

Connect to the Intranet

Click on the countries button in PC CADDIE's icons list to connect to the Intranet.

Example for Germany:

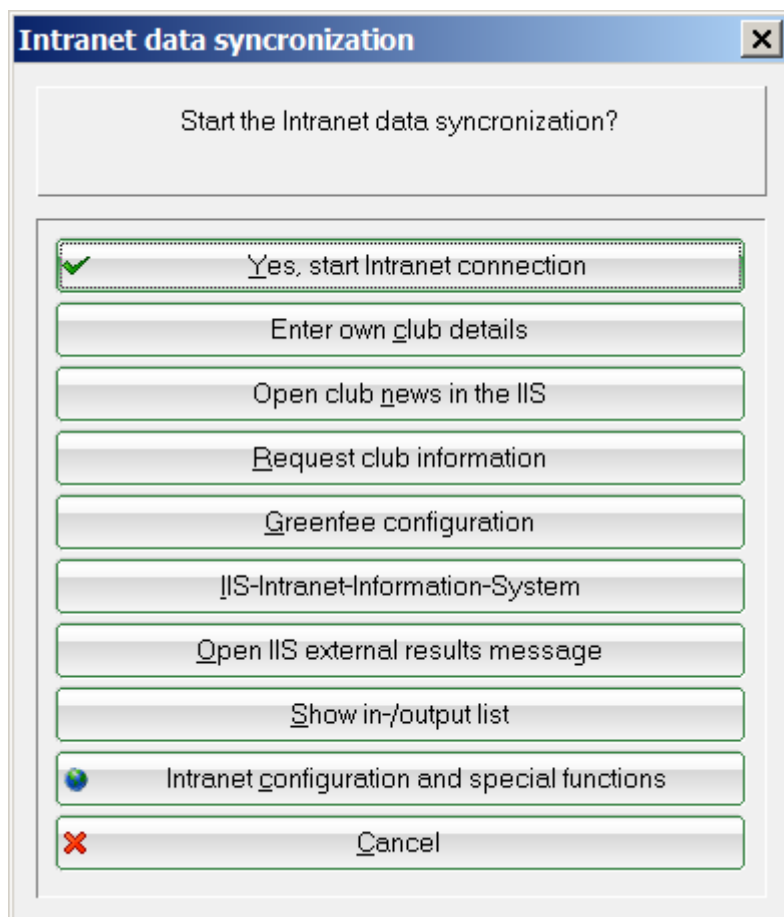

Example for Switzerland:

Or click on **Setup/Connect to intranet:**

On both cases, the following window opens:

The individual buttons are further described in more details.

Show the status of the intranet server

.. it's only informative, and it looks like this:

DGV-Intranet Status

www.dgv-intranet.de

....ok

www.golf.de

...ok

www.mygolf.de

....ok

IIS

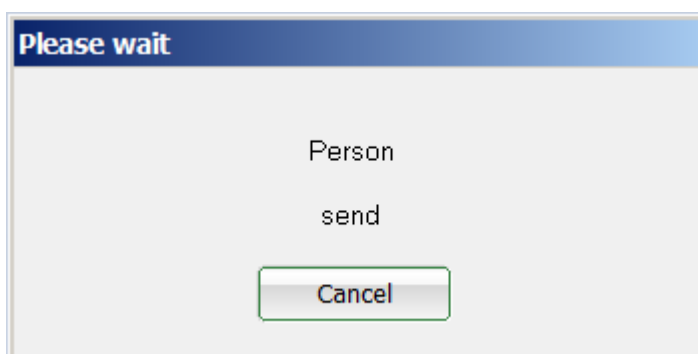

..ok

DateTime:

last Check at 28.03.2019 14:12:19

Yes, start Intranet connection

Click on **Yes, start Intranet connection** to synchronize your data with the one from your country's golf association. The data is then copied and transferred automatically:

Edit club information

Use this button to access the input window for the club data. The data is then automatically stored in the account area set up for the intranet.

It is also possible to open this window via **Setup/Program Options/Club Address, Banking Details** . In this case it is important that you manually switch to the account area that is activated for the intranet, which is usually the account area **CLUB**.

Address and bank details

Club address

Name:

Country code and club number:

Local golf association:

Main address | Postal address | Invoice address

C/O:

P.O. Box:

Street:

P. code:

City:

Tax No. VAT ID

Phone Z.No

Fax

Email

Homepage

Coordinates

Enter the main address, postal address and invoicing address.

Geodata

The coordinates (geodata) of your club are also stored here. The geodata is automatically compared by PC CADDIE with the data stored in the DGV INTRANET (IIS), and updated:

- Every time you click on „Enter own club details“.
- Every time you print the coordinate checklist

- Every time you create an ID card file.

Bank details

The button **Continue** opens the next window where you can also enter the bank connection for the intranet:

More data / banking details

Shortname for lists etc.:

Name on id

1st line:

2nd line:

P.Code+Town:

Founding date:

Admission of members: Yes

Non profit club : Non profit recognized

Bank details only for Germany:

Acc holder:

Bank:

Bankcode:

Acc no:

BIC:

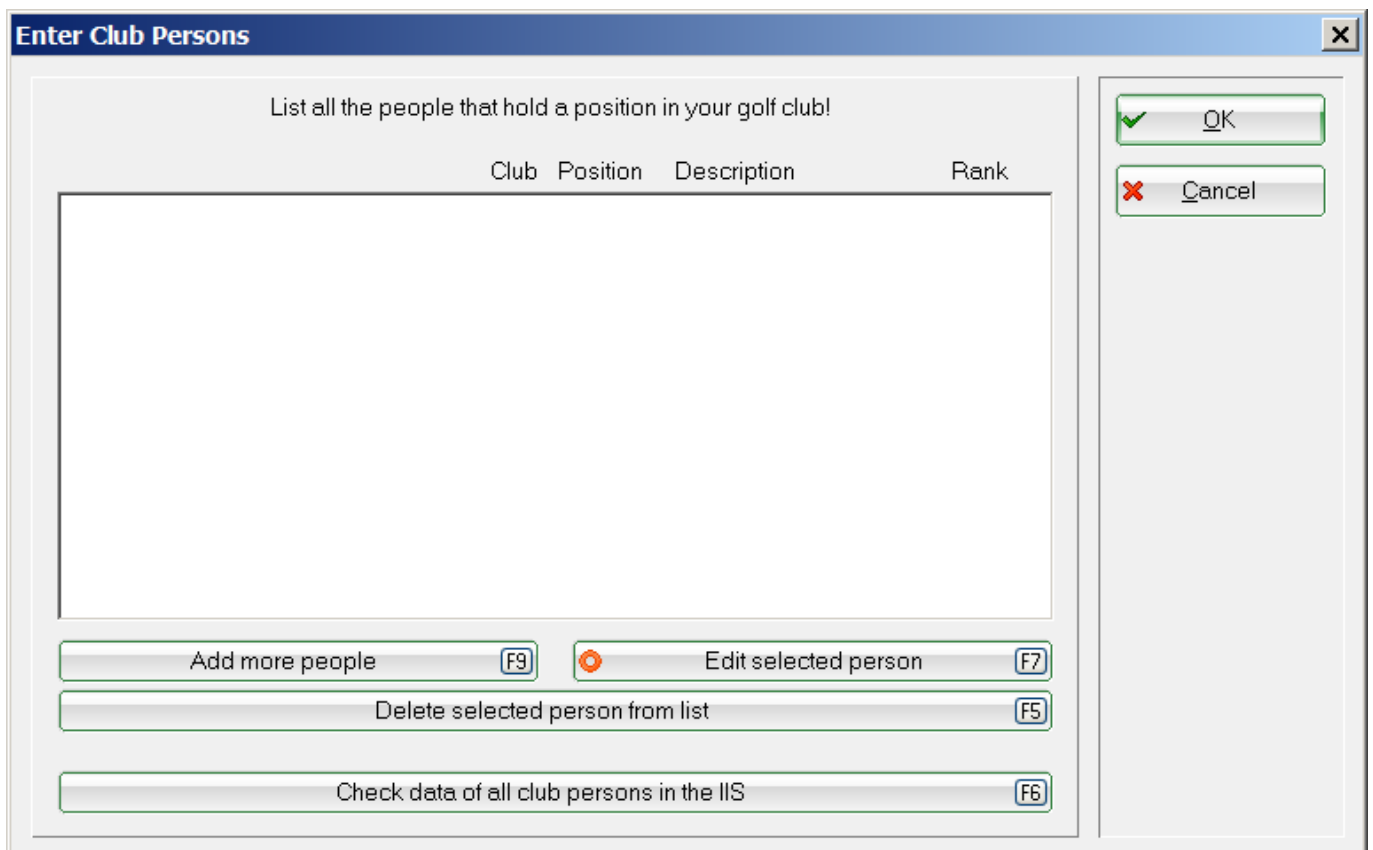

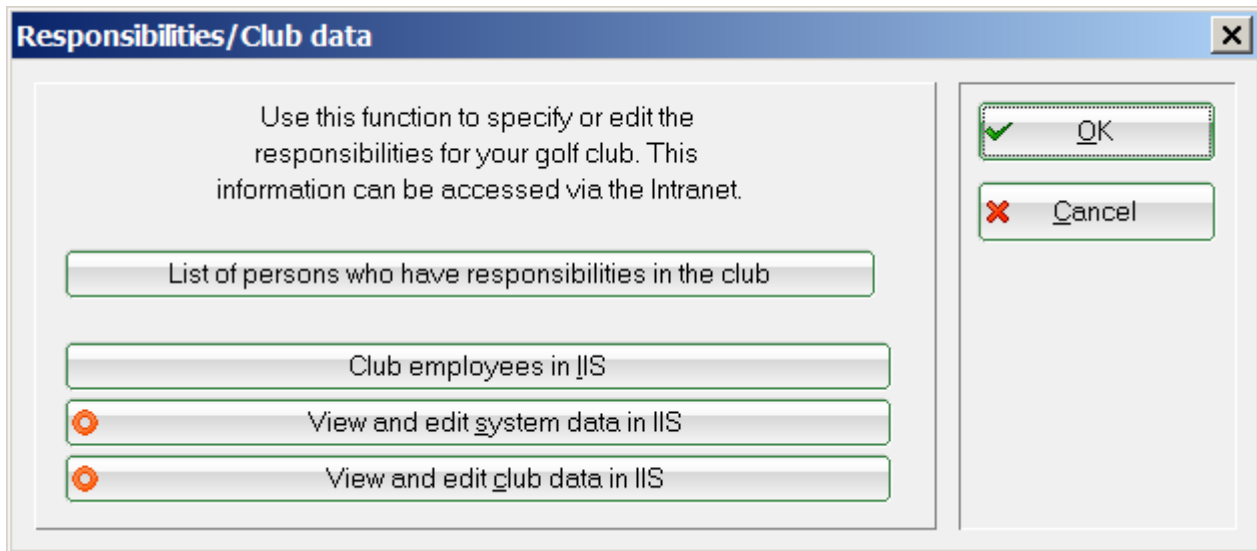

IBAN:

ID:

Responsibilities

...and you can update the list of responsibilities in your club by pressing the **List of persons who have responsibilities in the club** button.

If you update information regarding persons, first transfer them to INTRANET and then check the club people in the service portal under the tab „Club editing“ - this is the only place where you can see which people you have currently transferred!

This list of the persons entered is then available online via an intranet synchronization. You can check the uploaded persons in the Service Portal. In Germany, the personnel or functionaries are checked in the service portal under "Club editing" (see the 2nd screenshot)!

Funktionsträger sortieren

Erläuterung

In der hier hinterlegten Reihenfolge erscheinen die Funktionsträger als Clubpersonen im GolfGuide auf Golf.de und myGolf.

Die Funktionsträger werden aus Ihrer Clubverwaltungssoftware (CVS) an das DGV-Intranet übertragen.

Nach einem Übertrag der Personendaten aus der CVS muss die Sortierung hier erneut hinterlegt werden.

Sortierung	Funktion	Name	Sortierung Ändern
0	Präsident/in	Benedikt Schmedd...	☰ 3
1	Spielführer/in	Anja Arens	☰

Hinweis:

Die hier hinterlegte Sortierreihenfolge steuert die Darstellung auf golf.de und mygolf.de - nach einem Übertrag der Personendaten aus der Clubverwaltungssoftware muß die Sortierung hier erneut hinterlegt werden.

speichern

... If you select **Show club persons in the service portal** you can activate individual function holders and allow them to LOGIN.

Funktionsträger / Anlagendaten

Benutzen Sie diese Funktion, um die Funktionsträger in Ihrem Golfclub anzugeben bzw. zu bearbeiten. Diese Informationen können im Intranet abgerufen werden.

Request club information

Use this button to request the current club information. You have the option to load to your PC CADDIE club data for Germany, Switzerland and Austria.

Select the desired countries; the intranet synchronization starts after you confirm with **OK**, and the current club data is automatically loaded into PC CADDIE.

The status window **Current information** will show you if this was a successful import:

Opening an Alarm-entry with edit is considered as “seeing” it, and it will disappear from the “Alarm” window.

Greenfee configuration

Since 20117, you have the possibility to transfer your greenfee articles directly to golf.de and display them on the service portal of the intranet.

With SALES account area

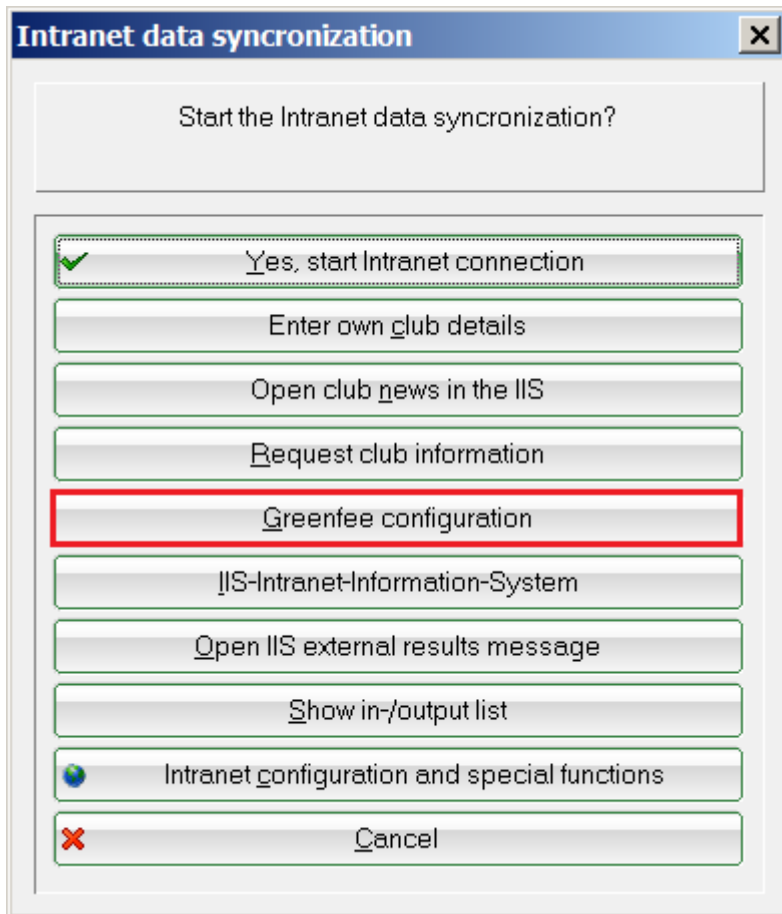

Please first switch to your SALES account area:

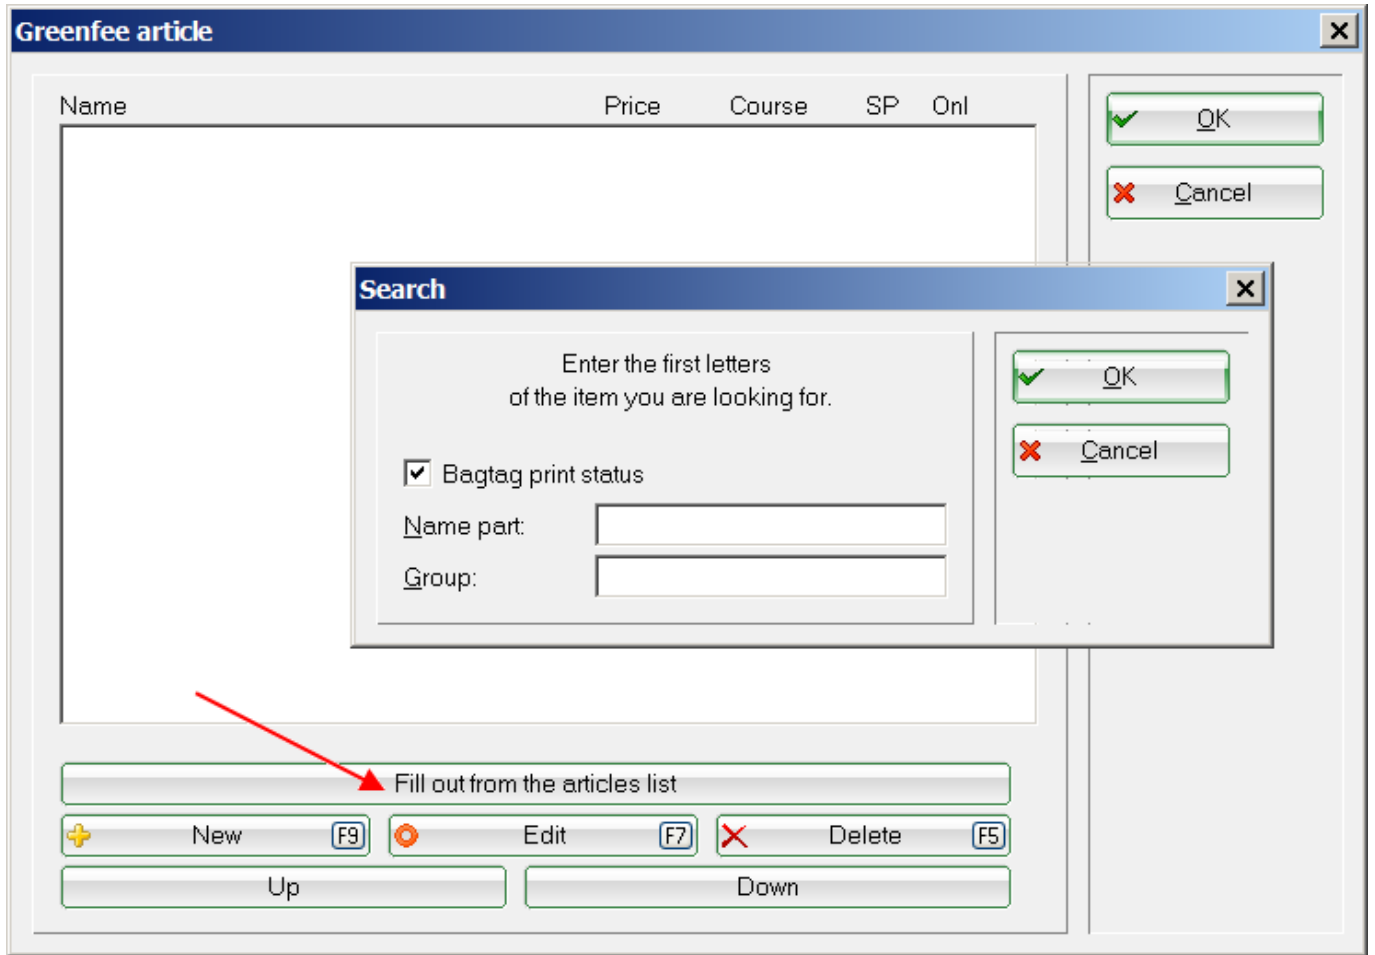

Restart the selection for intranet:

Select **Greenfee configuration**

You then have different options:
For example, load all greenfee items from your article list.

This usually results in many articles. You can now delete or move a single item; if you press Cancel, all items are gone again, and you have the possibility to use the „New“ button to get individual items.

Greenfee Artikel ☐ ✕

Show in-/output list

"Current information" window

This opens the **Current Information** window:

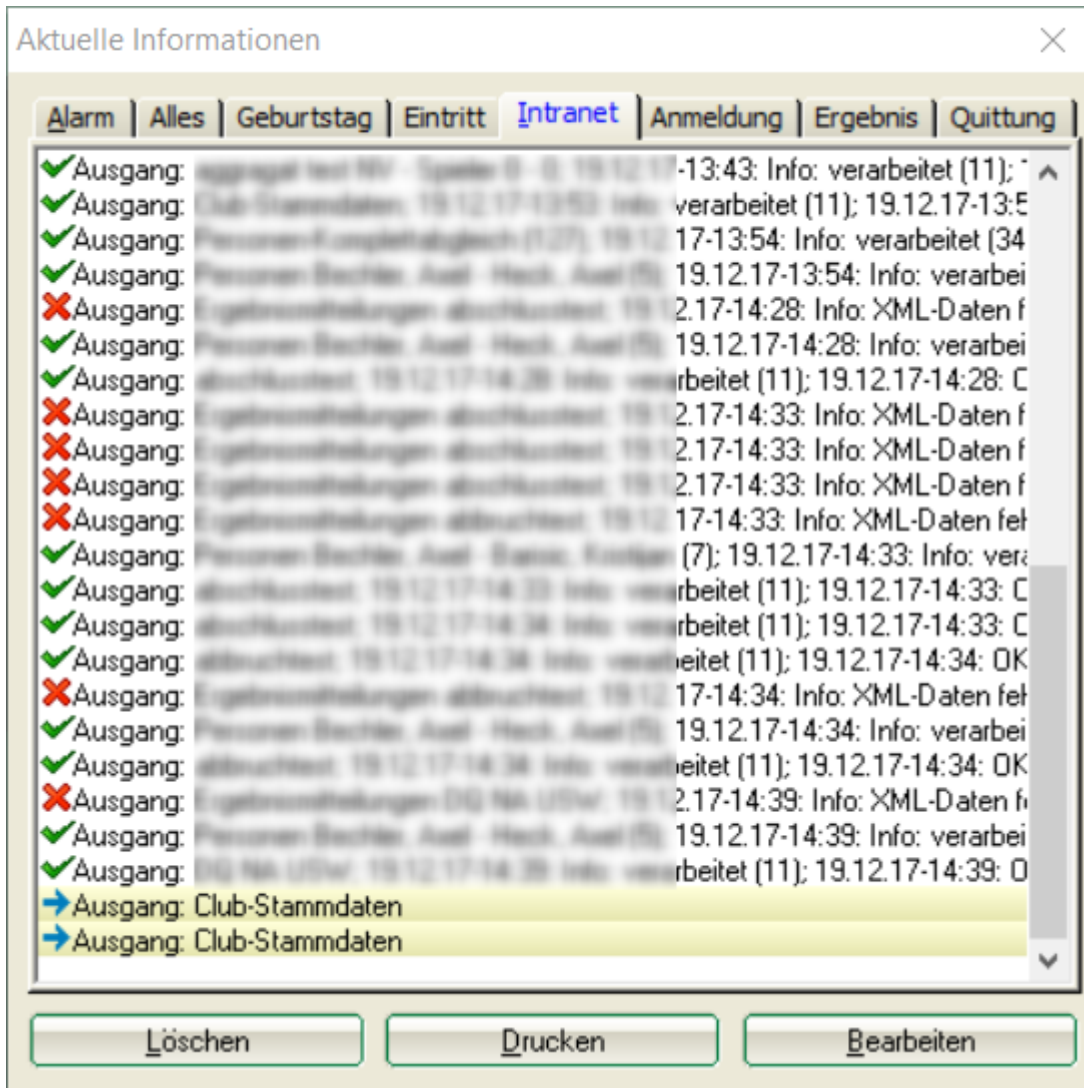

Here you can track what data has been exchanged with the intranet.

- You can see if you need to do something under **Alarm**. You can then mark and edit the entry.
- **All** contains all the available information, which can be also found under dedicated tabs.
- The **Birthday** tab contains only the date of birth.
- **Entry** shows both information on newly arrived members as well as withdrawals of members.
- **Intranet** lists the files exchanged with the intranet.
- Tournament registrations are listed separately under **Registration**.
- The **Results** tab shows the external results of your members.
- See the badge receipts for the ordered cards of your members, individually per member, under **Receipts**.

Example of displayed entries:

- all entries with a **green** check-mark have been processed automatically.
- a **blue arrow** means that this data is ready for intranet synchronization.
- the **yellow bell** means, for example, that the file is so big that the intranet synchronization is still running.
- a **yellow star** means only that the information is new, for example, birthday or not read yet.
- a **red bell** would also be seen under ALARM, and appears, for example, if a new CLUB has been loaded into the club list; it disappears when you press edit (visit).
- a **red cross** means that the transfer of the file to the intranet has been aborted (too many unsuccessful attempts)

Important: Please clarify with the PC CADDIE Support how to deal with the **red crosses**.

- The **Delete** button only deletes the display of the files in the info window. Nevertheless, the files are always transferred to the intranet. Deleting is usually unnecessary as the files automatically disappear after a few days in the info window.
- Use the **Print** button for printing the information; maybe this is a good idea for birthdays.
- Use **Edit** open the info line, where you also have the option to directly send an email to the PC CADDIE Support regarding the **red cross** entries.

Intranet configuration and special functions

Germany Service PORTAL

The screenshot shows the DGV-Serviceportal interface. The header includes the DGV logo, 'DGv-Serviceportal', and 'Golf.de'. The user is logged in as 'Club Intern' for 'Test-Golfclub PC Caddie'. The breadcrumb trail is 'Startseite / Mein Club / Clubdaten / Stammdaten'. The left sidebar lists various categories, with 'MEIN CLUB' expanded to show 'Clubdaten' and 'Stammdaten'. The main content area is titled 'Stammdaten' and includes an 'Erläuterung' (Explanation) section stating that data is transferred from the local CVS to the portal. Below this, there are two input fields for 'Clubname lang *' (containing 'Test-Golfclub PC Caddie') and 'Clubname kurz *'. To the right, the 'Ansprechpartner' (Contact Person) section features a photo of Oliver Falch, his title 'IT DGV-Mitglieder & Projektleiter DGV-Ausweis', and contact information: 'falch@dgv.golf.de' and '0611 99 020 0'.

Club personnel and functionaries

Up to 2018, the club personnel term defined the persons having a position in the club, for example the Director.

These persons are now referred to as **functionaries**

on the other hand, the DGV Portal lists all persons belonging to the club under **Club personnel**, including the members.

Functionaries

Upload to the Portal

The functionaries are further transferred from PC CADDIE to the INTRANET. Very important is the **Uploading of the EMAIL addresses**, because only with an email address stored at the INTRANET can a person request an own LOGIN for the DGV portal.

[Enter and upload function holders.](#)

Pay attention to entering the EMAIL address. The address can be taken from the personal data, or you can enter individual email addresses:

Activate functionaries in the DGV portal

On the one hand, you can see the functionaries here. Have the right people been transferred from PC CADDIE?

On the other hand, you can **enable** the functionaries here if they have previously requested a LOGIN from the DGV.

In this case, is the **enable** for the persons active and in bold. Nobody requested a Login in the example presented in the screenshot. As soon as a login has been requested at the DGV, you will receive an informative email, so that you can approve the requested LOGIN.

If you remove a function carrier in PC CADDIE, and transfer this change to the INTRANET, the LOGIN disappears.
