Hotel articles

Different price levels for hotel articles

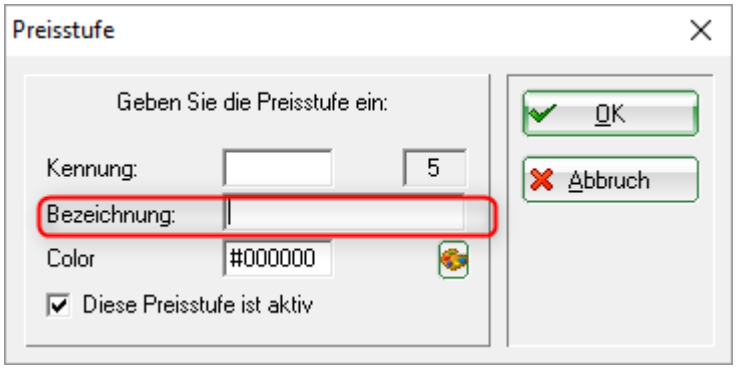

Under Articles you will find the new menu items ***Edit price levels*** and ***Edit price level rules***. Special parameters are required for this, please contact PC CADDIE Support.

Under ***Edit price levels*** you enter the different price levels that are defined in your hotel.

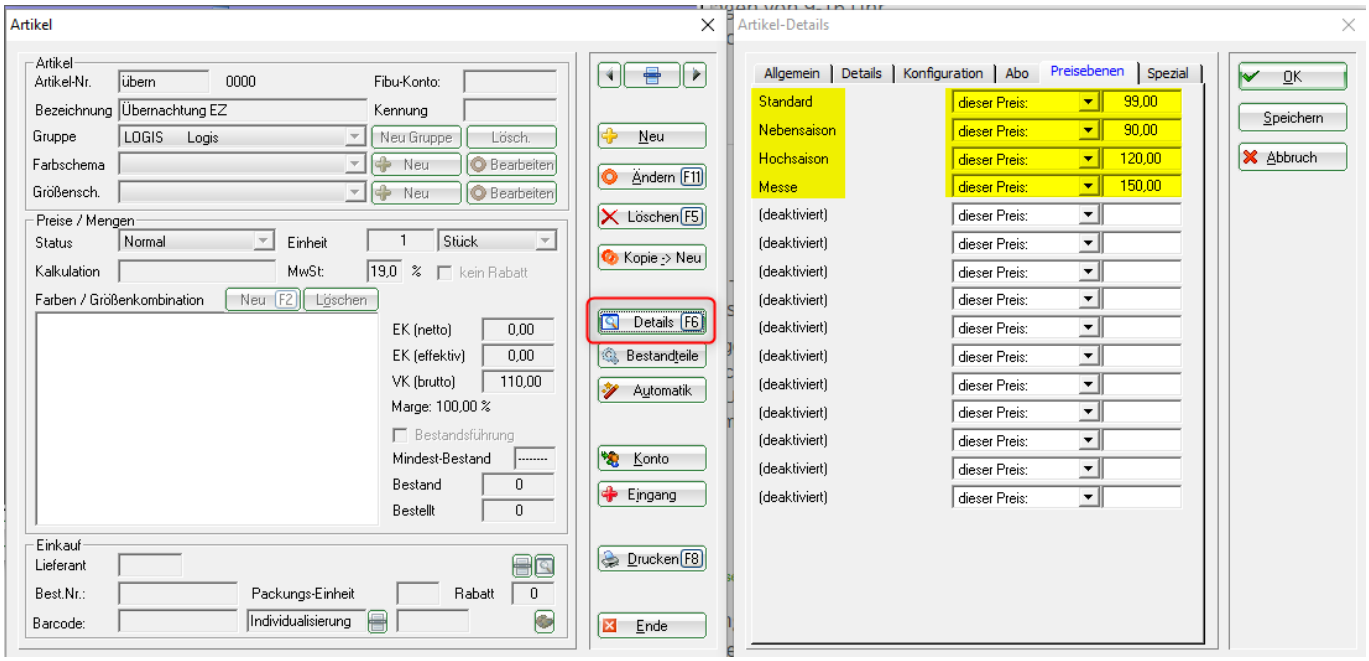

1. With the help of ***New*** you create a new price level.
2. With the help of ***Edit*** to edit a price level.
3. With the help of ***Delete*** to delete a price level.
4. You can move the various price levels upwards or
5. downwards

If you want to enter a new price level, click on ***New***

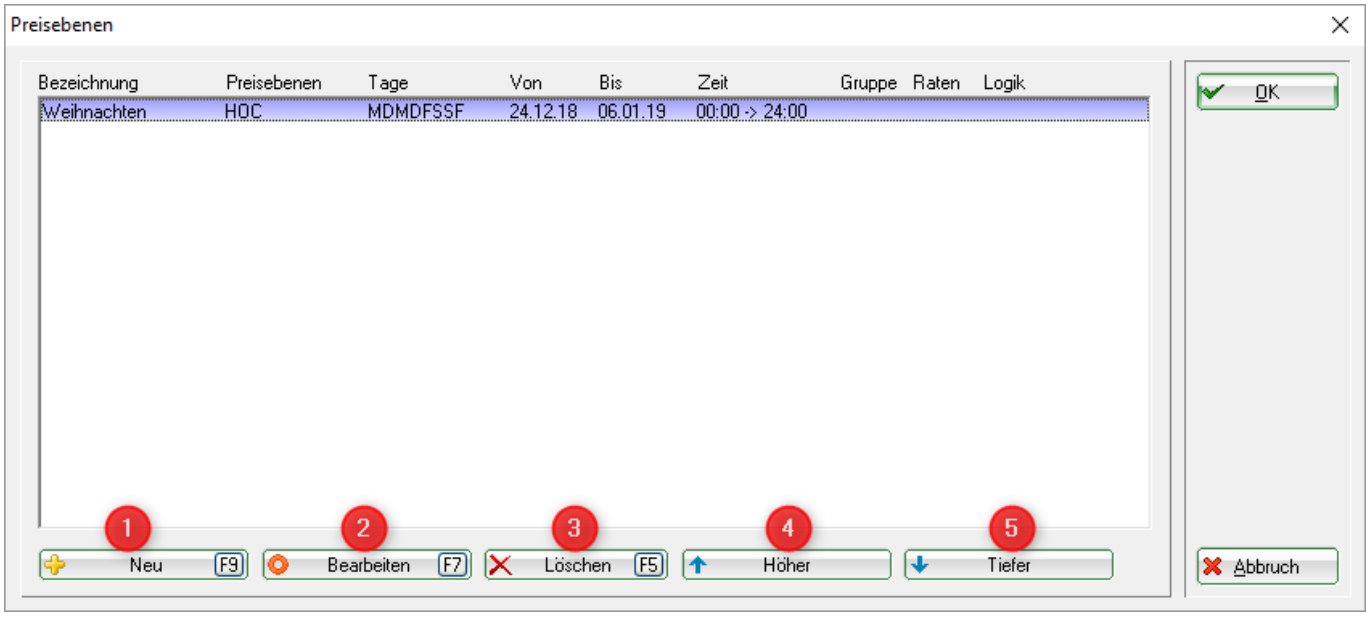

Please fill in the field ***Designation*** field with your desired designation. The ***identifier*** is assigned automatically by PC CADDIE.

As soon as all price levels have been defined, they will be displayed in an article under ***Details*** and the tab ***Price levels*** tab:

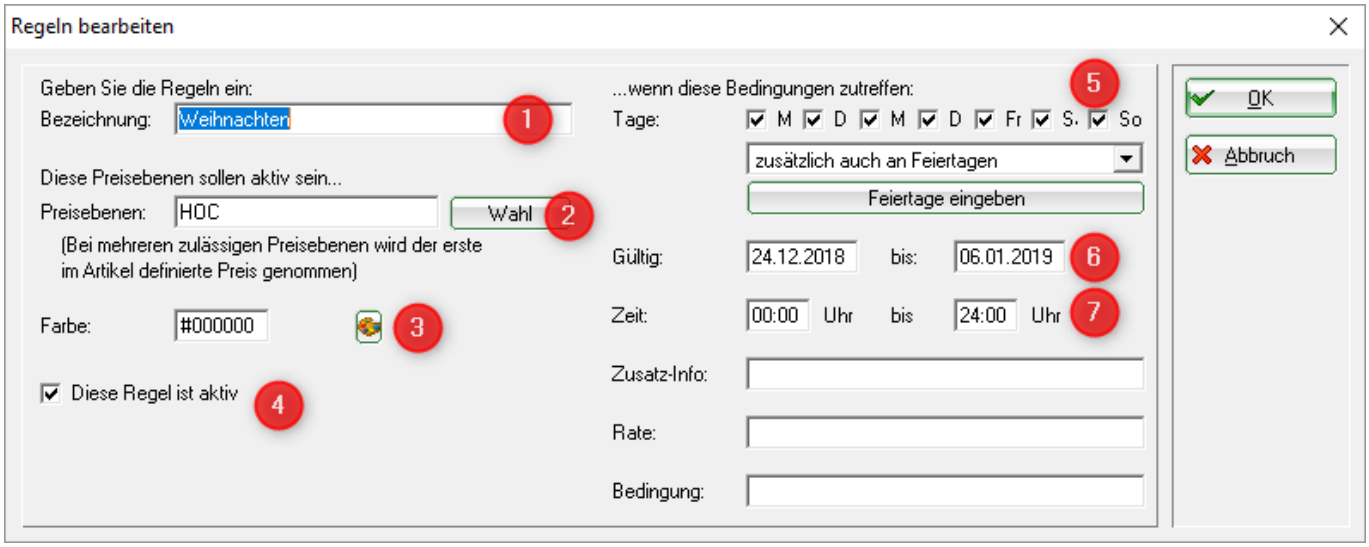

Please insert your own prices in the line provided for the respective price level.

At what time does which price apply? You define the answer in the rules. Under ***Edit price level rules*** enter the corresponding rules for the price levels defined in your hotel.

1. With the help of ***New*** to create a new rule.
2. With the help of ***Edit*** to edit a rule.
3. With the help of ***Delete*** to delete a rule.
4. You can move the various rules upwards or
5. downwards

If you want to create a new price rule, click on ***New***:

1. please enter the appropriate name for your rule.
2. Click on ***Choice*** to define your appropriate price level for this rule.
3. You can colour-code your rule.
4. you can activate or deactivate the rule by ticking this box
5. please define the corresponding days on which this rule is valid
6. please define the validity period during which this rule is valid
7. please define the time frame in which this rule is valid
