Caddie box plans

Example layouts for chip cards and tags

Below we show you a few examples of customised layouts for MIFARE chip plastic cards and tags/tags.

The offers for printing individual club layouts are based on the delivery of a professional layout with images, logo, font, colours, etc. All the necessary specifications and print data for forwarding to your graphics department and for creating a print-ready file can be found here: Druckvorgaben Open PDF >>>

If you do not have or cannot design your own club layout, PC CADDIE can create simple layouts for you on behalf of the customer.
These design variants are available Auswahl:Karten_Auswahllayouts Open PDF >>>
