

Hotel room

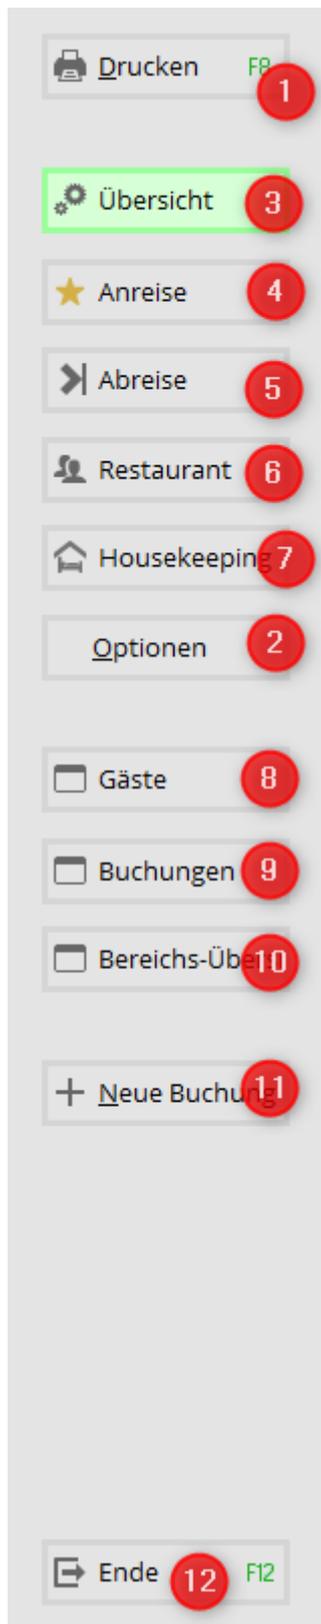

This menu item takes you directly to the Hotel Rooms window. This window provides an overview of who is in the hotel or has a reservation.

The screenshot shows the 'Hotel-Zimmer (7)' window. At the top, there are navigation buttons: 'früher' (F3), 'Do' (19.08.21), 'Refresh' (F5), 'später' (F4), and 'heute'. A 'Artikel' checkbox is checked. The main table has columns: Status, Zimmer, Buchung, Information, Anreise, Abreise, Aufenthalt, and Gast. Two reservations are shown: E03 (Bussbaum, Simone) and E04 (Frankfurt, Michaela). Below the table is an 'Artikel-Summen' section. On the right, there is a sidebar with buttons for 'Übersicht', 'Anreise', 'Abreise', 'Restaurant', 'Housekeeping', 'Optionen', 'Gäste', 'Buchungen', 'Bereichs-Übersicht', and 'Neue Buchung'. At the bottom, there are buttons for 'Legende', 'Sauber', 'Zimmer bearbeiten' (F7), 'Buchung bearbeiten' (F11), 'Beherbergungsstatistik', 'Nachlauf', and 'Ende' (F12).

1. Enter the desired date
2. with the help of **Refresh** Confirm
3. **later** select one day later
4. **earlier** chooses one day earlier
5. **today** selects today's date
6. the display of reservations with articles
7. the display of reservations can be sorted according to the individual columns. Please click on the desired column: in our example, the list is sorted by room.
8. the display of the individual reservations in our example includes the articles as well as the information for housekeeping (HK) and the restaurant (R). This can be changed with the help of **options** can be customised.
9. the totals of all articles of the displayed reservations
