Selection according to groups

Individual selection options according to groups could be particularly interesting here if, for example, you want to print the clubs with which you have a green fee agreement in a list. To do this, first prepare the club data. Open via **Settings/Clubs+Courses/...create, edit, delete** with **Edit** to open the desired club:

Now enter a freely selectable abbreviation for each club with a green fee agreement under Group (the abbreviation should only be the same for all green fee agreements). You then have the option of entering the abbreviation „GV“ when printing a club list under **group** when printing a club list.

You will receive the following list:
