

Automatically assign game rights

In most cases, the right to play is already assigned automatically via the [Characteristics of the contacts](#) under „Membership status“, i.e. if you have set the right to play there, you should also edit it there.

Set the right to play to this status

Via **Automatically assign persons/playing rights** you have the option of automatically assigning the right to play to certain groups of people. For example, if you need to completely change a group of members from „full playing rights“ to „no right to play“.

Please carry out a [Fast data backup](#) before making any changes.

Check the checklist very carefully before ordering the badge.

Determine which gaming right is to be selected for which group of people and then confirm your entries with **OK**:

Playing rights and functions [X]

With this function you can automatically assign the playing right and function to a selected group of person

set playing right to this value:

Fill function with this value:

still if there is any other value inside

For this group of person:
 [X]

and only members inside this selection

[OK] [Cancel]

Now select the relevant options and **Start** the process.

Careful [X]

This process will be started.

Activate the correct options to confirm:
Options:

I understand this information
 I am a little bit unsure
 Better cancel
 I know what I am doing

[Start] [Cancel]

Fill function with this content

You can use this function if you want to enter the note „PASSIVE“ in the function field in the person mask for all passive members.

Please note that this function field also appears on the DGV card.

To do this, please open via **Persons/Automatically assign playing rights** and enter the required

information here as described below:

Playing rights and functions

With this function you can automatically assign the playing right and function to a selected group of person

set playing right to this value:
Regional + unlimited playing permission

Fill function with this value:
PASSIVE
 still if there is any other value inside

For this group of person:
Passive members

and only members inside this selection

OK
Cancel

Click **OK** to start the action and PC CADDIE will enter the desired note in the function field for all passive members after a confirmation prompt:
