Projects

Individual entries can be summed up on projects. The advantage is that all a person's e-mails, notes, etc. are organized within a project such as an Event or a Tournament. And the other way around, a project may contain items corresponding to different persons.

- 1. Assign the entry to the desired person.
- 2. The desired project is assigned automatically.
- 3. Input a meaningful subject.
- 4. You can also add comments here.

Then click **OK**. The entry will be assigned to the project.

This entry will remain in the general information window until it is marked as complete.

Assign existing entries

You can also assign existing entries to a project. Just press (F4) after selecting the entry you want to assign.

In tournament

A tournament can also be assigned to a project. Please contact the PC CADDIE support if you want this, and we will enable this option for free.
