Subscription list

This menu item gives you a quick overview of the various subscription articles. You can either click on ***Sales/Print.../Subscription list*** or via ***Articles/Print.../Subscription list*** go.

To do this, select the desired item, adjust the date if necessary and click on ***Print.***

You will receive a clear list showing the number of subscriptions purchased, the number of redeemed subscriptions and the remaining credit.

Please note that the quantity information refers to the number of individual items and not the number of subscriptions. In this example, a subscription consists of 11 coffees, so the sales figure is 11 if one subscription is sold or 22 if two subscriptions are sold. Consumption and remaining balance are also based on the individual number.
