PC CADDIE://online Scorecard calculator

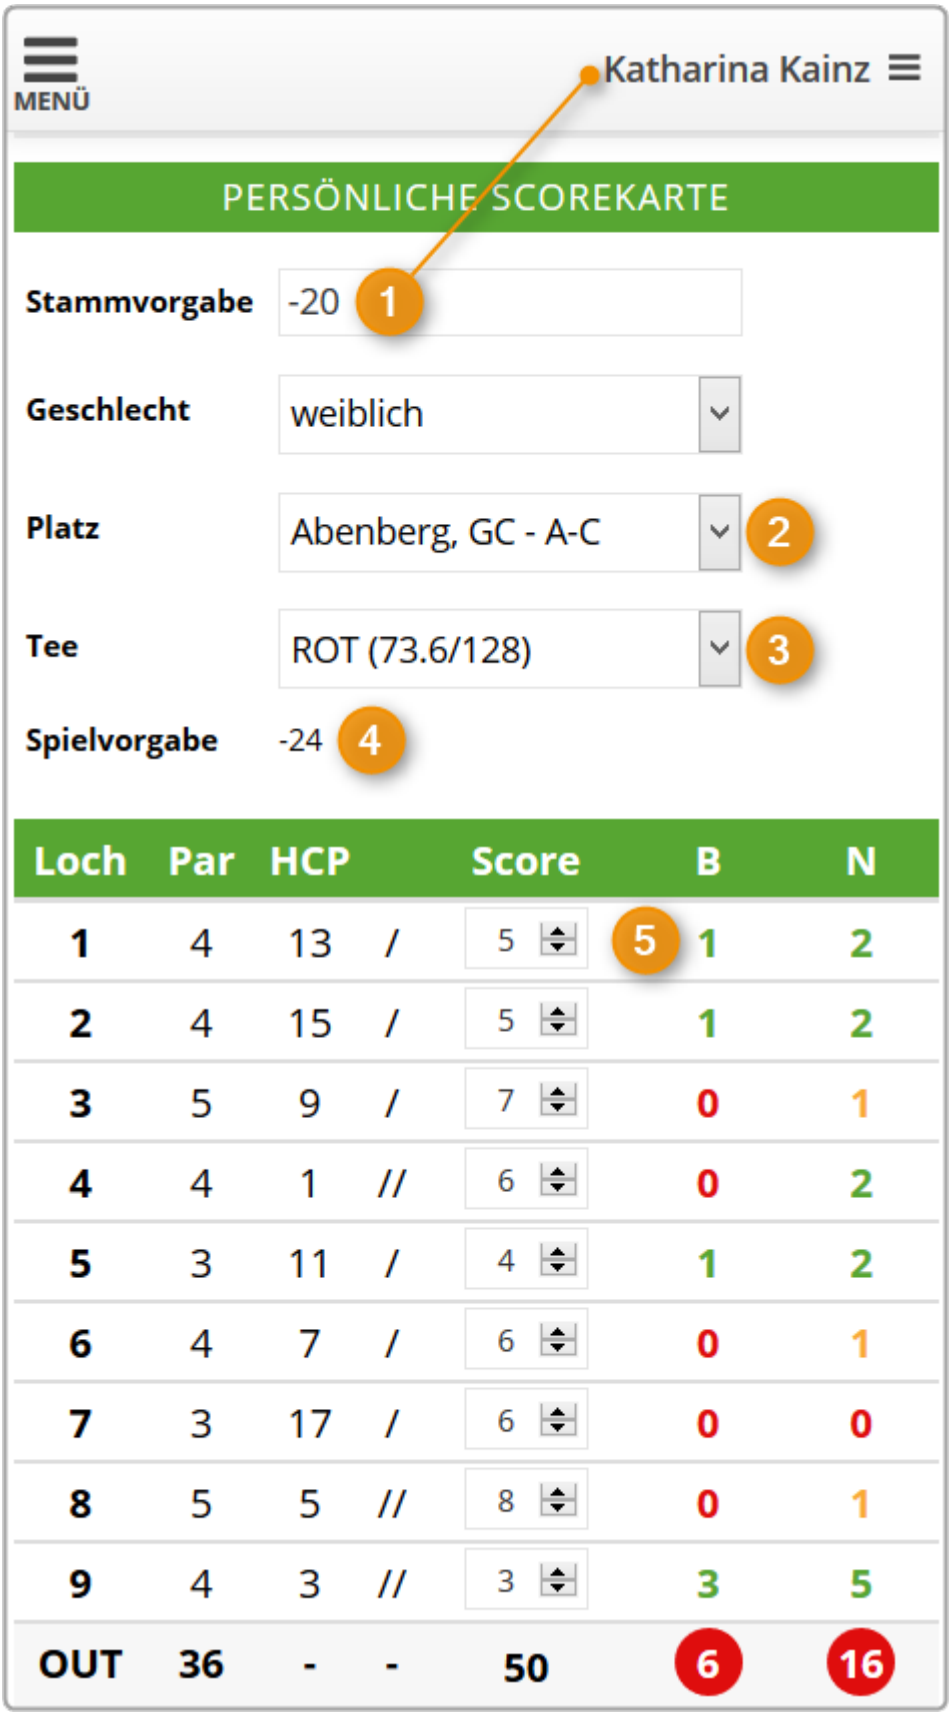

The scorecard calculator is an additional feature of our PC CADDIE://online APP plus responsive design. Thanks to its responsive design, it adapts perfectly to your output device and offers great user convenience.

Load course data

In the scorekarten-rechner you will find the menu item Scorecard calculator. You can use this to load the course data created in the PC CADDIE programme into the PC CADDIE://online world.

Application in practice

The scorecard calculator offers the following services:

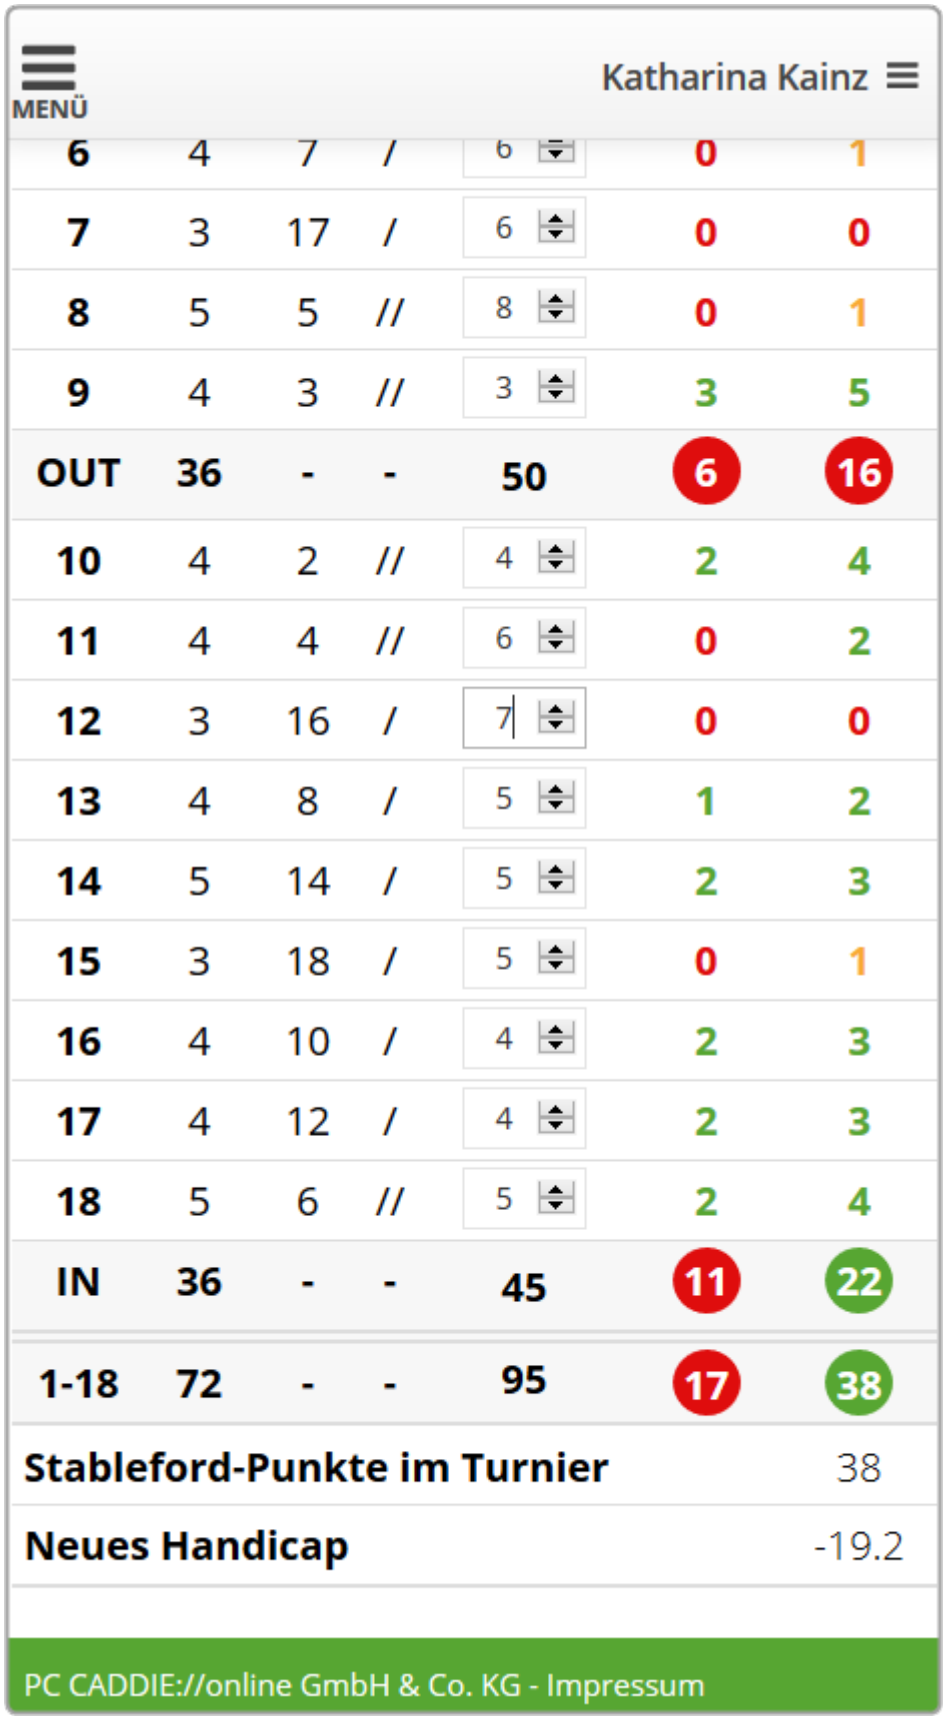

1. Based on the logged-in user, the scorecard calculator takes over both the master handicap and the gender. In the user menu (in the example Katharina Kainz) under **My Golf/Handicap** the data could be checked.
2. The course data or courses loaded via the scorekarten-rechner loaded course data or courses are available for selection.
3. Depending on the gender, the scorecard calculator offers the respective rated **tees** in each

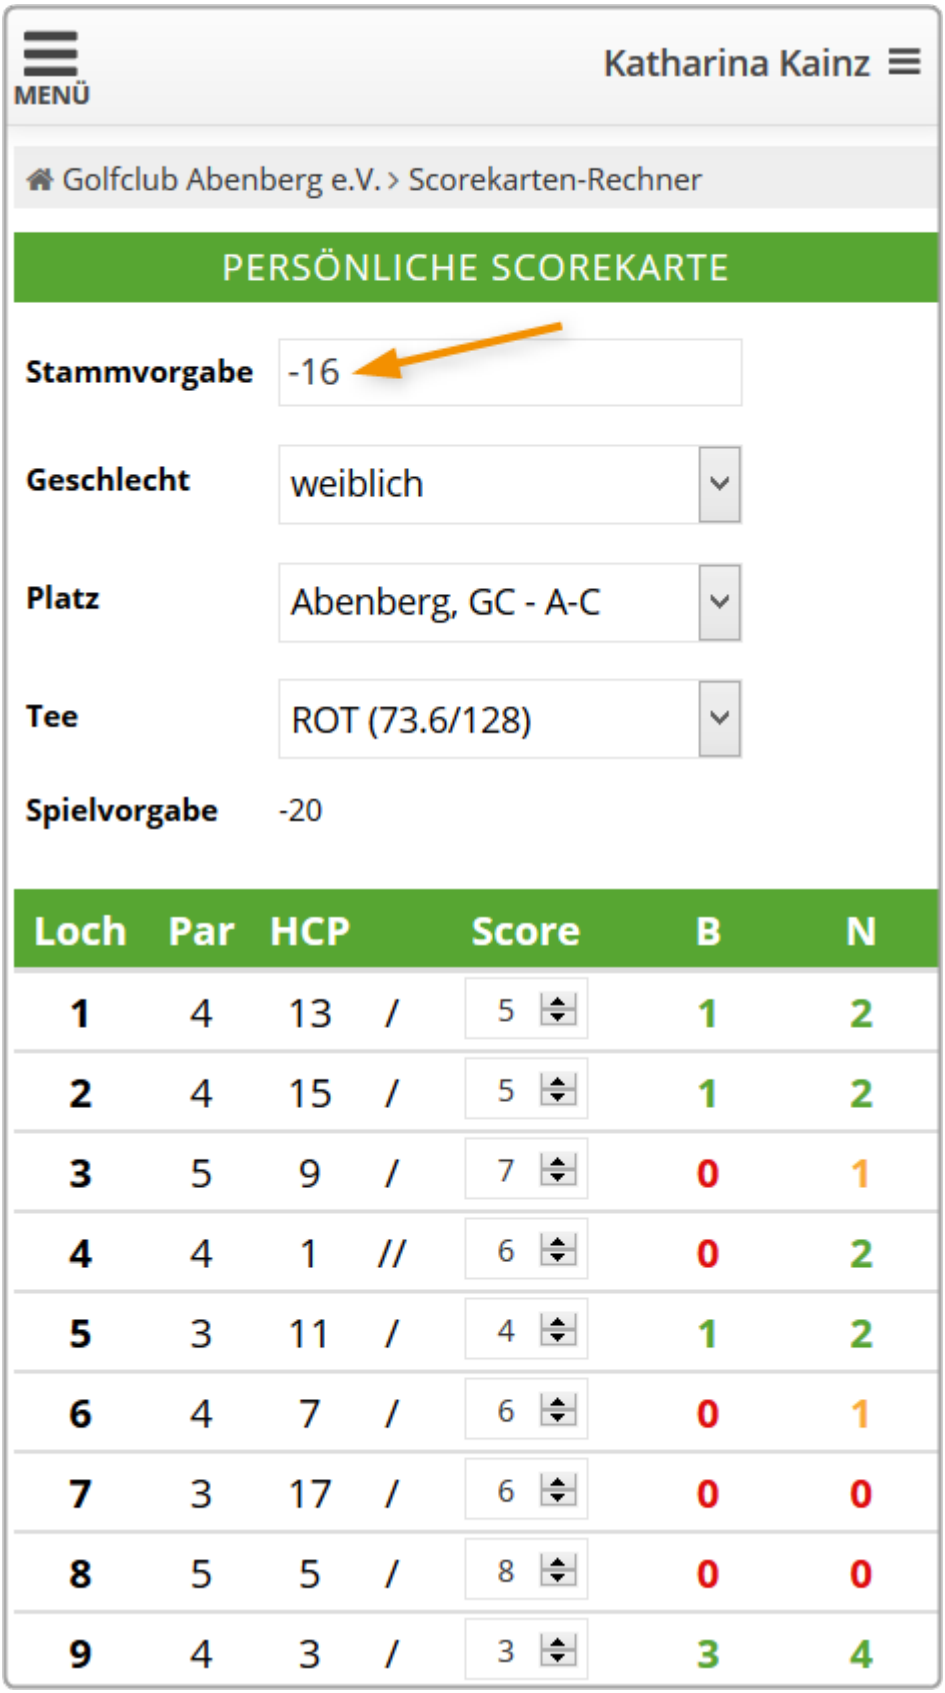

case.

4. The **handicap** is automatically calculated from the master handicap.
5. When the number of strokes is entered, the gross and net points are calculated immediately. This can be particularly enjoyable for golf novices.

At the end, it even calculates the possible new handicap:

😉 Assuming the player was interested in what he would have achieved with a different handicap, he could simply overwrite the original handicap above:

Loch	Par	HCP		Score	B	N
1	4	13	/	5	1	2
2	4	15	/	5	1	2
3	5	9	/	7	0	1
4	4	1	//	6	0	2
5	3	11	/	4	1	2
6	4	7	/	6	0	1
7	3	17	/	6	0	0
8	5	5	/	8	0	0
9	4	3	/	3	3	4

Integration in APP and website

The scorecard calculator can be activated in the PC CADDIE://online APP at your request.

You can also receive a customised CSS link for your website.
