

# Send document to CRM

In Explorer or My Computer, right-click on a document that you want to send to PC CADDIE. Then select the option **Send an/PC CADDIE:**

The following window opens in PC CADDIE:

**Info: Leistungsabrechnung-16042020.pdf**
\_ □ ×

The original document remains in the original folder. PC CADDIE saves an additional document in the „Attached“ folder. If you have a lot to import at a later date or you are just starting out, you simply need to open the relevant folder and PC CADDIE and then import the documents into PC CADDIE by activating and dragging („drag and dropping“) them into a person's info window with the mouse button.

**TIP** If a document (e.g. a member's contract) is saved according to the pattern last name, first name-subject (Schmedding,Benedikt-Vertrag.doc), PC CADDIE searches for the appropriate person directly after the import and inserts the subject accordingly.
