

Timetable info

The module **Timetable info** allows the golfers registered with a club to print a bag-tags or reserve a tee time outside normal opening hours.

Please note that you must first set up a Timetable View [Define Timetable Views](#) in order to use this function on the terminal.

The screenshot displays the 'Reservierung' (Reservation) module interface. The left sidebar contains navigation options: 'Reservierung' (selected), 'Neue Reservierung', 'Bestätigen', 'Eigene Zeiten', 'Stornieren', 'Clubinformationen', 'Greenfee buchen', 'Wettspiele', 'Score eingeben', and 'Handicaps'. The main area shows a grid for reserving tee times, with columns for '18er' holes. The top row is highlighted in red and labeled 'Mi, 29.12.10' and '18 Loch'. The grid shows time slots from 10:10 to 14:00. A reservation is shown for 11:40, with names 'Schmedding, Benedikt (27.4), MITGLIED' and 'Hember, Paul (-), MITGLIED'. The bottom of the screen shows a calendar for the week of Dec 29, 2010, and a status bar with the text 'Keine Onlinebuchung für Gäste >30, Michael, Gäste' and 'KVV 52 29.12.10 10:10'.

New reservation The player chooses the desired time in the Timetable and pulls his card through. The tee time is posted immediately if there is no Timetable rule [Timetable-Regeln festlegen](#) that prevents or restricts a booking.

Confirm The player can confirm his tee time using this function. That is, he confirms his presence.

For this process, a corresponding timetable rule [Timetable-Regeln festlegen](#) is required, which directly posts a green fee item to the respective group of persons.

No bag tag is printed when confirming a tee time.

Own times This menu item allows the players to get an overview of their own start times.

Bereich	Tag	Zeit	Dauer
18 Loch	29.12.10 (Mittwoch)	11:40	

Ende

Cancel The players can cancel their tee times directly at the terminal within the predefined cancellation periods.

Bereich	Tag	Zeit	Dauer
18 Loch	29.12.10 (Mittwoch)	11:40	

Stornieren Ende
