whoever gets the furthest has won the competition. For such tournaments, first select either „Counting game“, „Stableford“ or „Against par“ (normally counting game). Later, when **//Enter competitions/results //**select the Result type flag competition.

Stickers instead of scorecards (maximum strokes can also be used on scorecards): Sticker for flag competition

Please also read this chapter: Enter result

If, in parallel to the flag competition ***also want to print result lists with hole results*** you will need 2 competitions. You can, for example, copy the competition with the finished start list once turnierdaten_von_anderem_turnier_kopieren before you enter the results. Copy the tournament settings with player data and start times.
