Timetable info

The module ***Timetableinfo*** module enables a club to allow golfers to print a bag day or reserve a tee time outside normal opening hours.

Please note that you must first set up a Timetable View Define timetable views (Views) in order to be able to use this function on the terminal.

New reservation The player selects the desired time in the timetable and swipes his card. If there is no timetable ruleSet timetable rules that prevents or restricts a booking, the start time is booked immediately.

Confirm The player can confirm his tee time using this function. In other words, he confirms that he is on site.

! A corresponding timetable rule Set timetable rules is required for this process, which directly books a green fee item for the respective group of people.

! When confirming a tee time no bag tag is printed.

Own times This menu item allows players to get an overview of their own start times.

Cancellation Players can cancel their start times directly at the terminal within the predefined cancellation periods.
