

Intranet in Luxembourg

With the help of the button **Intranet** button, the intranet exchange with the Luxembourg server takes place.

It is no longer possible to enter a foreign result before 01.01.2021.

Tournament conclusion: After the end of the tournament, the results are noted in the master sheets and are also sent to the Luxembourg server. The new handicap is calculated there at 11 pm. If a tournament is not completed until the next day, the handicap will not be recalculated until the following night.

Press Control and WHS to calculate the WHS up to the selected date.

The WHS calculation in Luxembourg takes place for all tournament results from 01.01.2017.

Button Adjustment in the master sheet

In the master sheet of each player you can adjust the handicap with the button **Adjustment** button.

A screenshot of a software window titled 'Ergebnis-Historie'. The window displays a list of tournament results for 'Schock, Christian (soc5)' from 'Grand Ducal de Luxem'. A 'Handicap Adjustment' dialog box is open over the list. The dialog box contains the following fields: 'Stichtag der Änderung:' with the value '24.09.2021', 'Zeit:' with '18:28', 'Handicap-Adjustment:' with '0,0', and 'Erklärende Bemerkung:' with 'Test'. There are 'OK' and 'Abbruch' buttons. A red circle with the number '2' is placed over the 'Handicap-Adjustment' field. On the right side of the window, there is a vertical toolbar with buttons: 'Ergebnis', 'Adjustment' (with a red circle and '1' next to it), 'Ändern F7', 'Storno F5', 'WHS', 'Drucken F8', and 'Ende'. The background list shows three rows of data, with the last row highlighted in green: '26.09.21 84 6,4 Stblf. TOURNOI PORSCHE 30 23'.

The Handicap Adjustment field should be filled with the value by which the handicap should change.

Handicap Adjustment ✕

Schock, Christian (soc5) Grand Ducal de Luxem

Stichtag der Änderung:

Zeit:

Handicap-Adjustment:

Erklärende Bemerkung:

✓ OK
✕ Abbruch

In our example, the handicap would change by +1.4.

HCP Ergebnis-Historie ? - ✕

Schock, Christian (soc5) Grand Ducal de Luxem

Ende

The recalculation then takes place overnight.

An adjustment can be deleted from the master data sheet at any time.

"Merging" of handicap master data sheets

The merge function can be used to display the handicap master sheet of a member who changes home club in the new master sheet.

This merges two master data sheets together. This function is only available in the PC CADDIE of the

Luxembourg association.

Please contact PC CADDIE Support. We will be happy to help you.
