

Operating the cash register

Please change to a cash register account area, e.g. **SALES**.

Now call up the cash register via the button **Call cash register** button in the PC CADDIE toolbar or via **Umsätze/Kasse**:

The open cash register window looks like this:

Select customer

In the field **Customer** (F9) field, enter your customer's search abbreviation, the full name or just part of the name and the matching persons will be displayed. Another option is the list function button to the right. If you have a Cherry keyboard, you can swipe the magnetic strip of a DGV card and the customer will be dialled immediately.

If the person does not yet exist in PC CADDIE, they are entered with **Create new person** to create a new person. Alternatively, you can create a person to whom the booking is made if you do not want to create the person separately, e.g. for the sale of a golf cart. To do this, create a „Guest“ or „Walk-in customer“ person.

As soon as the customer is selected and appears in the cash register, various small icons may appear, such as a white R in a golden circle, a golden card, a syringe or a house:

The screenshot shows the 'Kasse' (Cash Register) interface. At the top, there is a header 'Kasse' and a login field 'Anmelden (Tester)'. Below this, there are filters for 'Time' and 'Buchungstag' (01.02.22). A 'Kunden-Filter' section shows 'Bediener' (unchecked) and 'Kasse 2' (checked). On the right, there are star ratings and labels 'Neu', 'A', 'B'. The main area displays a list of transactions with columns for amount and name. Three specific transactions are highlighted with red boxes and numbered 1, 2, and 3:

Amount	Icon	Name
0,00		test
0,00		test
0,00		chri
0,00		test
0,00		test
0,00		test
0,00		test
0,00		test
0,00		test
0,00		111 test
1,00		105 test
4,00		test
0,00		test

At the bottom, there are input fields for 'Kunde (F9)' and 'Artikel (F1)' with a menu icon between them.

This has the following meaning:

1. R = Regionality mark on the DGV card
2. Card = Association player, e.g. Migros Golfpass or PPG player; syringe = Verified Covid certificate
3. House = Hotel guest who is currently staying at the hotel.

This has the following meaning:

Select item

In the field **Article** (F1) field, there are several options for selecting items:

- Enter the search abbreviation of the article
- Enter the name of the item or just part of the name
- Button list function (F2)
- For existing labels with barcode by scanning the item

After **OK** the item is immediately posted to the cash register. After the selection, you can change the quantity in the **number** field accordingly. For faster item selection, we recommend using the quick selection function, see chapter [Quick selection](#).

When you select an item with the status „Bag tag print“, the „Book green fee“ window appears.

1. If you would like to print four bag tags for one person, increase the „Number of players“ to „4.00“.
2. Enter a special price for this customer
3. Add a different player here (the bag tag will be printed with this name).
4. This additional text can be printed on the bag tag if desired.
5. Various course data fields can also be integrated on the bag tag.

The more precise settings for your bag tag are made in the [Cash desk](#) section. Please also contact PC CADDIE Support for this.

After **OK** the article is posted to the cash register.

The checkout window now shows your customer on the left-hand side and the selected item on the right-hand side:

You can book in several items in succession for one customer at any time.

With the help of the button **green fee** button (F8) will take you straight to the „Book green fee“ window. If you wish to print out your green fee again, click on **Repeat** and **GF wdhl.** (F8).

Pay article

You start the payment process by pressing the button **Pay** (F12). The payment window looks like this:

1. You now select the desired payment method by placing the cursor in the corresponding field, the amount changes immediately. You define which payment methods are available for selection in this payment window at another point: [Payment methods](#)
2. Set the receipt print according to your requirements.
3. The function **Post to invoice to account** function can be found in the next chapter.
4. Prints an interim statement without finalising the payment process.
5. Here you have the option of transferring the payment to another person. You will see the following window:

By entering the corresponding person, the payment for this person is booked.

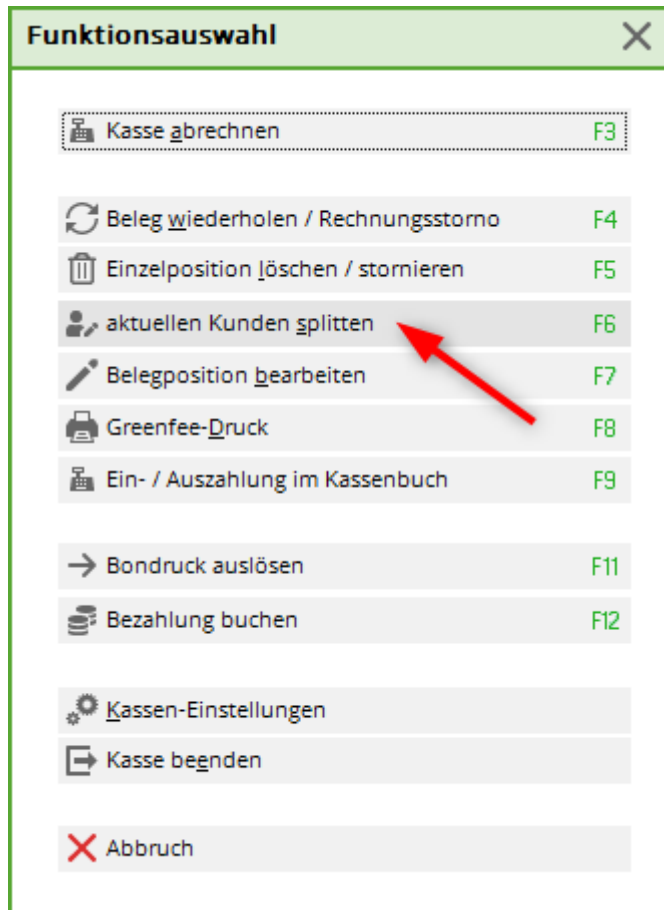

Press **OK**, the payment process is completed. With **Repeat** (F4) in the cash register, you have the option of viewing your booking again.

Article - Split payment

If you have the items in the checkout and want to split the amount, click on the magic wand in the checkout.

The screenshot shows a POS system interface titled "Kasse". At the top, there are tabs for "GASTRO" and "UMSATZ". The current user is "Anmelden (Carmela)" and the date is "19.08.20". The customer name is "Sonnenschein, Susan. (-)" and the account is "Golfclub Sonnenhof" with a balance of "Soll: 100.00". A red arrow points to a magic wand icon next to the account name. Below this, there are buttons for "Neu", "+", "-", "Edit", and "Entf.". The main area shows a list of items: "Sonnenschein, Susan. (-)" with a price of 40.00 and "1 Jugend Sonn/Feiertags" with a price of 40.00. At the bottom, there are buttons for "Kunde (F9)", "Artikel (F1)", "Zahl 1", "Speziell F7", "Storno F5", "Pers_Edit", "Konto", "Karte F6", "Greenfee F8", "Ein/Auszahlung", "Bezahlen F12", "Wiederholen F4", and "Ende".

Then click on Split current customer

1. select the customer to whom you want to split the items. 2. select the item you want to drag to the selected customer.

Then click on Done or click on Pay. If you click on ready, the items are assigned to the selected customer and you can book further items. If you click on pay, the payment will be made immediately.

Working with the card system

You also have the option of working at the checkout with the [PC CADDIE.id card system](#) at the checkout. Via the button **card** button in the checkout screen you can [Edit cards/key fobs etc..](#)

Cancelling articles

You can cancel a booking that has not yet been paid for and is still in the checkout using the **Delete** button (F5) from the cash register.

You can only return a booking that has already been paid to the cash register via a cancellation process if no daily closing has yet been created. To do this, select **Repeat** (F4). In this window, you will see all the bookings that have been made. Select the booking to be cancelled and click on **Cancellation**. You receive the following selection:

You now have the option of cancelling the **payment method** to change the payment method. This can happen if the guest realises when paying that they do not have as much cash available as they need, but you have already completed the payment process with cash payment. With (**Pay** (F12) you can now select EC payment, for example.

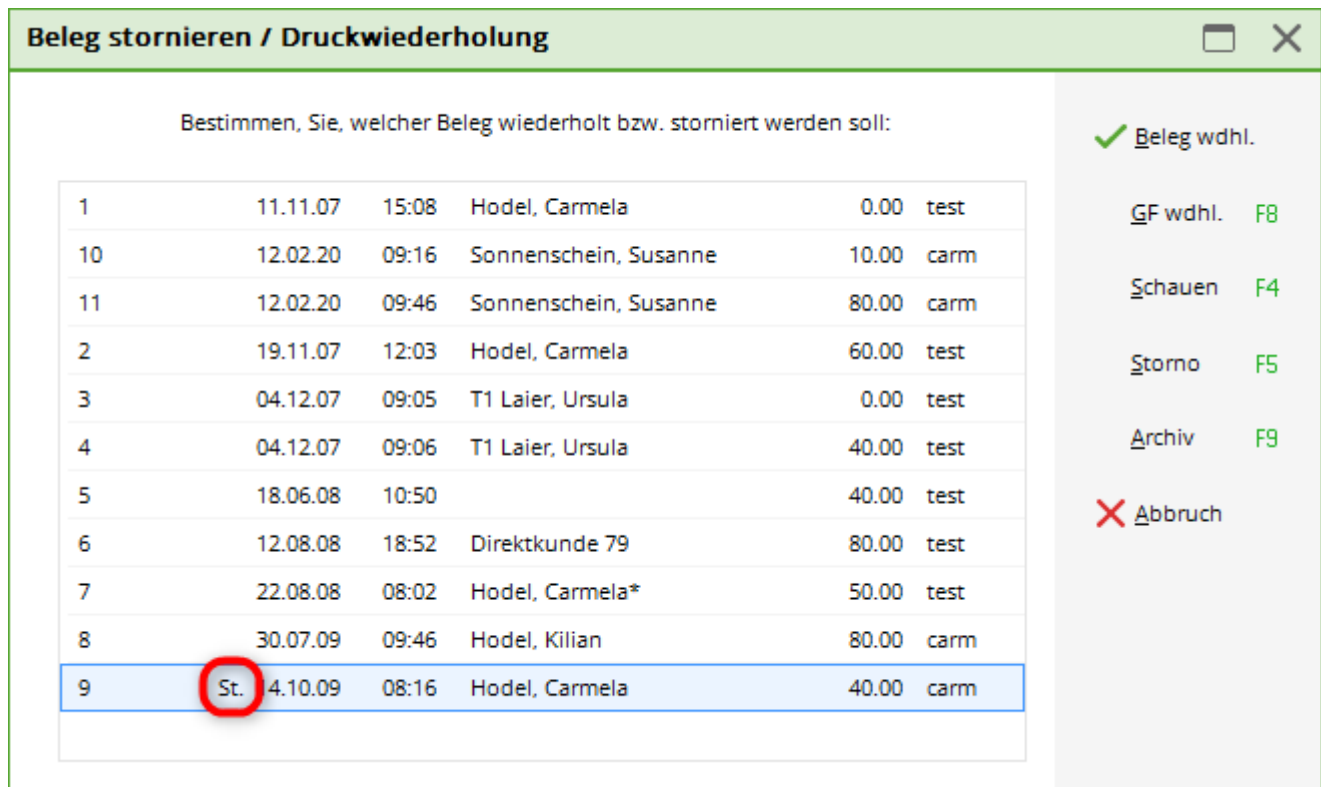

If the item is to be cancelled completely, click **Cancellation** (F5):

✓ OK

Through **OK** the offsetting entry is made and with **Pay out** to end the process. Your original booking is now completely cancelled. Under **Repeat** you will see the first article booking with the two letters „St.“ for cancellation.

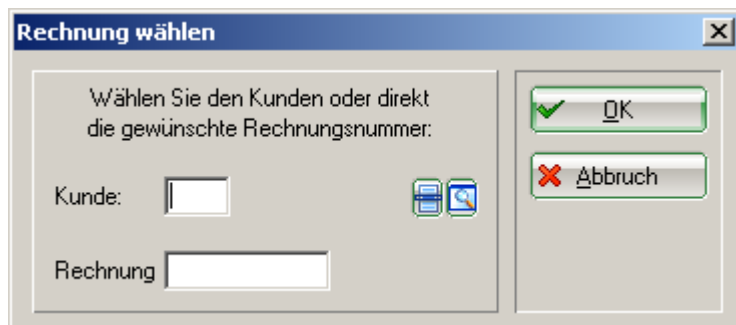

With **Cancel invoice** (F5) the **invoice** is cancelled, the payment is retained and the money remains in the cash register. This can happen, for example, if a guest complains that they have not received the token on the invoice and do not want one. In this case, you must make a payment from the cash register.

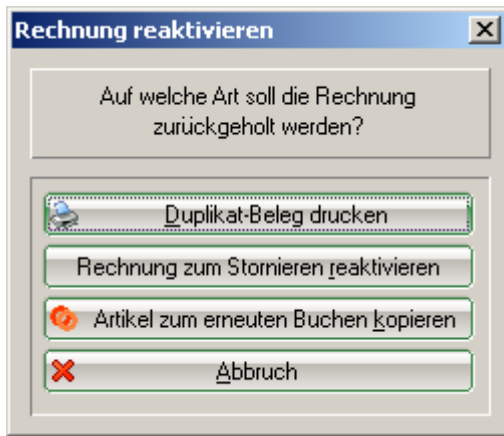

For example, cancel the token. If you click on **Pay out** the corresponding amount is suggested as the payout amount in the payment screen. You pay this money to the customer.

Cancelling items after the daily closing

As soon as a daily closing has been carried out, all transactions are completed and can be cancelled under the button **Repeat** button are no longer visible. With the help of **Archive** you can retrieve the posting to the cash register accordingly.

After entering the customer and the invoice number, which you have to select in advance from the account entries, the following window opens:

With **Reactivate invoice for cancellation** you bring the entire booking back to the cash register. By selecting the article and **Cancellation** the booking is corrected.

Another cancellation option is to work with a minus sign. Select the customer again in the cash register, book the green fee article that is to be corrected and enter the number of players in the field **Number of players** field, enter the corresponding number of corrections with a minus sign, for example „-1“:
