

Automatically assign game rights

In most cases, the right to play is already assigned automatically via the [Characteristics of the contacts](#) under „Membership status“, i.e. if you have set the right to play there, you should also edit it there.

Set the right to play to this status

Via ***Automatically assign persons/playing rights*** you have the option of automatically assigning the right to play to certain groups of people. For example, if you need to completely change a group of members from „full playing rights“ to „no right to play“.

Please carry out a [Fast data backup](#) before making any changes.

Check the checklist very carefully before ordering the badge.

Determine which gaming right is to be selected for which group of people and then confirm your entries with **OK**:

Playing rights and functions [X]
