PC CADDIE://online CRM plus Single Sign On

This service provides various information in a password-protected area on your website, which we would like to present to you below. With just one login, you can log in to the website or golf club APP at the same time - you are also logged in to the PC CADDIE://online services at the same time.

Single Sign On

One login for all services on your golf course?

That's no problem with our Single Sign On interface. If you would like to purchase this as a ready-made plugin, you can find more information at gkmbCADDIE members only typo3-Extension for further information.

Personal welcome

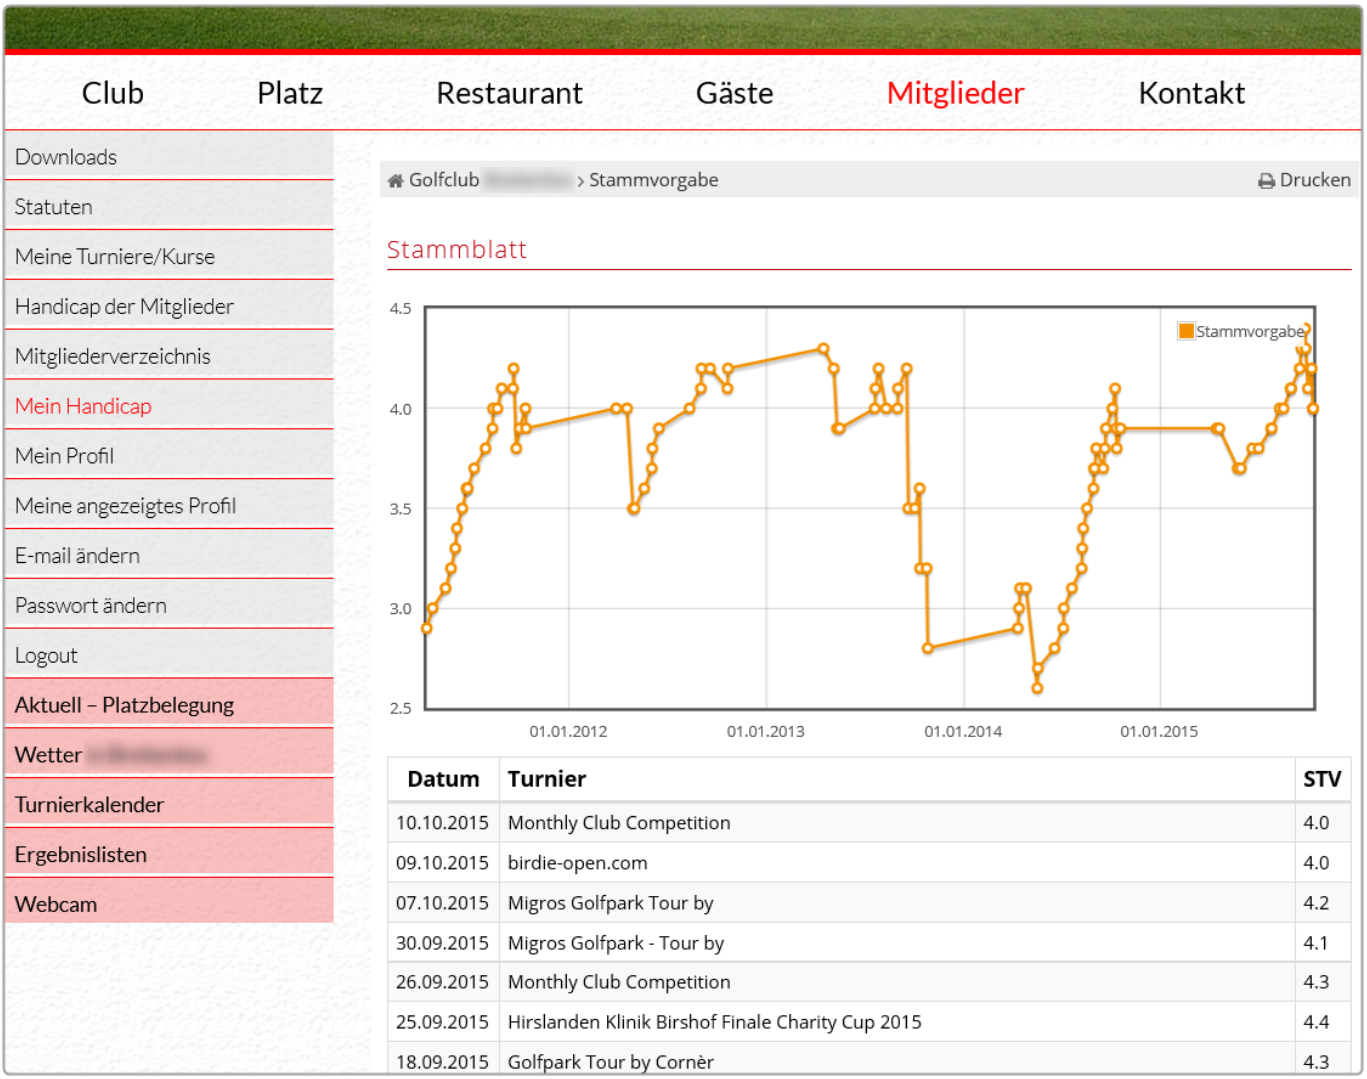

After successful login a personal greeting can take place if desired. This could be followed by a current text. There are no limits to your imagination here - e.g:

„Dear Mr Heck, welcome to the members' area of Golfclub Sonnenschein! Here you will find our latest information...“

All fields are available via XML interface.

Master sheet

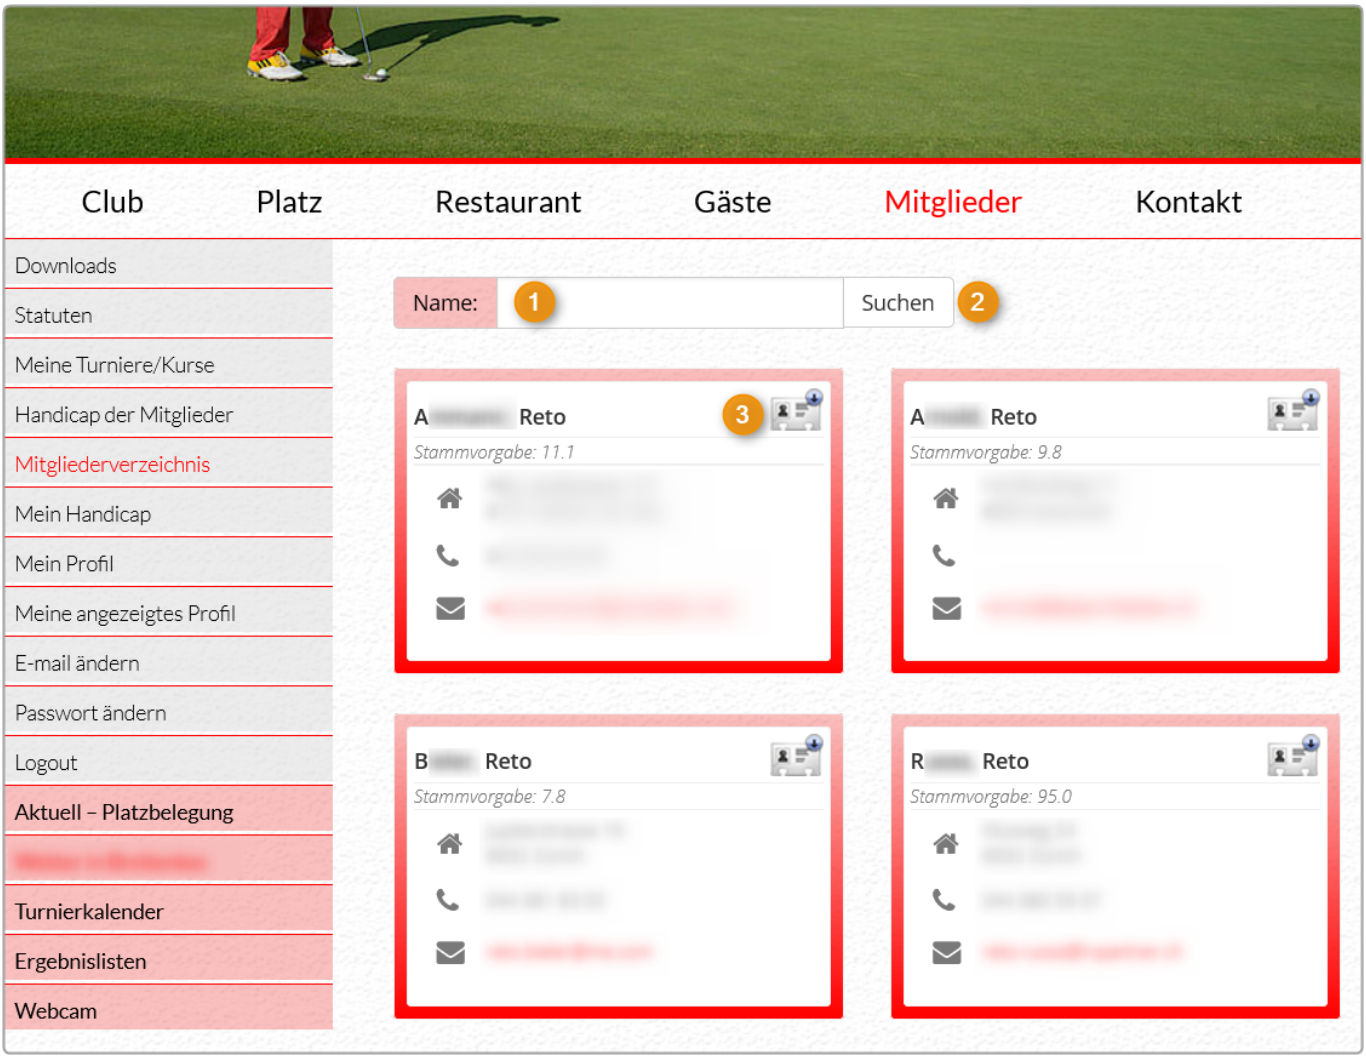

The personal master data sheet can be implemented (prerequisite PC CADDIE://online APP plus responsive design).

Member directory

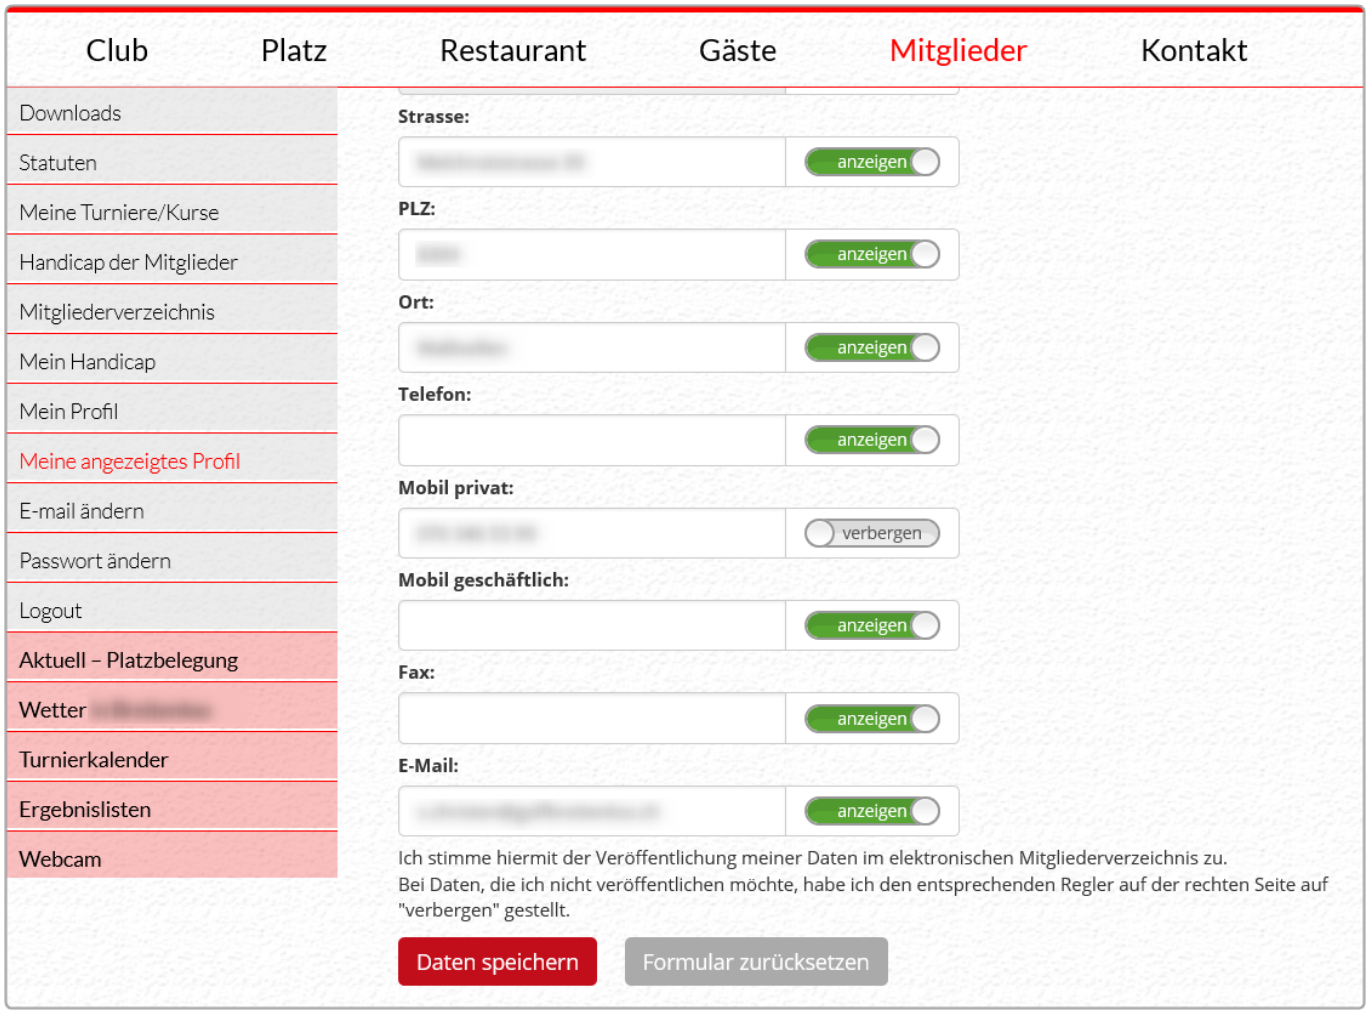

Your member can easily search for other members via the member directory.

1. Enter search term
2. **Search**
3. **Address import** by clicking on the V-Card symbol

Display and maintain personal data

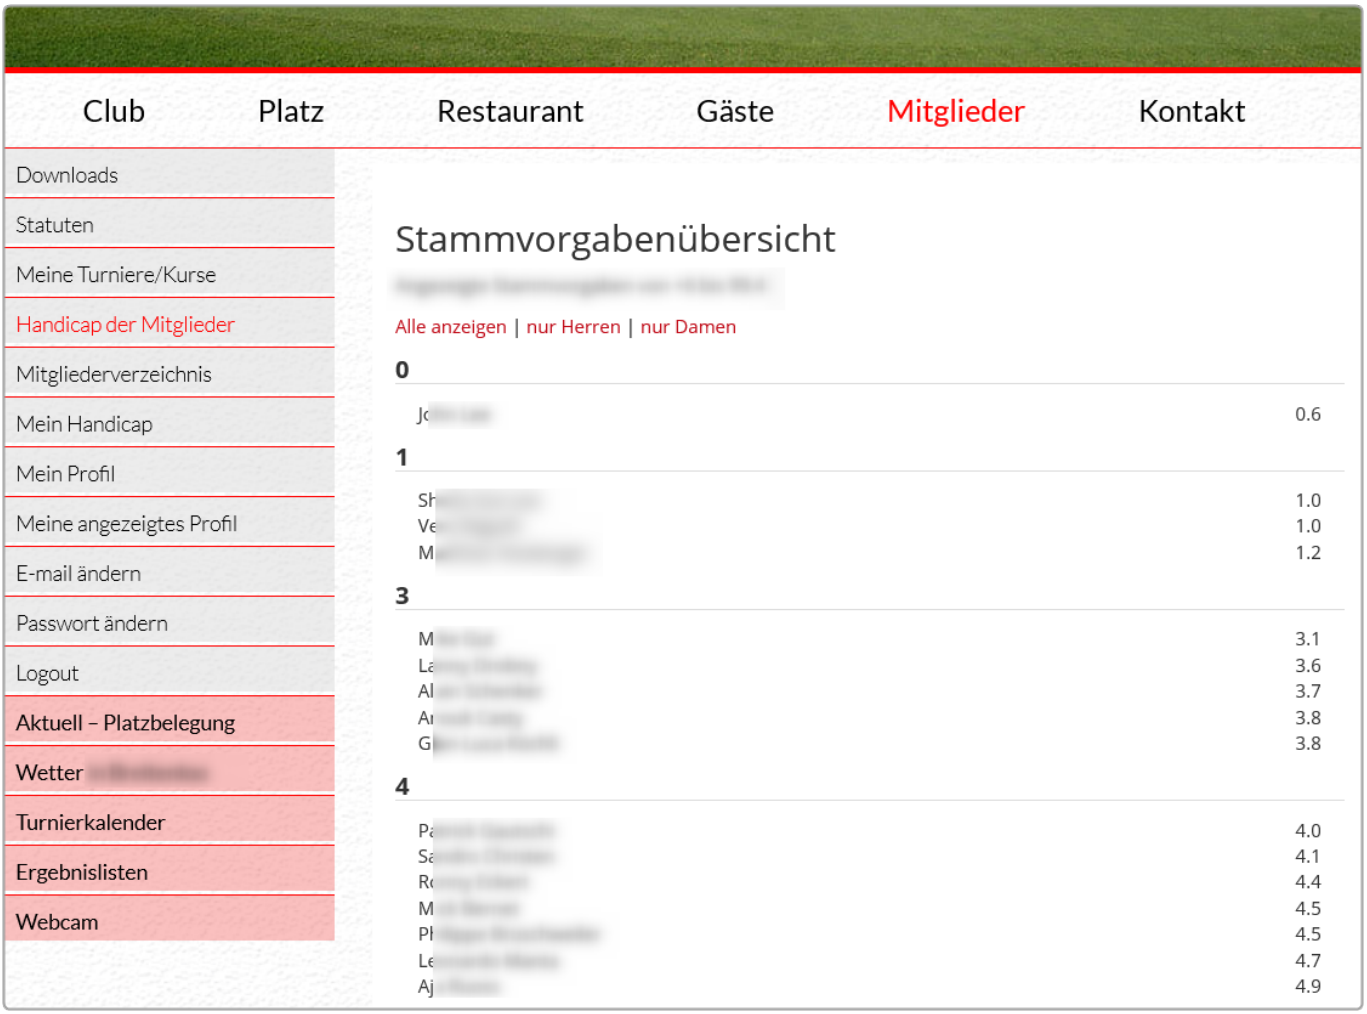

The purpose of this section is to allow club members to view and change their data in an internal area.

- The data can be changed online.
- This saves administrative work and the customer is „in control of his details“. About **show** and **hide** he determines the visibility of his data in the member area.
- Via CRM\DMS the entry is displayed and adopted in the local PC CADDIE.

Handicap list

The handicap list is automatically updated according to your members. Interested members can view this in the Members Only area and even sort it by **ladies** and **men** men and women. The manual posting of the Handicap list could be omitted.

GKMB birthday service

You can send your members and customers an attractive and of course personalised birthday message designed in your company layout without any work. The ClubWebMan® birthday service reliably ensures that the message is sent on time. To keep you informed, you will receive a short information e-mail immediately after the message has been sent, listing the people who have received a congratulation.

The one-off set-up fee for the ClubWebMan® birthday service includes the installation and preparation of the service. We also take over the congratulatory text you specify.

The monthly service fee includes software maintenance and the daily congratulations service for up to 500 people per day.

It is possible to obtain the recipients from the PC CADDIE://online CRM fully automatically.

</ignore>Hier See a possible example for the Golfclub Thunersee.

Please feel free to contact your PC CADDIE://online Customer service or send an e-mail directly to GKMB GmbH: info@gkmb.de .
