Charging

The PC CADDIE terminal enables your customers to top up their prepaid cards or badges outside regular opening hours. Please note the requirements for this function:

- Existing Online card system from PC CADDIE
- Possibility to read or write to the terminal for charging
- Payment option by card (debit and credit cards such as Maestro, Girocard, VISA, Mastercard,

etc.)
- Available printing option for receipts (usually supplied together with the terminal)

Top-ups made at the terminal are posted directly to the respective customer account and offset against the current day's balance.

To install the required modules, please contact PC CADDIE Support.
