FTP transfer

You can set up FTP access (File Transfer Protocol), for example for start lists or results lists etc., under ***Settings/Programme settings/FTP transfer*** . This function is used fully automatically for the DGV intranet, Swissgolfnetwork and PC CADDIE://online are used.

1. Here you can see FTP accesses that have already been set up.
2. Set up under ***New*** set up a new account.
3. With ***Edit*** you can change an account that has already been set up.
4. With this button ***Delete*** you can delete an account.
   Never delete existing accounts.

If you install a new account, the following window opens:

Fill in the fields according to your specifications. The data can then be sent to a server and even positioned correctly.
