

# Terminal interface

For clubs that work with the Promec terminal, a corresponding interface to PC CADDIE must be installed beforehand. The Promec terminal has its own software that retrieves and synchronises the data (timetable occupancy, tournament registrations, etc.) from PC CADDIE.

For this purpose, the terminal is connected directly via a COM interface to a computer on which PC CADDIE is installed and running. In order to make the two systems capable of communicating, the interface is installed in PC CADDIE accordingly.

Please setup the interface here:

Type: PROMEC

COM: 1

Parameter: {57600,"O",8,1,"N"}

Activate CHK-SUM

Retry: 3

Timeout: 2.0 Seconds

Databases: 30.0 Seconds

Address(es): 0

Courses: 1: [ ] [ ]  
2: [ ] [ ]  
3: [ ] [ ]  
4: [ ] [ ]  
5: [ ] [ ]  
6: [ ] [ ]

Acc. Area: UMSATZ

HTML-Folder: [ ] [ ]

Edit HTML-file with club-information

Print Turnover-Accounts F8
