Installing the PDF Creator

Install PDF Creator

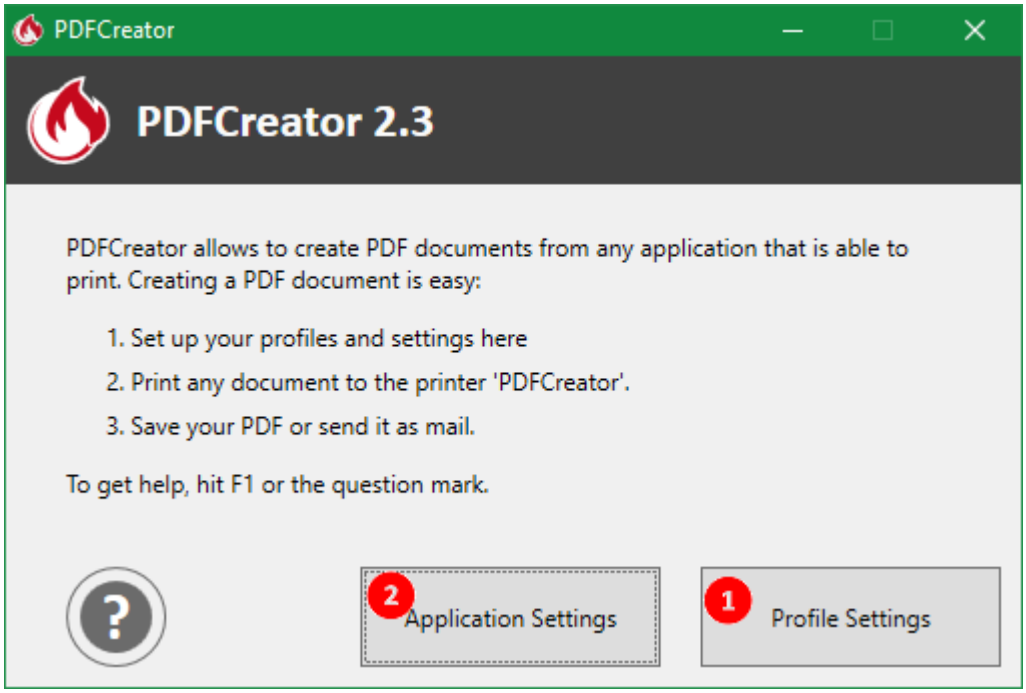

First check whether an older version is installed and uninstall it if necessary!

The PDF Creator can be installed using the following macro:

```
PDF
```

If you click on **Standard installation** in the following dialogue, the PDF Creator will be installed directly without any further queries.

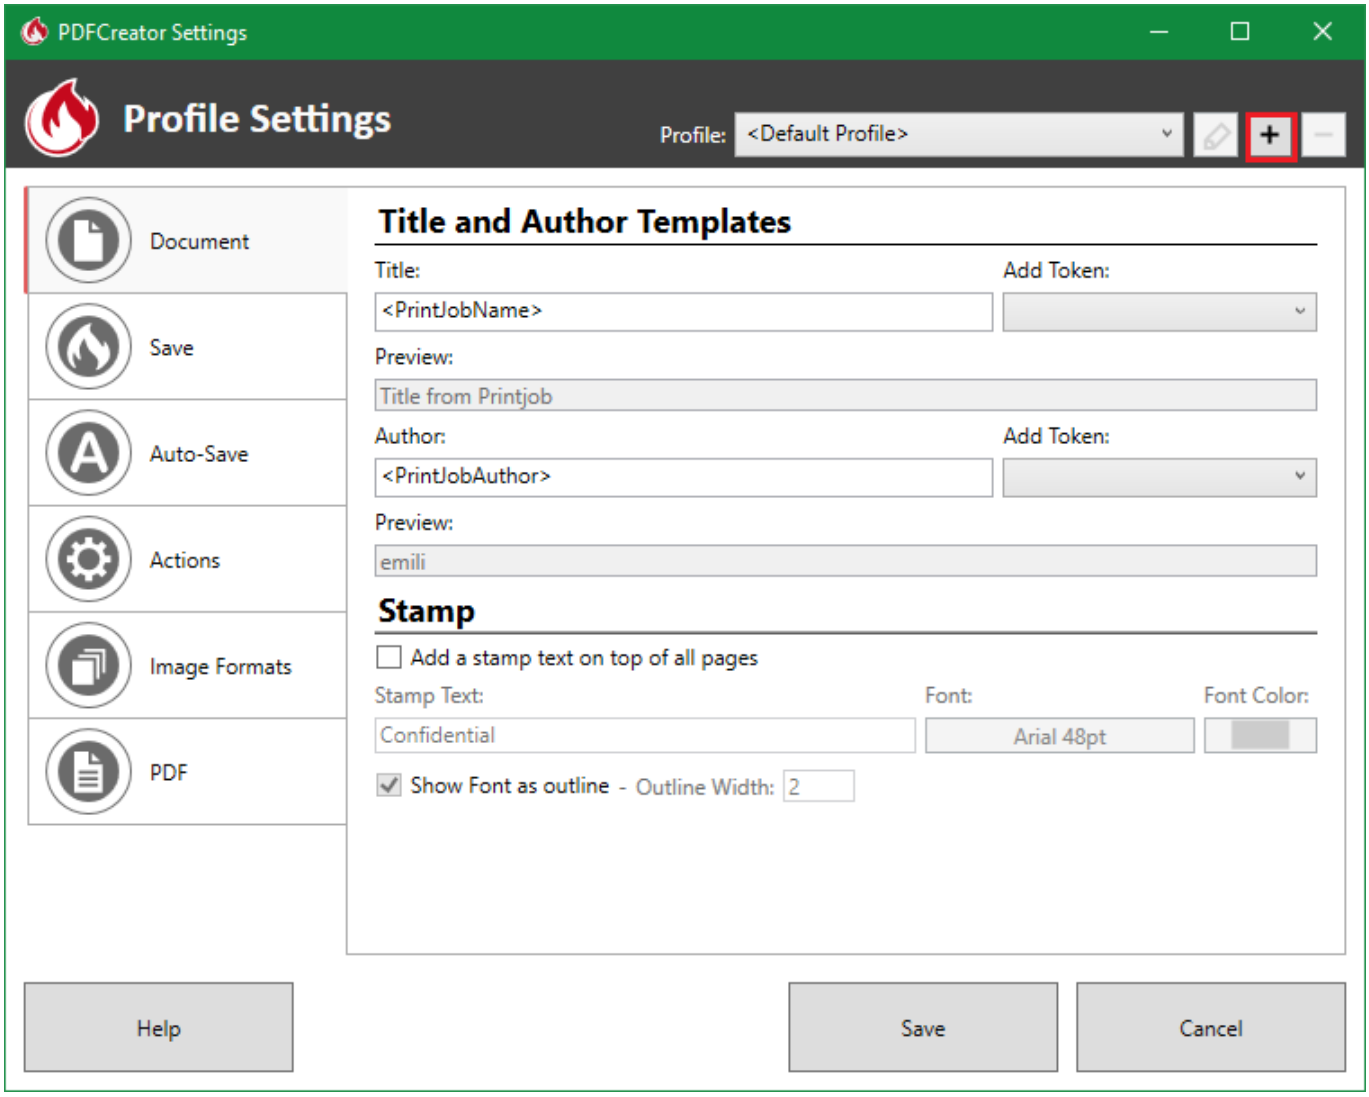

Set settings

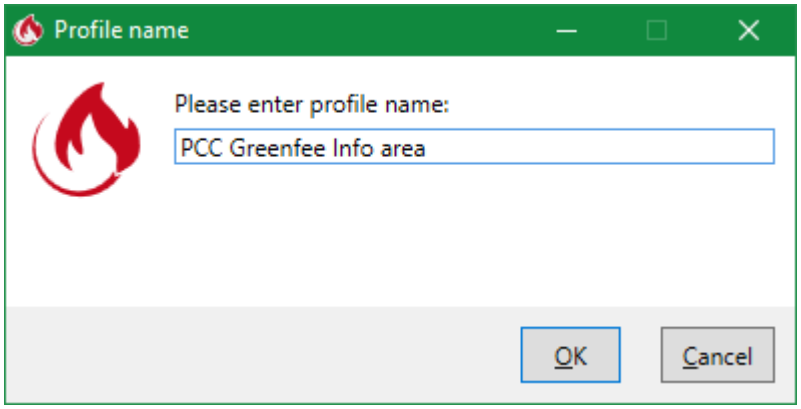

1. The profile must first be created.
2. Then a printer can be created with this profile.

Create profile

Via the **+** button to create a new profile.

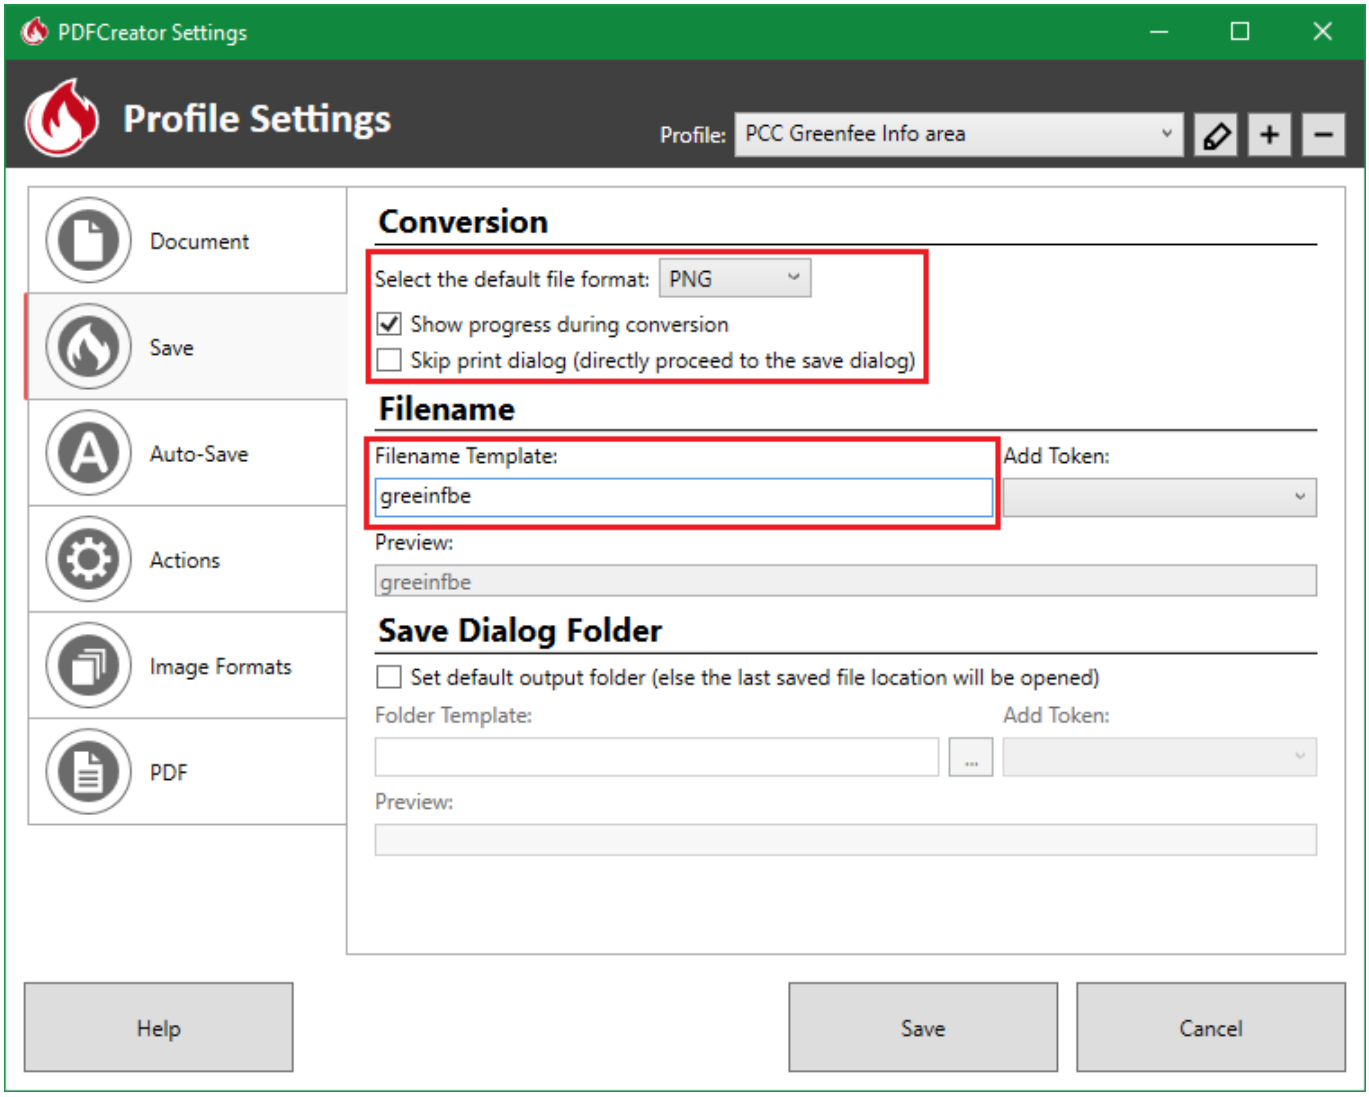

Enter the profile name **PCC Greenfee info area** and press **OK** confirm

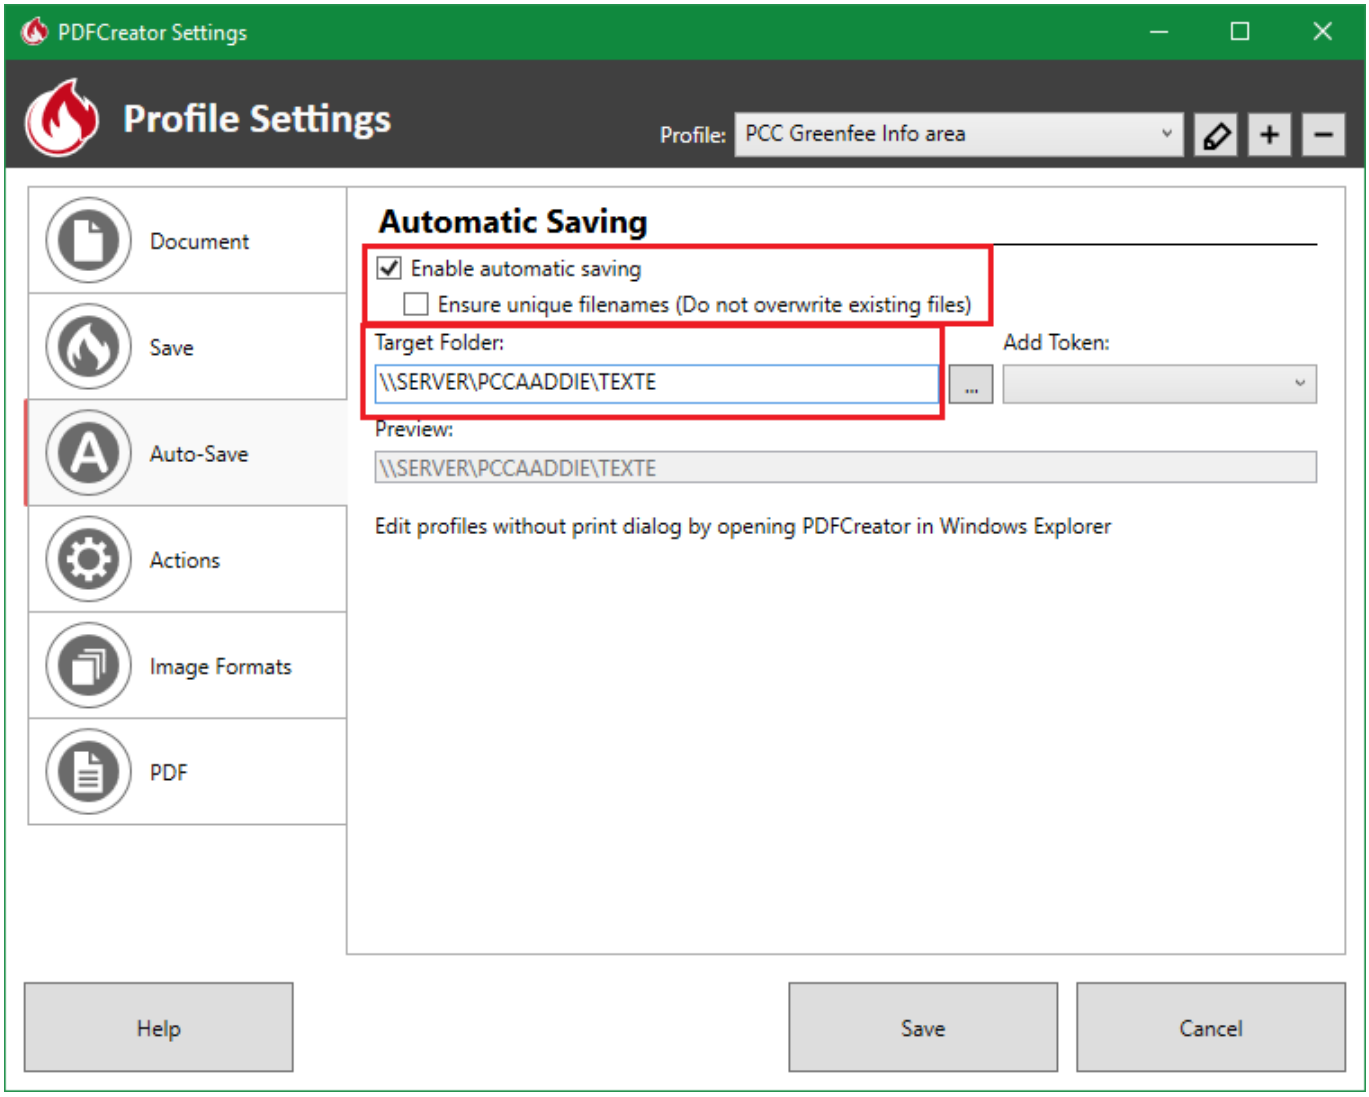

Under the tab **Save** tab, apply the settings as shown in the following image.

- File name template: **greeinfbe**

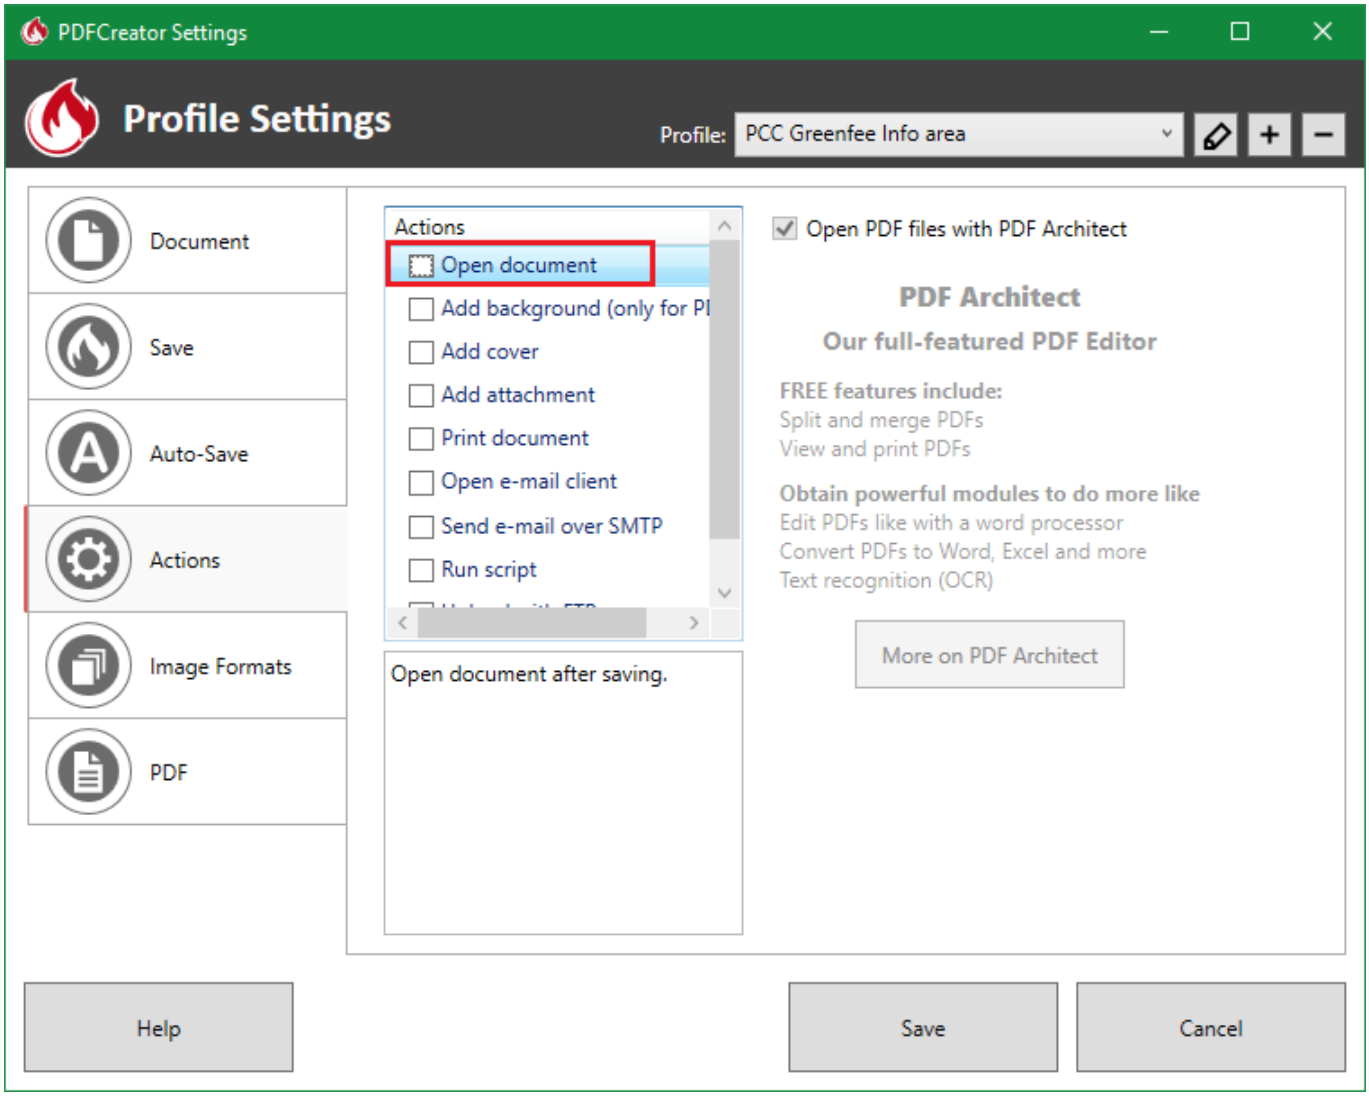

Under the tab **Automatic saving** tab, apply the settings as shown in the following image.

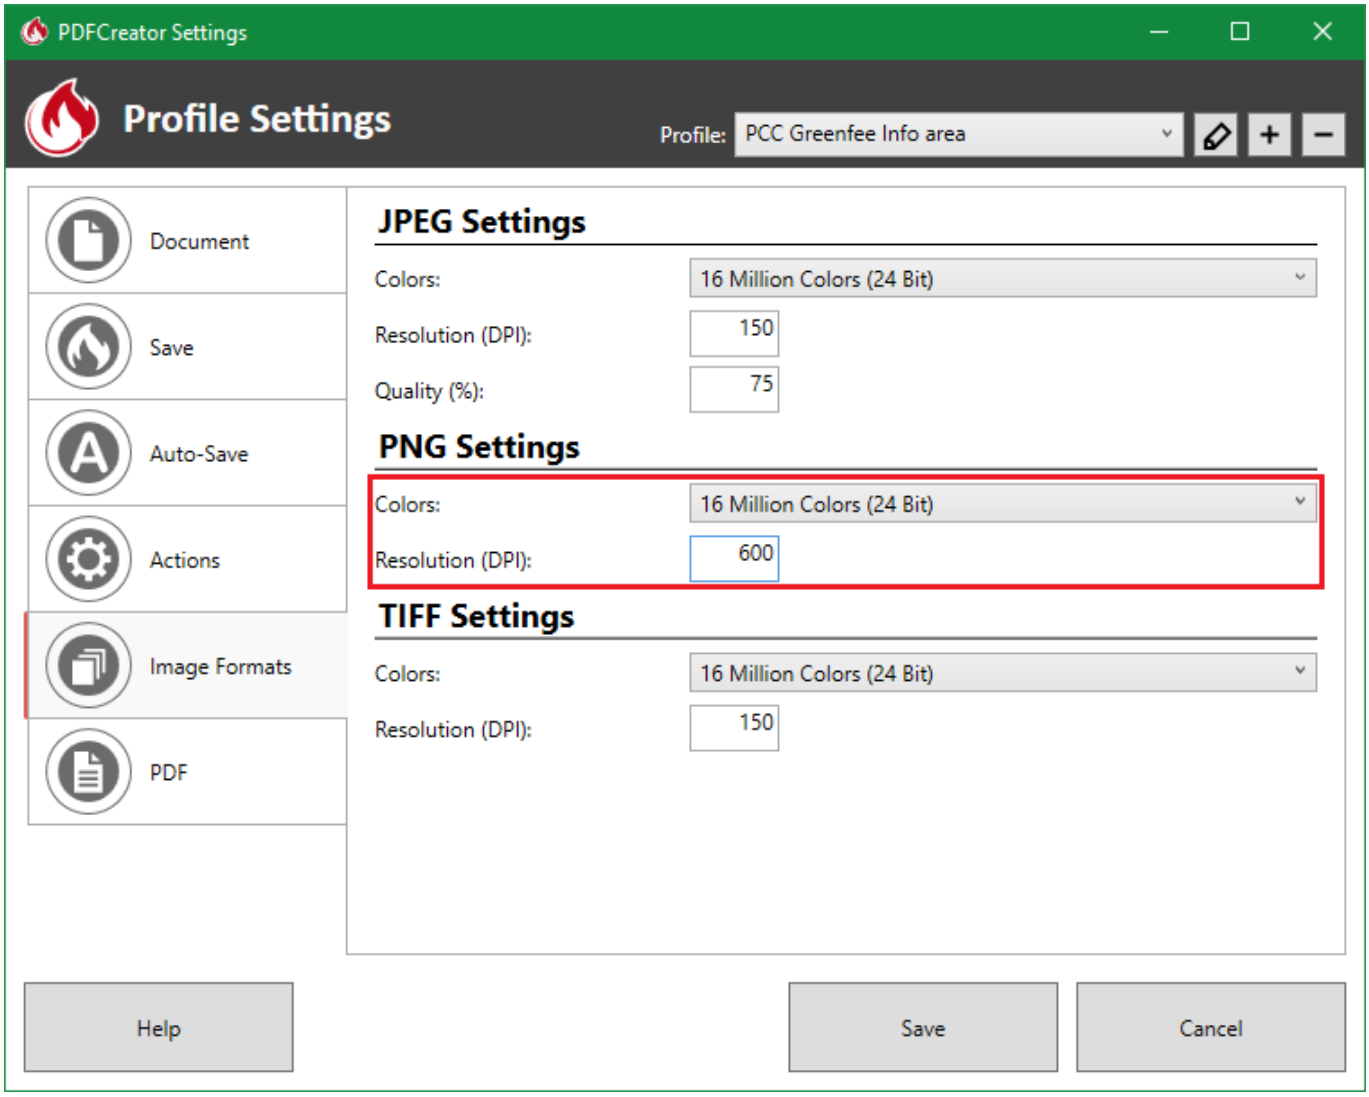

- Target folder: This path can be set using the macro **textpath** macro

Under the tab **Actions** tab, tick the **Open document** tab.

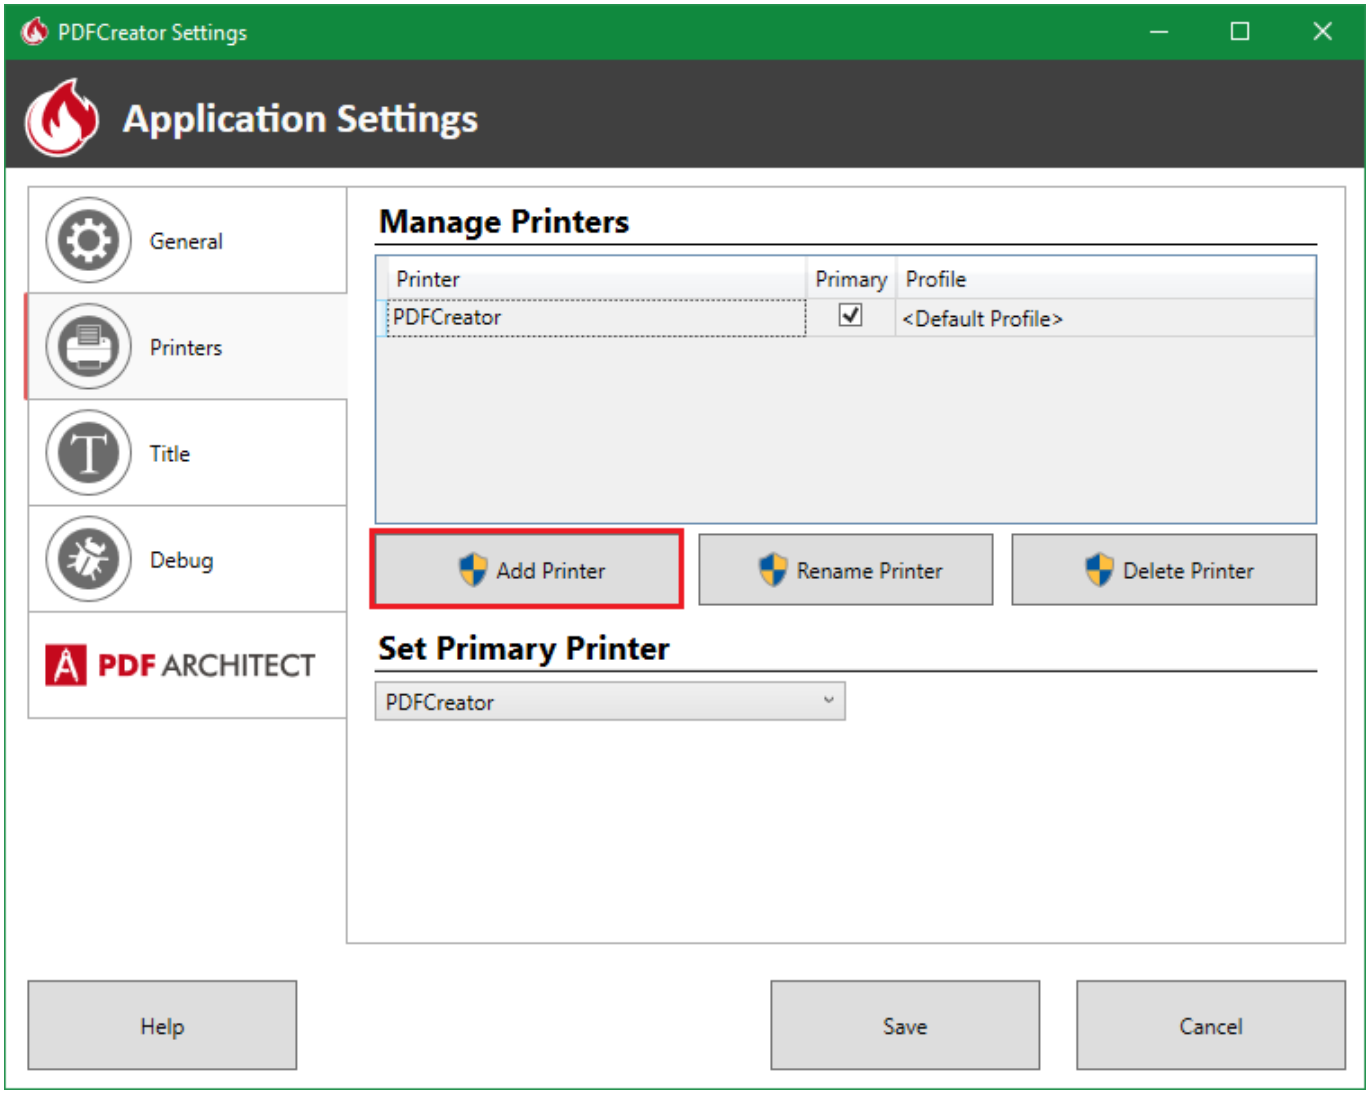

Under the tab **Image formats** tab, apply the settings as shown in the following image.

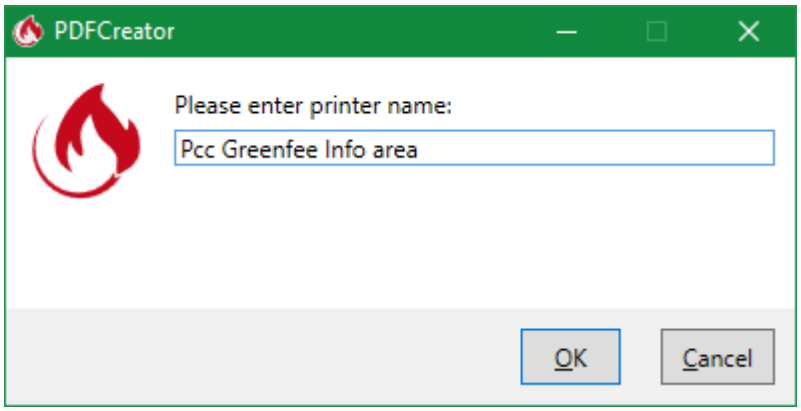

Close the dialogue via **Save** to exit the dialogue.

Create printer

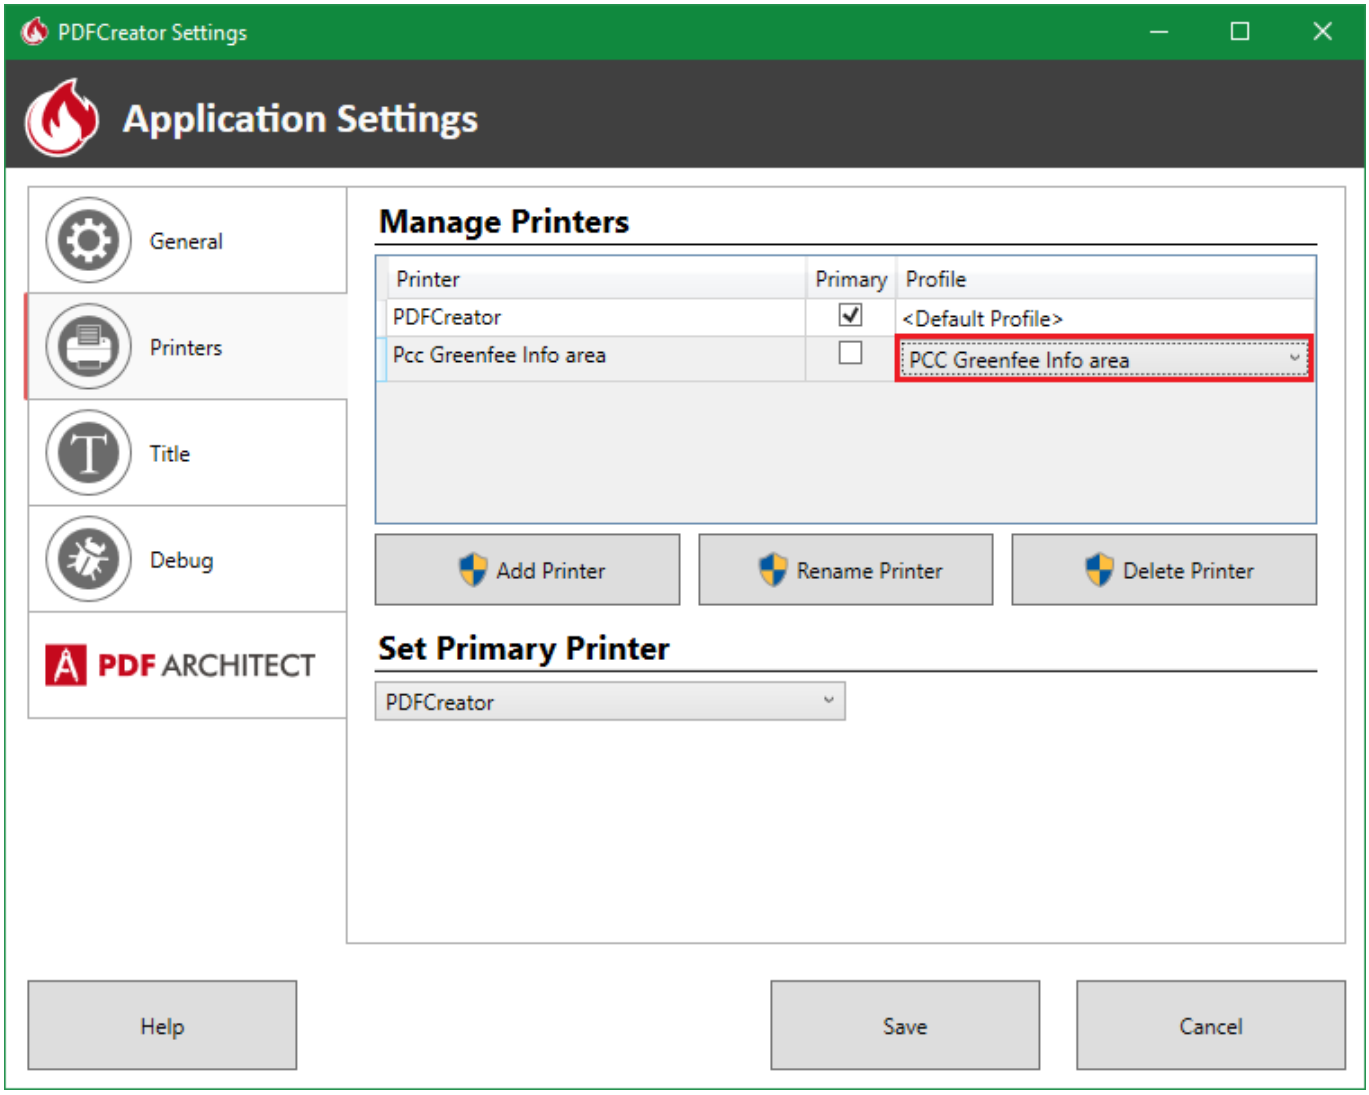

Under the tab **Printer** tab, click on the **Add printer** button.

Give the printer the name **PCC Greenfee info area** to the printer.

When creating a new printer, the previously created profile **PCC Greenfee info area** profile created earlier.

Close the dialogue via **Save** to exit the dialogue.

From now on, printouts to this printer should appear in the PC CADDIE Greenfee info area window.
