

Annual Handicap Review

Since the introduction of the WHS (World Handicap System), the AHR can only be calculated by the respective golf associations, as the associations have assumed sovereignty over the handicap calculation.

AHR - Switzerland

Together with Swissgolf, PC CADDIE has created the possibility to load the proposals of the AHR calculation (Annual Handicap Review) from SwissGolf for further processing.

For the annual handicap review (AHR Annual Handicap Review), you can load the proposals for handicap changes from SwissGolf.

Information on the [HCP Review](#) can also be found at SwissGolf

Start in PC CADDIE **Handicaps - Annual Handicap Review** or click the button and in the further **Annual Handicap Review for members**

You will then immediately receive a list of suggestions from members for whom a handicap adjustment could be useful. Members for whom no change is necessary are not included in the list. The list can therefore be very short:

The screenshot shows a software window titled "Handicap revision". The interface includes a toolbar with icons for "Edit" (pencil), "F7" (refresh), "OK" (green checkmark), and "Abbruch" (red X). The main area is a table with columns: Name, Scores (Total, Year), Differential (EDS, Comp.), Handicap (Lowest, Highest, Today), Suggest, and Confirm. The table contains three rows of data. The first row is highlighted in green, indicating it is selected for editing.

Name	Scores		Differential		Handicap			Suggest	Confirm
	Total	Year	EDS	Comp.	Lowest	Highest	Today		
	52	26	59.00	18.29	13.4	20.0	13.4	16.3	30.05.22
	29	15	59.00	15.38	11.6	14.9	11.6	14.5	---
	6	6	31.10	35.62	29.1	31.1	29.1	31.7	---

If we open the 2nd member here with EDIT as an example, we get more information:

Handicap revision

Edit Handicap revision:

Name:	<input type="text"/>
Scores total:	29
Scores this year:	15
Differential in EDS:	59.000
Differential in Competitions:	15.383
Lowest Handicap:	11.6
Highest Handicap:	14.9
Handicap:	11.6
Proposed new Handicap:	14.5
Confirmed new Handicap:	14.5

OK

Abbruch

[Check Scoring Record](#)

If you press ok here, the proposed HCP will be adopted.

There is an obligation to check the handicaps. There is no obligation to accept the proposed changes.

The decision as to whether a handicap is adjusted as part of the handicap review lies with the handicap committee of the player's home club.
