Hotel

Hotel Software / PMS

PC CADDIE Hotel Management - based on our centralised customer and guest management system - is just the thing for your small, fine hotels, manor houses, guesthouses or even your motorhome pitches. From room reservations, check-in and check-out to room invoices and door locking systems - with PC CADDIE HOTEL you have a software solution that can be fully integrated into your existing programme. Your guests can also book and cancel rooms online or access special wellness offers and additional services. We can provide online bookability with PC CADDIE on your homepage. A link with the Hotel Spider channel manager also allows further online bookings via various portals.
