Update Information

Changelog 2026

October 2026

CRM/DMS invoice entry: Credit notes are now also titled ‘Credit note’ instead of ‘Invoice’

Tournaments – The waiting list automatically moves up into the buffer when players withdraw
To enable this: The global toggle is located in the Basic Settings under the Tournaments tab and is called “Automatically move from the waiting list into the buffer”. In addition, there is a tick box for each tournament in the tournament dialogue box, directly below the waiting list limits. If the tick box remains unticked in the tournament settings, the global default setting applies; if you tick or untick it, the setting for that specific tournament applies.

Tournaments – Dedicated replacement email for players on the waiting list
There is now a dedicated email trigger for this. It appears in the email wizard in the list of tournament triggers under the heading “Players from the waiting list moved up to the buffer”, directly below the previous trigger “Add players to buffer”. A separate template can be saved there for this scenario.

CAMT.054 Import (Switzerland): Instant payments are now posted
Instant payments are now recognised and posted when importing camt.054 files. Previously, they were skipped without any notification.
Important: Anyone who has previously posted instant payments manually should check, before the next import, whether the instant payments are already included in the files to be imported. This also applies to the file from the last import date, which will be read again automatically during the next import. Otherwise, payments that have already been posted manually would be posted twice. It is best to print the file first and check it.

Corrections to the tournament import for the Liechtenstein Golf Association

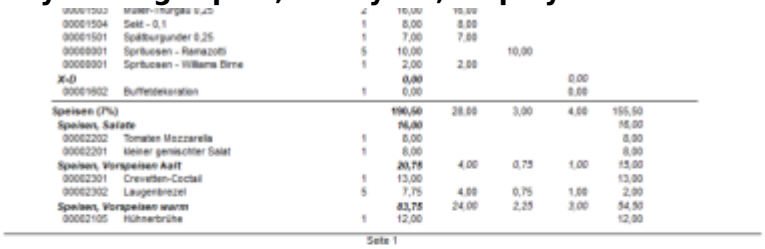

During the daily closing process, PC CADDIE now highlights discrepancies between entries and payments directly on screen before the closing report is generated

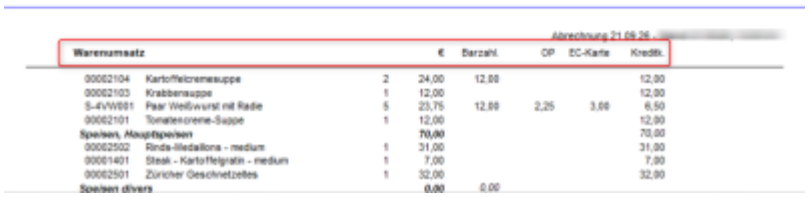

Item warning in the till
In the item master, there is a “Warning:” field where a note can be entered for an item. Previously, this text was displayed exclusively in the ERP module; it was not shown at the till.
Now, the warning appears directly upon booking. As soon as an item for which a warning has been stored is booked, a dialogue box titled ‘Item Warning’ opens. It displays the item number, the item name and, below that, the stored warning text. The user can click “Confirm” to continue with the transaction as usual, or “Cancel” to abort it.

September 2026

Daily closing report, A4 layout; display table header on subsequent pages as well

Payment method in the till under the ‘Repeat’ menu option
This was a suggestion in the voting tool which received the full number of votes required and has now been implemented.

Not only has the column for payment methods been added, but an additional column has also been included in the front section: instead of 'St.', there is now a bin icon, and a printer icon is displayed next to it if a till receipt has been printed. If there is no entry in the 'Payment method' column, the transaction has been transferred to the open items section.

***Full reversal with automatic credit note* is now posted to the current date**

New personal filter option 'Image usage' (data protection)
zustimmung_zur_verwendung_von_fotos

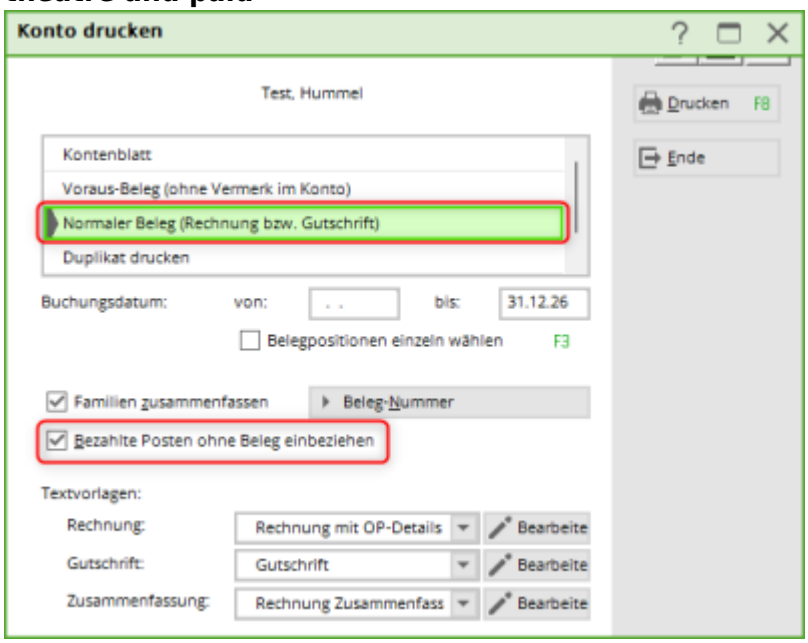

Tournament information emails: each player will now only be notified once per tournament

Correction to membership check in the editor (for multi-club set-ups)

Adjustment: for mixed game formats (e.g. maximum score + stroke play), the scorecard now correctly displays the respective scores only in the column for the relevant player

Liechtenstein: Tournament import improvements for players from Austria

Retrospective invoice printing for receipts transferred from the till to the operating theatre and paid

nachtraeglicher_rechnungsdruck_fuer_aus_der_kasse_in_den_op-bereich_transferierte_und_bezahlte_belege

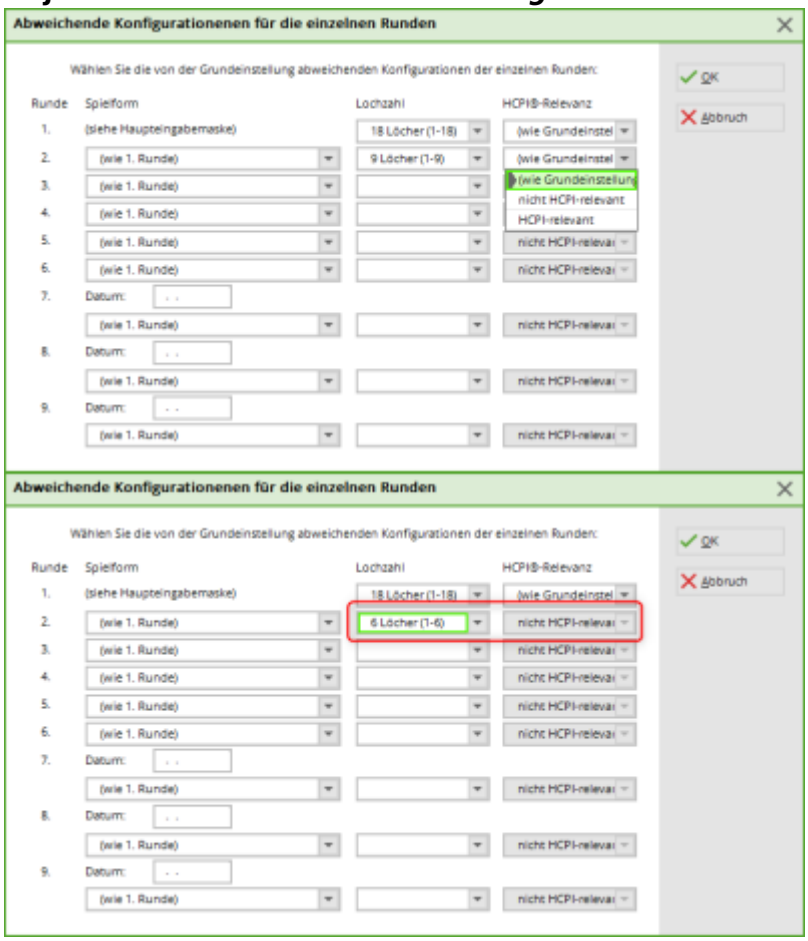

Correction regarding the notification for course registrations *Missing seat details*

Update: Check-in with a co-booked guest is now possible

Adjustment to the format of the file containing chip IDs for manual DGV download

Correction: Course data is no longer checked when printing scorecards for 6-hole or, for example, 12-hole rounds

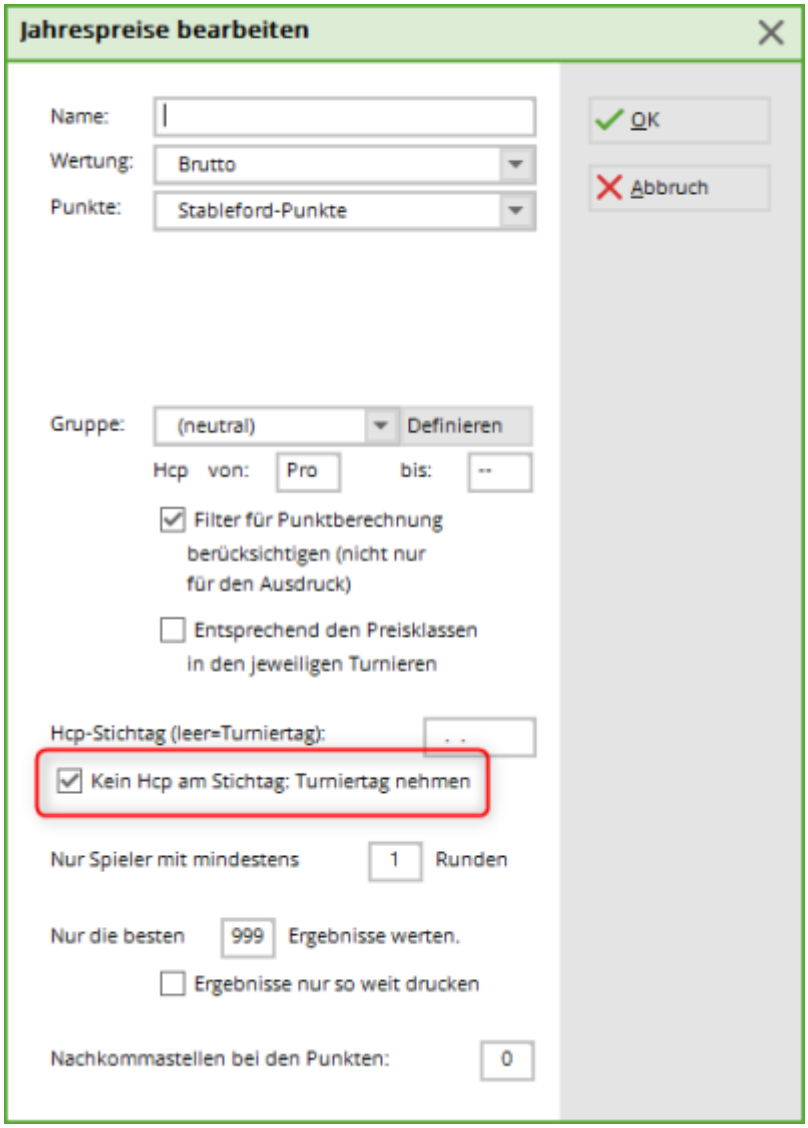

Adjustments to the *individual configuration for each round*

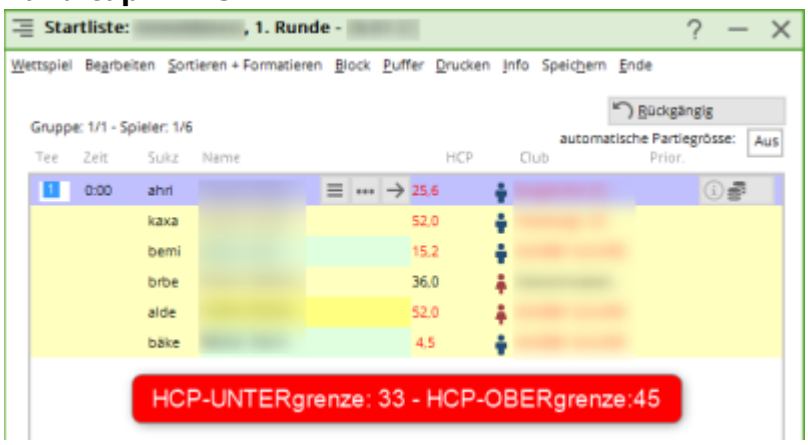

August 2026

There is now a special parameter to disable cancellations via the button *Archive* button in the till
Please contact Support to set up the installation.

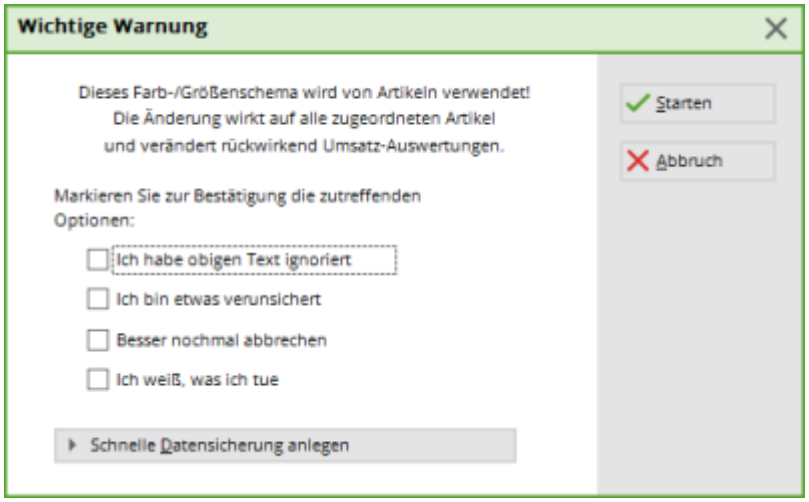

Annual prices: new tick box *No handicap on the reference date: use tournament date*
This tick box is set by default for newly created annual prizes. For saved prize definitions, the tick box must be set manually if required.

A player's handicap is displayed in red on the start list if it does not fall within the set handicap limits

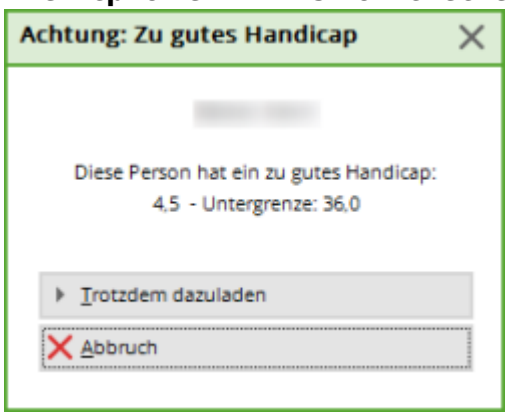

Confirmation prompt when changing or deleting a colour and size scheme, if it is used in at least one item

Adjustment to the print layout for start time confirmation: option to disable the area output when printing the booking overview
The area information in the booking list can be disabled by <NOAREA> setting it as an element within the text.

Correction of the discrepancy in the credit/balance display between online accounting and the local account

The Hcp lower limit is now checked in the same way as the upper limit in the player editor

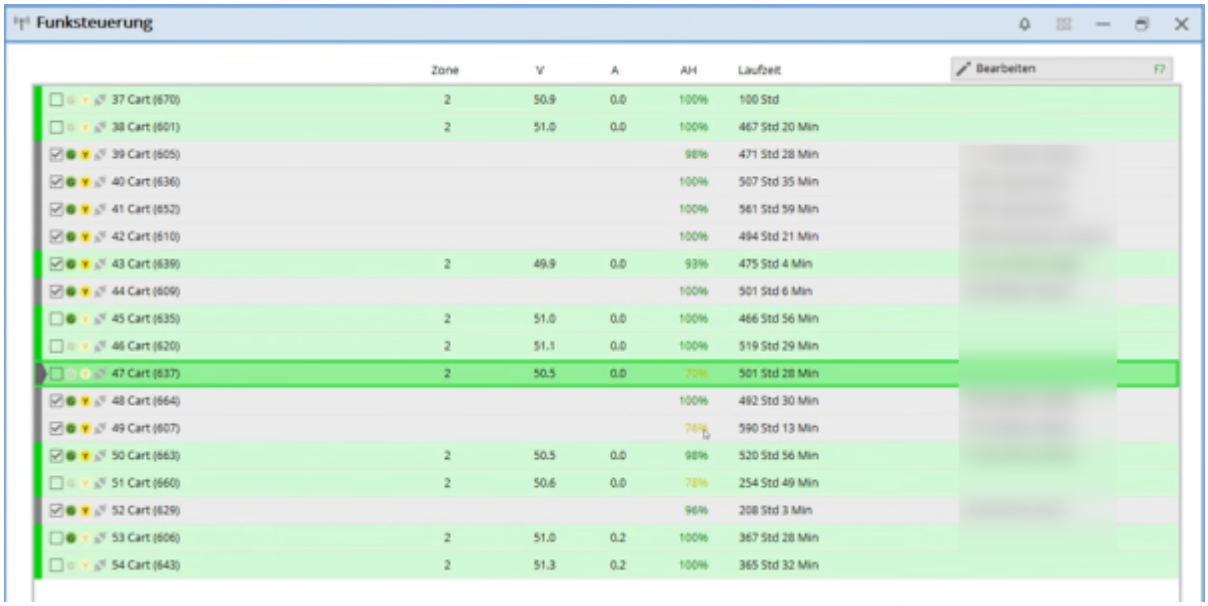

July 2026

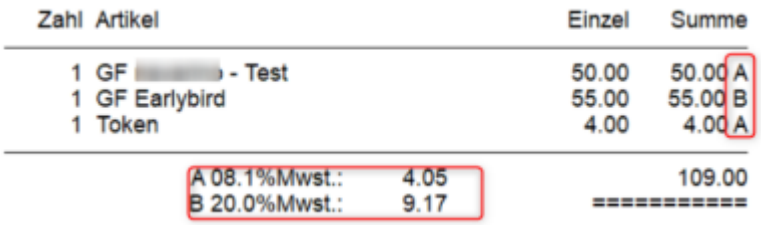

Corrections to account tick-off procedures in connection with partial payments that have already been posted

Adjustments to the cart functionality

- Set the cart to 100% even in locked mode
- Colour-code used carts

VAT labelling on receipts

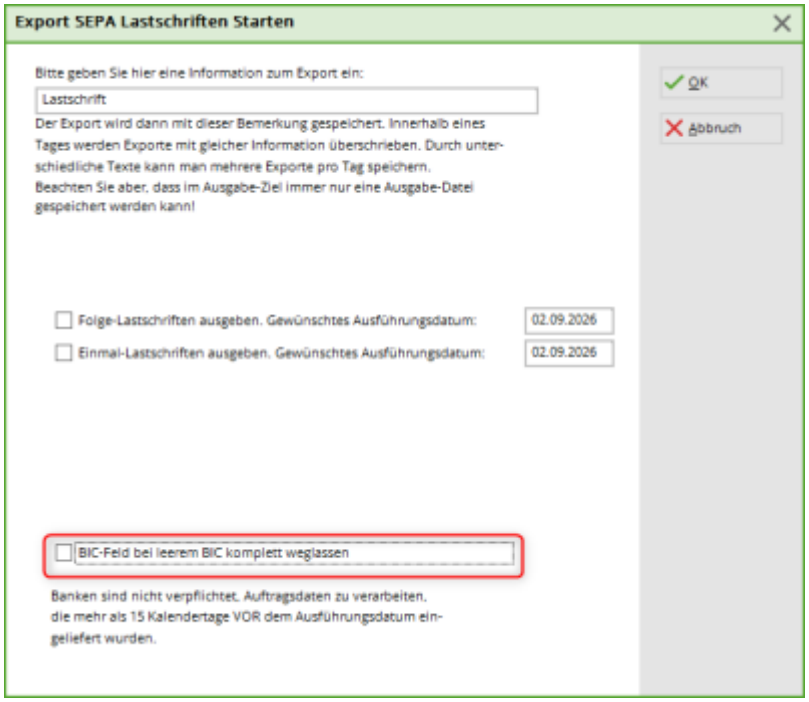

There must **no** changes to the layout.

Player verification on the day before the tournament, when the start list is opened

Correction for Multishop – the search index can now also be created in third-party shop sections

June 2026

New checkbox in the credit/debit dialogue boxes to control the BIC field

Additional fields for custom start list layouts

- <PAYMID> for the payment method. E.g. ‘POP’ for online payment in an event/tournament
- <PCCV > prints the voucher if the player has paid for their registration online
- <TEAMNR> prints the team number – this was already available and is now also listed in the field selection

A combination of the TCP till interface and the hotel interface is now also possible

- It is now also possible to book card transactions received via the TCP till interface in PC CADDIE directly to a room in a hotel connected via a hotel interface
- Furthermore – as before – PC CADDIE machine bookings can be transferred to the hotel. For example, purchases from ball dispensers using the room card, or purchases from vending machines.

Correction to tournament export/import

Switzerland: Hide HCPI display on scorecards for Fourball

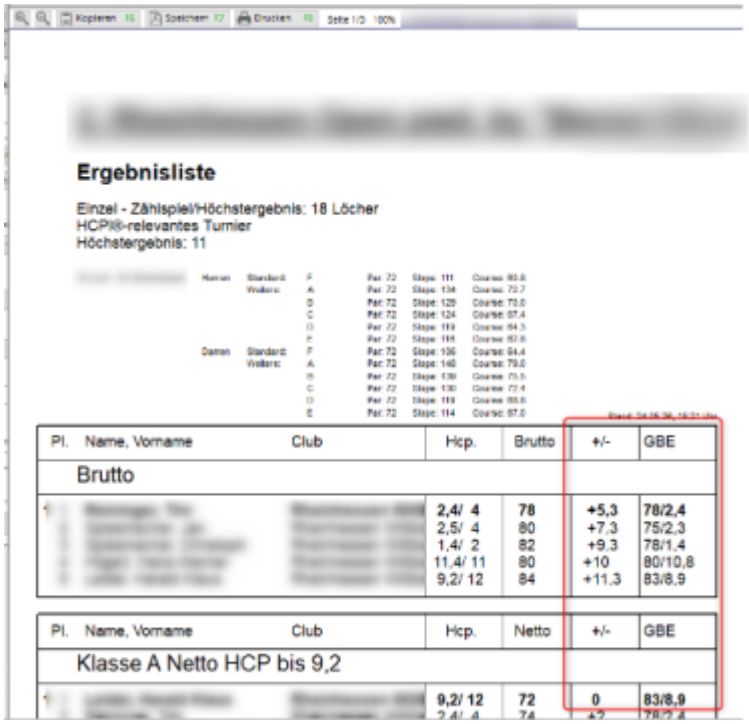

May 2026

Adjustments to the printing of course rating tables

- Only 3 pages could be printed
- Furthermore, with a 2026 DGV licence, it is possible to print the table with up to 12 distances

Correction to tee selection when printing RPR scorecards

Adjustment to enable the new handicap to be displayed on both gross and net lists

Ergebnisliste

Einzel - Zählspiel/Höchstergebnis: 18 Löcher
HCP®-relevantes Turnier
Höchstergebnis: 11

Pl.	Name, Vorname	Club	Hcp.	Brutto	+/-	GBE

Klasse A Netto HCP bis 9,2						
1			9,2/ 12	72	0	83/8,9

April 2026

PHG QR code reader support

SMS outbox – delete multiple recipients/SMS messages
It is now possible to delete multiple SMS messages at once. To do this, select the desired messages in the sent SMS list by holding down the Ctrl key and clicking on the relevant SMS messages. Then click the ‘Delete’ button to remove the selected messages.

Timeframe – Configure time frame
This was a suggestion for improvement from our voting tool, which we have implemented without a full vote.
Timeframe - Configure time frame

Improved BYS appointment booking from PCC
The browser window no longer opens in the background, but in a proper PCC dialogue box that remains in focus. After booking an online appointment and closing the dialogue box, a prompt/reminder appears asking you to submit a support request.

Account log introduced

March 2026

New high-resolution icons for the programme, shortcuts and files linked to PCCADDIE

Bug fixed regarding the specification of till areas for virtual tills (CardServer)

Correction: Under certain circumstances, the Green Fee Shop might appear twice online

after the account area where the Green Fee Shop was installed had been archived

February 2026

PC CADDIE TCPIP till interface expanded to support 7-byte Mifare cards

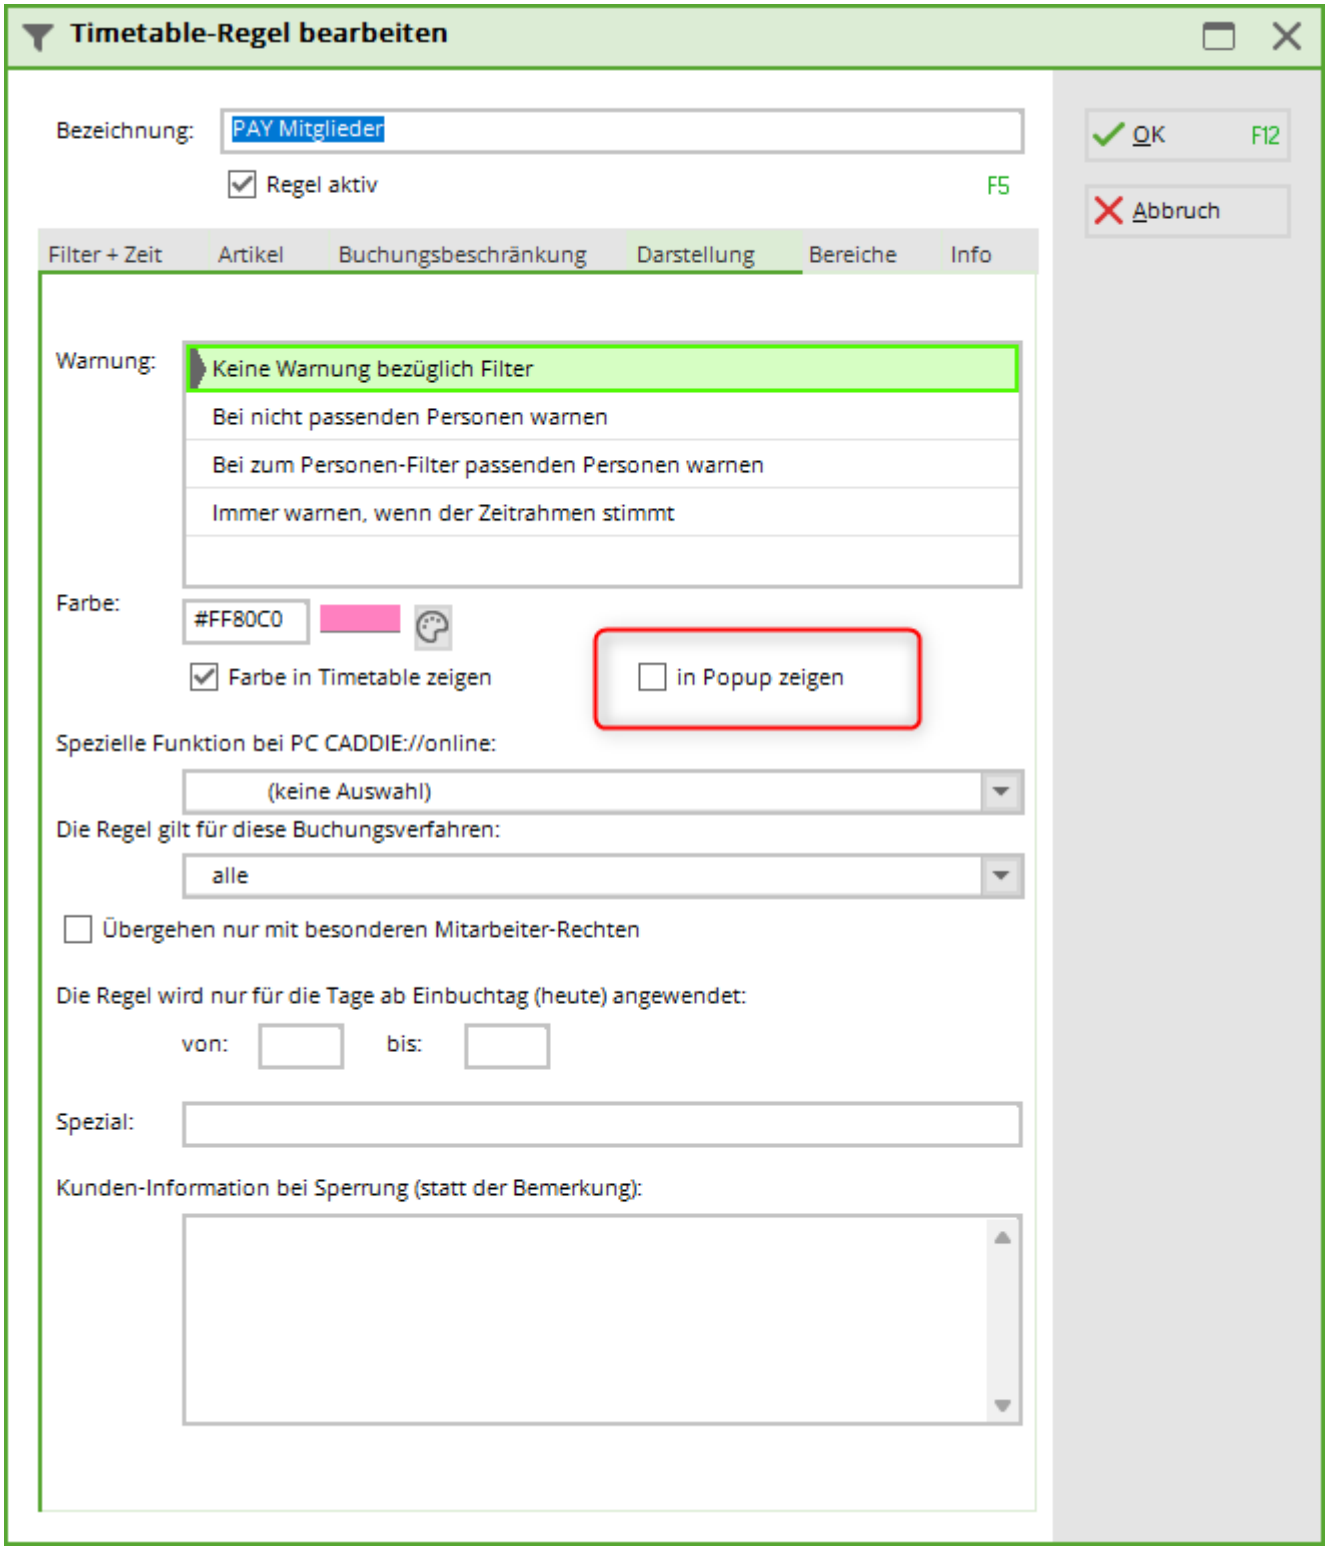

Hotel module: Room allocation upon closing the hotel booking dialogue

January 2026

Extension of self-accounting settings to cover the previous 2 and 3 years

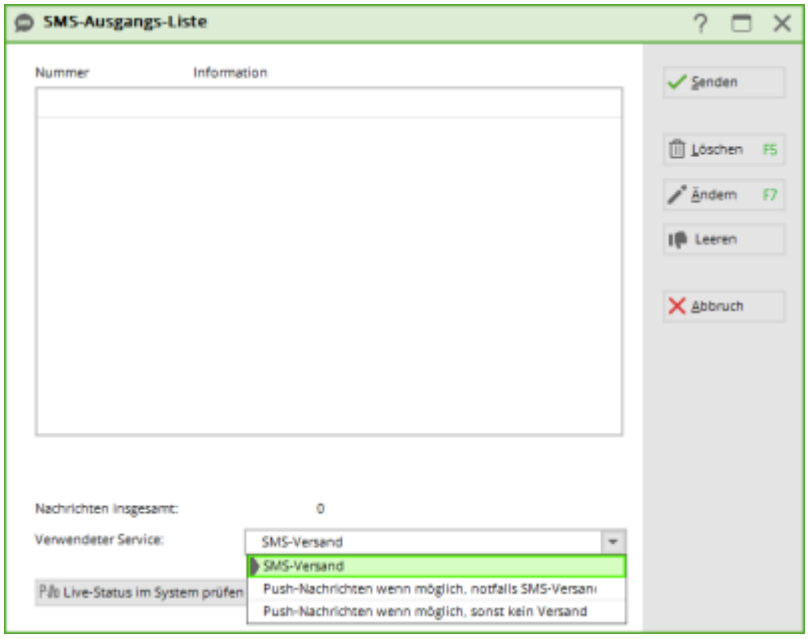

Set TT rules via tick boxes to determine whether they are visible in the pop-up window
There are now 2 new checkboxes:

- Show colour in timetable
- Show in pop-up

Option to use push notifications instead of SMS will be automatically enabled from the 2026 season

with official version 2026.01

Fiskaly QR codes are now supported on ESC/P and GDI printers

New field analogous <ANREDE_HERR_FRAU> with 'Du' form of address
New: Customised salutation, e.g.
<ANREDEBRIEF:Liebe> results in 'Dear ...', 'Dear ...'
<ANREDEBRIEF:Beloved> results in 'Beloved ...', 'beloved ...'
Place the word you wish to use after the ':'. In German, an 'r' is automatically added for the masculine form; in English, the same word is used for both forms.
This was a suggestion for improvement from our voting tool, which we have implemented without a vote.

Bug fixes for automatic email sending from the game editor:

- Automatic sending if 'prompt' is not selected in the configuration
- No further prompt for 'OK' in the dialogue, regardless of what is selected in the configuration====== Changelog 2025 ======

December 2025

Correction regarding barcode scanning

Covid status for children reset to 0 years at the turn of the year 2025/2026
According to the Wiki article, removing this did not change the setting whereby children under X years of age are assigned the 'jab' icon, as no vaccination was required for them.

CRM adjustment: now export data record changes to CSV when printing lists

Improvement to the voucher redemption process at the till – the specific PCCO voucher ID is now also inserted into the text here if <PCCV> the item description states

Correction to the ZUGFeRD implementation – No warning is now displayed when importing into DATEV

Improvement to the ‘Special Sort’ function when printing lists
For example, if you print a list and sort it by personal data (MG number, postcode, etc.), an extra file is no longer created for the sorting process; instead, everything is handled internally → this is significantly faster

Special parameters can now only be edited with a PCC staff login

November 2025

Improvement to the card system: reassignment changes the card account holder

Improvement to Guestline interface: Departure date in the card account now matches the check-in/check-out date

Improvements to the online voucher list

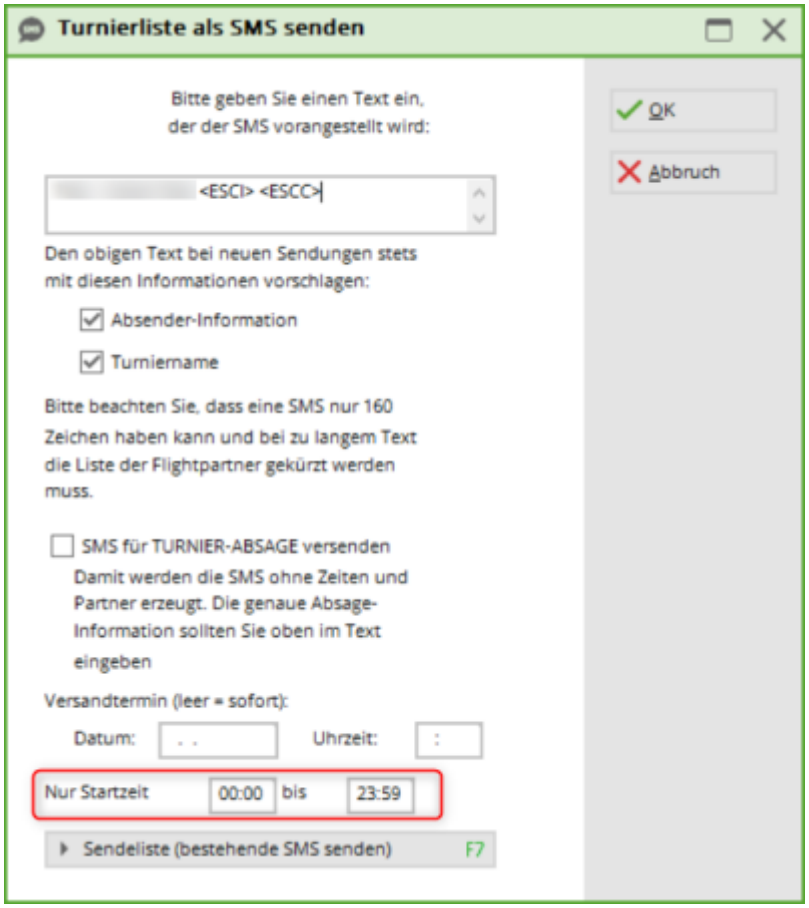

- Previously, when opening the list, the setting ‘All within the period and open ones as well’ was used; this has now been changed to ‘All open ones within the period’ – this can be changed again if required; please contact Support for this
- Upon opening, the default is set to “last 60 days” – this can now be changed if required; please contact Support for assistance

Improvements to SMS sending

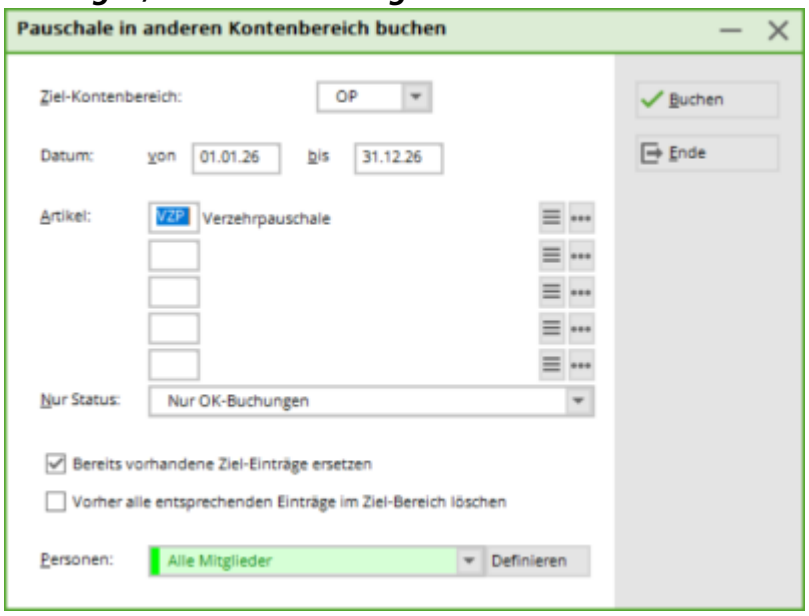

- Option to filter the outbound SMS list by user (you can only view and send your own SMS messages)
- Option to send 1 or 2 SMS messages without manual confirmation (for SMS messages generated by an invoice)
- The outbound SMS list opens automatically if a new SMS has just been created
- The outbound SMS list opens automatically if there are still unsent SMS messages in the list

All four features are activated using special parameters. Please contact our support team to activate them.

Send tournament SMS messages only to specific flights (not to the entire start list)
This was a suggestion for improvement from our voting tool, which received the full number of points and has been implemented.

New menu item and updated dialogue box for package rebooking *Turnover/Flat-Rate Packages/Flat-Rate Package Analysis* or ***Turnover/Flat-Rate Packages/Flat-Rate Package Transfer***

The menu item *Flat Rates* is linked to the catering till licence.

Improvement in the start list editor: preventing double-clicks from triggering the 'Delete' function

Correction to the Event/Tournament Player Editor – tie-breaker position: Specifying a tie-breaker position in the Player Editor overrode the data structure of the second registration option.

October 2025

Correction: Do not display old anonymous entries for new people

Fix: The additional information “NONEWS” NO LONGER removes the status “Use generally rejected”

The old ‘Colourful’ theme can no longer be selected manually and will automatically switch to the current theme following the update

The resource’s time is now adjusted in the PCCOnline dialogue when the resource is moved in the timetable

Guestline Service Recovery – Improvements to the Guestline interface in the event of connection interruptions

Register all players in a start time simultaneously
This is a suggestion for improvement from our voting tool, which received sufficient votes and has now been implemented.
verbuchen

Copy players from the timetable into a tournament – create an RPR for an entire flight
This is a suggestion for improvement from our voting tool, which we have implemented without a full vote.
spieler_in_turnier_kopieren

September 2025

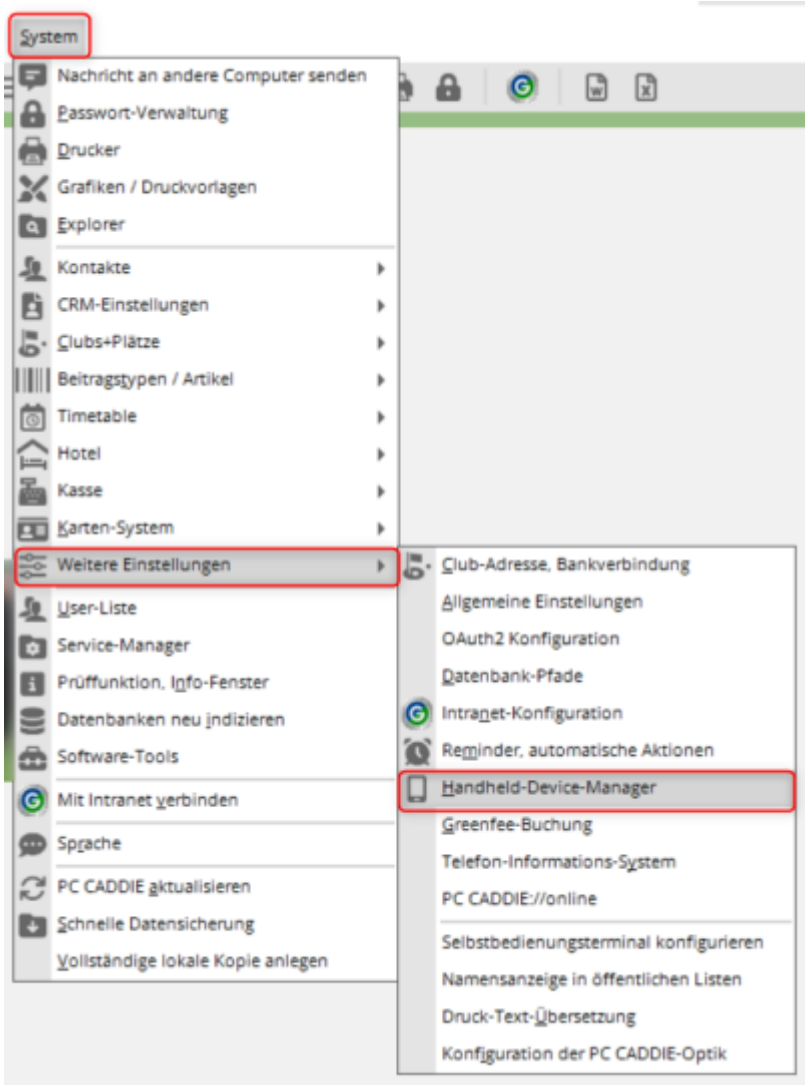

Correction to country code for ID card orders: ‘GB’ must no longer be used; it must be ‘UK’ instead.

Correction to ensure that, when transfer items are created automatically upon the addition of a new OP account area, no DSinVK needs to be confirmed manually

Adjustment: The difference hcp for 9-hole match play is now calculated as half the original value

Correction regarding an error message during tournament export/import

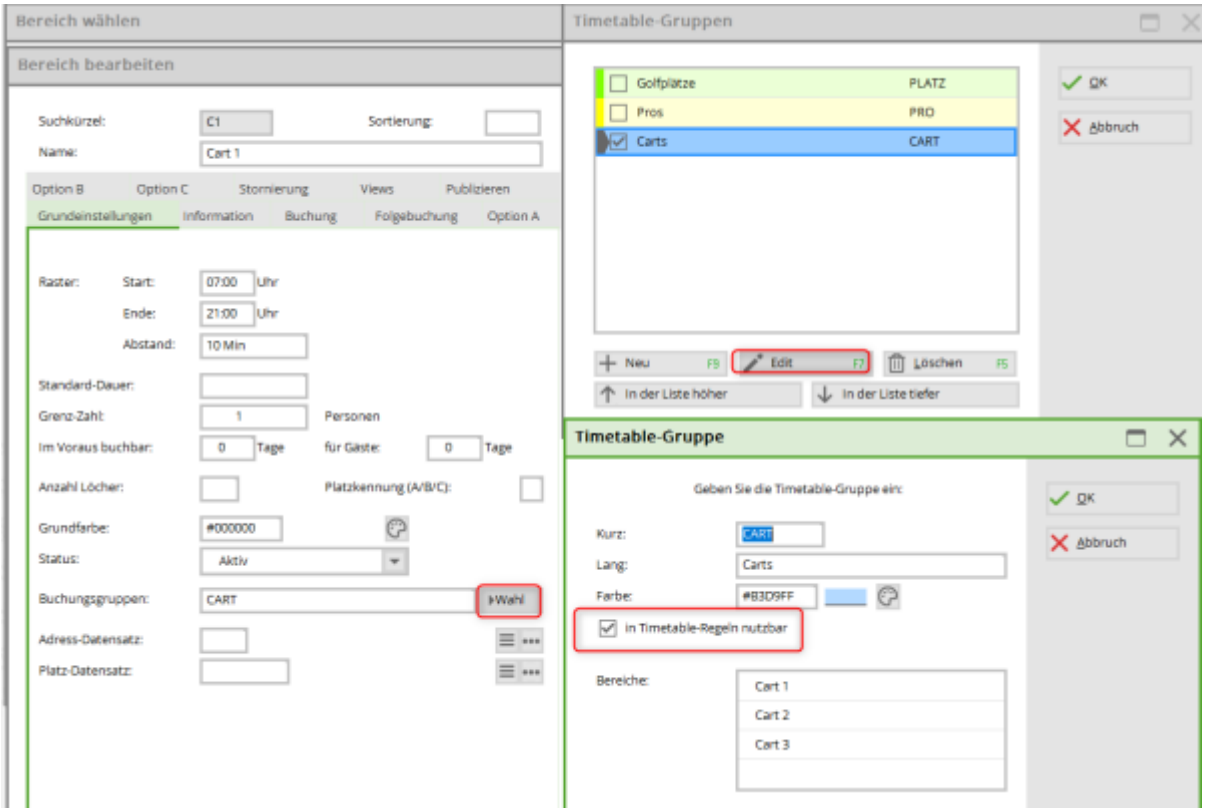

New menu item available under *System/Further Settings/Handheld Device Manager*

Correction to the transfer of the time via the hotel interface in the event of cancellations

PCC Hotel Module: HotelSpider price transfer improved

New tick box in the Timetable Group settings: 'Can be used in Timetable rules'
payment_fuer_cart

Adjustment for Professional in Swiss Golf/Golfbox – Pros are sent to the Swiss Golf intranet with a new identifier in accordance with Golfbox requirements

August 2025

Correction to the cash closing process
In versions released since 2 July, it was possible during the daily closing process for operators to cancel at an inopportune moment after the closing procedure had started; as a result, whilst the entries were ‘archived’, no closing statement was actually saved.

Ensure the correct person is selected when paying for reference bookings
Correction to posting from the timetable: following the prompt asking whether the booked person or the reference is to make the payment, the selected person is now actually applied where applicable.

The transfer of maximum score results has been improved for the online display of results As part of this, an improvement has also been implemented for the management of a par-6 hole

Improvement to the processing of information in Swiss Golf’s International Golf Interface in Luxembourg and Liechtenstein

Adjustment to scorecards regarding the colour-coding of columns for foursomes

Adjustment regarding the addition of a domain when sending emails

PIN generation using the ‘FROM’ date as a PCCO interface call
PIN generation via the PC CADDIE:online app enables direct access to the course upon check-in for bookings, for example at simulators or in the training centre

Adjustment to the distribution of decimal places in handicap scores for a 9-hole 2-player scramble when ‘HCP Rounds’ was set to ‘NO’

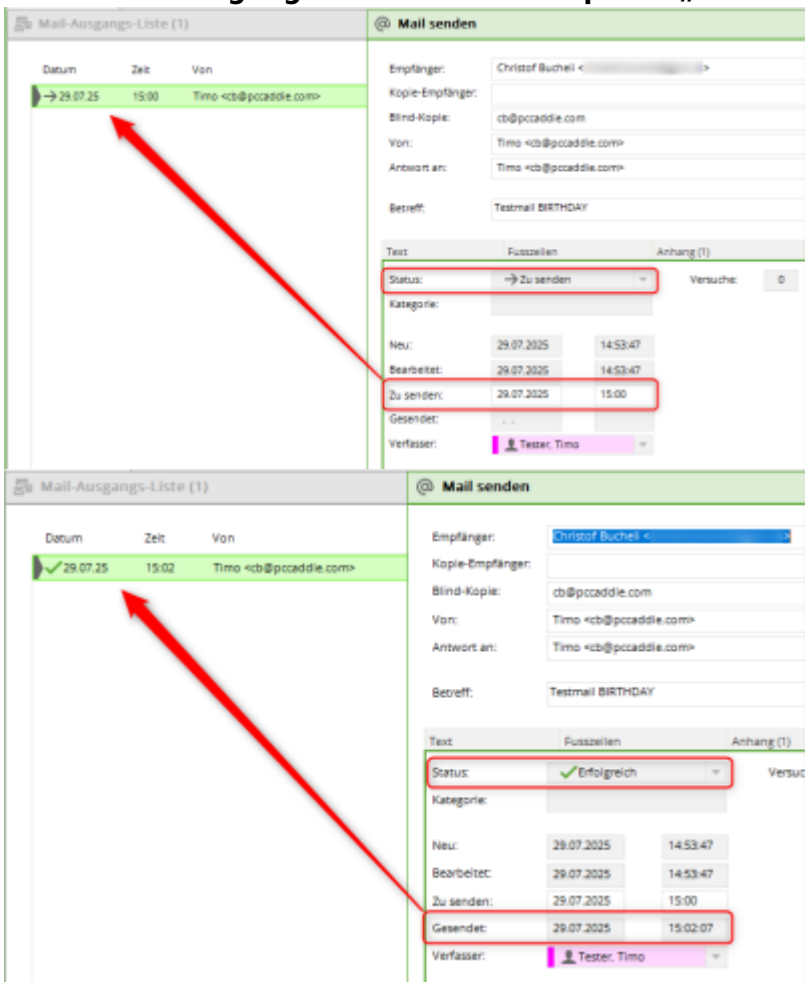

ELSTER export: Tax reference number no longer mandatory

July 2025

Improvements to letter printing relating to the hotel room list
When printing the hotel room list as a letter using the field <XINFO> an error occurred because not all data had been loaded or the ‘Statics’ field had not been cleared.

Improvement to tournament start list printing options. (<TOPT4, <TOPT5, etc.)

In der Mail Ausgangsliste wird der Zeitpunkt „Zu senden“ und „Gesendet am“ angezeigt

Anpassung beim CR-Ausgleich bei 9 Löcher Turniere

Korrektur der TT-Regelprüfung in Zusammenhang mit familienübergreifende Abos

Korrektur: TT-Regel mit Vorbuchung z.B. „Buchungen möglich ab 2 Tage im Voraus ab 9:30 Uhr“

Korrektur: Handicap-index von Gästen wurde beim Scorekartendruck bei Mehrrunden-Turnieren in der CONT__T nicht nachgeführt nach Turnierabschluss und neuem Eintrag

Korrektur beim Gutscheinlistendruck, bei dem Fett gedruckter Text abgeschnitten werden konnte

Korrektur, dass der Disqualifikations-Status DQO ebenfalls zur Disqualifikation des ganzen Teams führt

Bei den WENN bzw. IF-Bedingungen in Formularen bzw. Briefen/Rechnungen die Prüfung auf VOLL bzw. LEER (FILLED or EMPTY) verbessert. Bedingungen gehen jetzt in dieser Art:
<WENN_VOLL <FIRMA > >
<IF_FILLED <COMPANY > >
<WENN_LEER <FIRMA > >
<IF_EMPTY <COMPANY > >

Improvements to the integration between CRM and staff timetables

Correction to subscription management: Cross-account subscription search now only uses the individual as a search criterion if multiple redemption areas were specified at the time of sale
The subscription search list now suggests all valid subscriptions for the individual/family

Improvements to SMS dispatch

Tournament, team results list: Typo in Pro version corrected

Correction made to the cancellation of items with components

June 2025

Switzerland: When generating a General Play scorecard locally, a marker is no longer considered OK if it is identical to the counter

Caddie box errors corrected

CRM/DMS adjustment: Follow-up entry should not inherit the attachment

Cash registers: Further potential sources of rounding discrepancies eliminated

Improvement: Card account display for individual contacts

Adjustment: Feedback to PCCO regarding card top-ups where bonus credit is added or a cost-sharing arrangement reduces the actual top-up amount

Correction: Invoice cancellation via the till

Session Manager crash handled

Changes to the Mifare chip ID list

- Display date and time of last use
- Language ID reactivated
- Incorrect input positions corrected (6 instead of 1 for the card number)

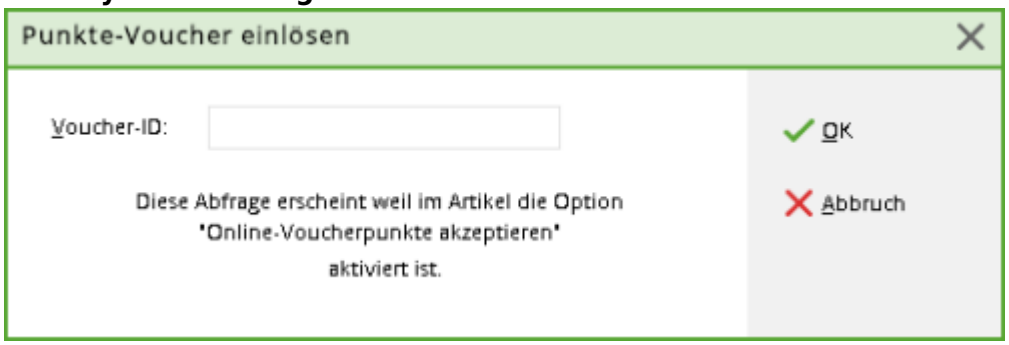

Copy players from the timetable into a tournament – RPR for four players
This is a suggestion from our voting tool, which we have implemented without a full vote.
klick_mit_rechter_maustaste_auf_die_buchung_fuer_folgende_funktionen

Allows automatic point or value bonus entries to be negative as well
Adjustment following an enquiry regarding the surcharge applied to online top-ups for card payments. This means that anyone topping up online should have the card fees deducted; for example, when topping up by 50 euros, only 45 euros would be credited to the card.
For security reasons, a special parameter is required for this. Please get in touch to arrange the installation.

Improvement to self-accounting in relation to credit notes

May 2025

Explain the voucher ID query more clearly – highlight the setting that triggers the query directly in the dialogue box

The feature allowing multiple activations (factor selection) on ball machines via the app has been disabled

Correction to the display in the timetable when a green fee is cancelled at the cash desk

Adjustments regarding setting the original invoice or credit note to 0 upon POS cancellation
These documents are no longer set to 0 after an invoice has been cancelled at the till, but are now displayed with the original amount or the corresponding negative amount in the case of a credit note.

Structured address of the payer outside the EU
Adjustment to the SEPA direct debit to comply with current requirements regarding address details.

April 2025

Correction to address an error relating to the saving of the window position when this had never been set

Adjustment to ensure that payment details can still be printed in duplicate invoices where necessary

Adjusted so that the fields preceding ‘DateFrom’ and ‘DateTo’ in the event are not copied along with them

Self-service: Adjustments to the display of name and table for walk-in customers (without app registration) on receipts

Luxembourg: Adjustment to WHS calculation for 2025 to reflect new formulas as per the Technical Documentation

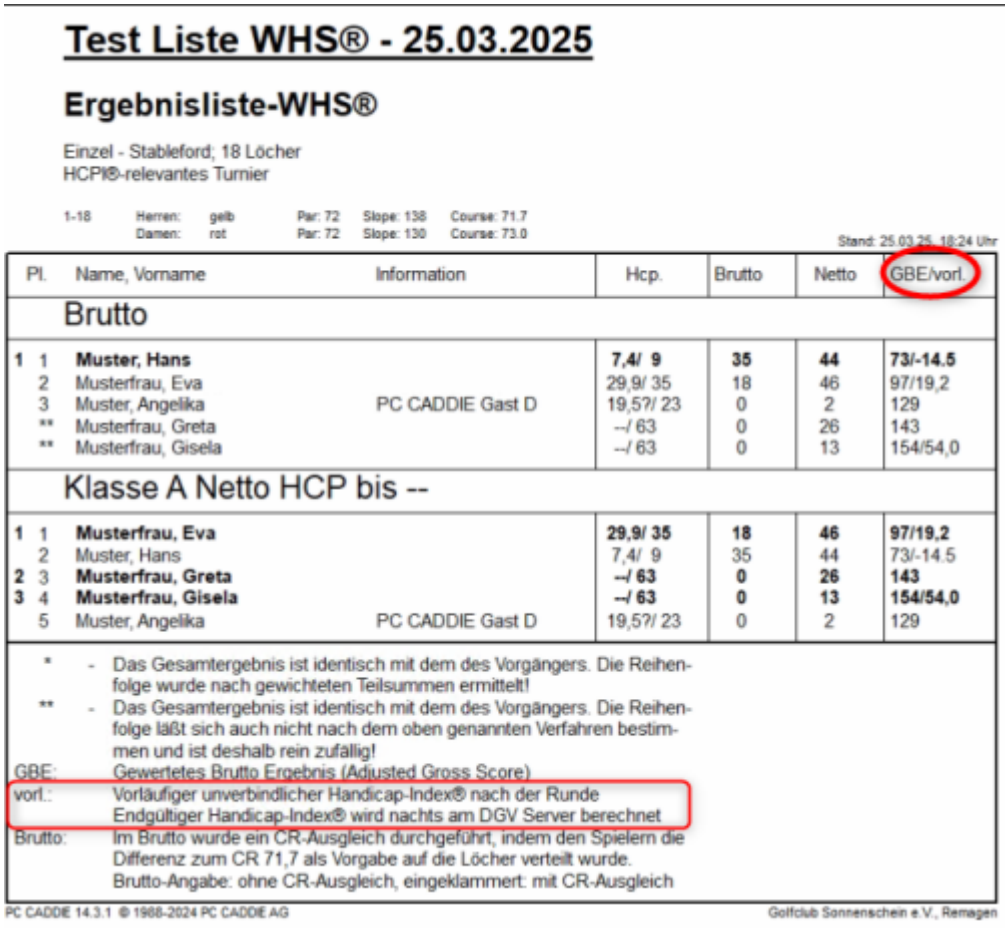

Luxembourg: Adjust ‘Frozen’ – from 1 April 2025
In line with the other countries, it has been programmed so that the calculation is only updated when a new result is recorded from 1 April 2025, whilst ignoring the outdated ‘Frozen’ limit; in other words, the handicap index may once again exceed 26.5. However, as long as no new score is recorded, the handicap index will not change.

March 2025

For course information in start list text messages, the field <COURSENAME> in SMS dispatch is now enabled

Adjustment to ensure that, in competitions not relevant to the handicap index, the column for the new handicap always remains blank

Labelling of the provisional HCPI
Provisional, non-binding handicap index after the round
The final Handicap Index is calculated overnight on the DGV server

Test Liste WHS® - 25.03.2025

* - Das Gesamtergebnis ist identisch mit dem des Vorgängers. Die Reihenfolge wurde nach gewichteten Teilsummen ermittelt!
** - Das Gesamtergebnis ist identisch mit dem des Vorgängers. Die Reihenfolge läßt sich auch nicht nach dem oben genannten Verfahren bestimmen und ist deshalb rein zufällig!
GBE: Gewertetes Brutto Ergebnis (Adjusted Gross Score)
vorl.: Vorläufiger unverbindlicher Handicap-Index® nach der Runde
Endgültiger Handicap-Index® wird nachts am DGV Server berechnet
Brutto: Im Brutto wurde ein CR-Ausgleich durchgeführt, indem den Spielern die Differenz zum CR 71,7 als Vorgabe auf die Löcher verteilt wurde.
Brutto-Angabe: ohne CR-Ausgleich, eingeklammert: mit CR-Ausgleich

PC CADDIE 14.3.1 © 1988-2024 PC CADDIE AG Golfclub Sonnenschein e.V., Remagen

Amendment: Removing players from the start list is once again generally permitted, including in Germany
As the relevant clause has been removed from the regulations after one season.

Amended dialogue box when cancelling the email dialogue whilst printing an invoice

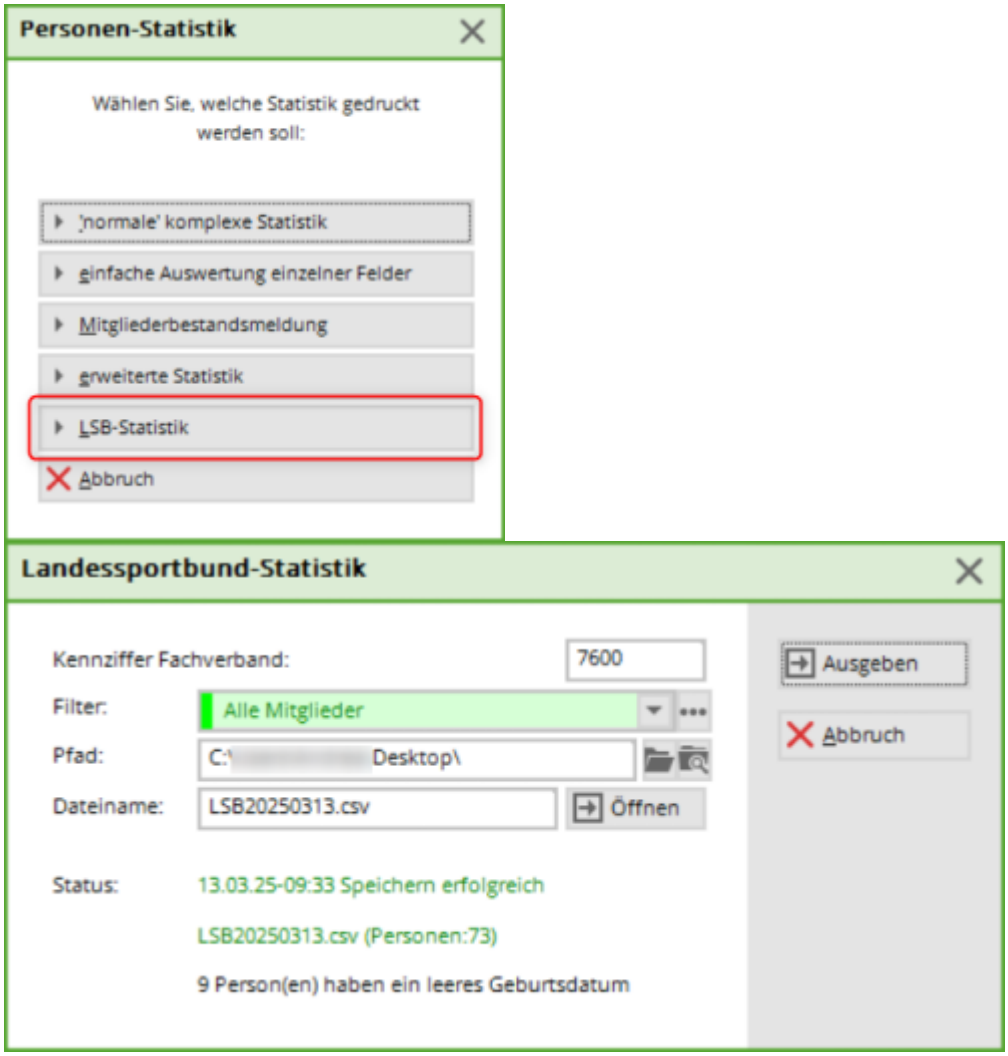

Improvement to the posting of upselling items from the timetable

Carry-forward display in Self-Accounting

Improvements to the time-based access restriction for multiple activations in the card system
Previously, this option was available for ticket machines; it now also works for use with gates and barriers.

Correction to the voucher list print filter

LSB statistics: Counting of all individuals by age and gender and export to a file

Improvement to the verification process with a new home club, now also for Liechtenstein

Improvement to the intranet check in the case of a different gender

Improved: Gathering surgical details from archive sections

February 2025

New menu item 'Taxation'

- The two functions "Cash Register Security Regulation (KassenSichV)" and "DSFinV-K" have been placed under this menu item
- New function "ELSTER Reporting Obligation 146a" has been added

Adjustment: The DATEV consultant field is no longer automatically extended to seven digits

The payment dialogue box closes when the user logs out

Check card transaction – improvement when a payment is cancelled due to problems obtaining a new transaction number (in the event of system issues), to ensure that a card top-up does not proceed despite this.

Prevent line breaks in the financial accounting field in the product and subscription editor

Fixed the issue of payments being printed multiple times during account consolidation

As a follow-up to the ‘greyed-out’ status of the old account number/bank code fields, the functionality has now been extended so that the contents of these old fields are also cleared if the IBAN/BIC fields are left blank when saving

Club list enquiry – Czech flag added

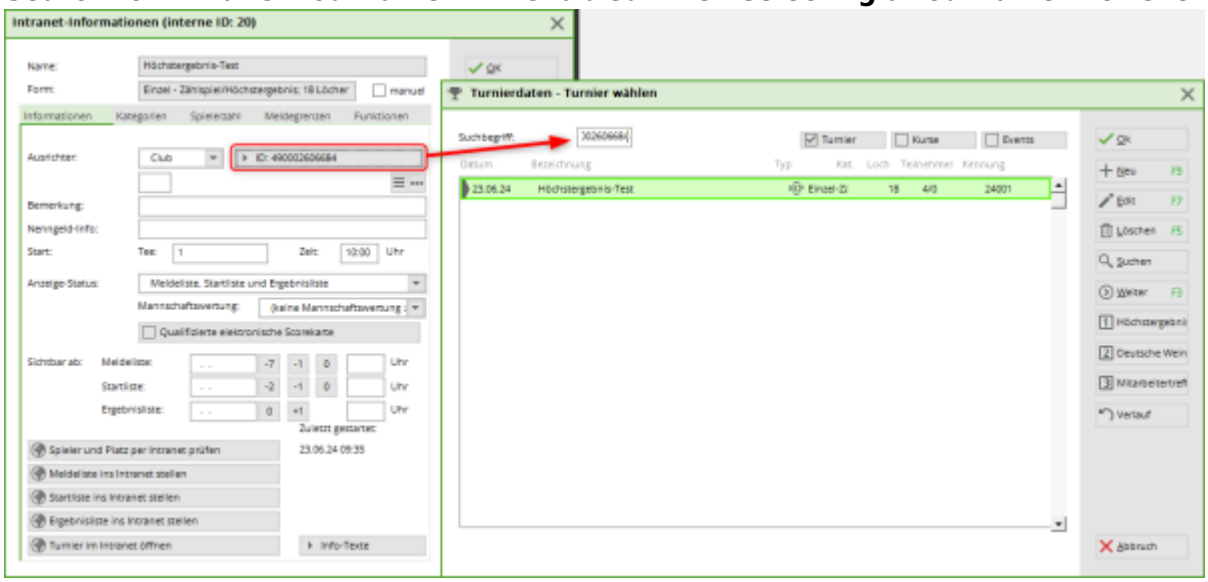

Delete attachment files from the accounts folder when documents are reversed (applies to reversed invoices during BuHa document export)

Note the date in the card validity dialogue box

Subscription items are no longer deactivated via ‘Deactivate items with stock level 0’

Adjustment to the behaviour regarding the entry of numbers (HCPI classification) without a decimal place
A class threshold entered as “12” was previously rounded up to “12.4” by default; it is now interpreted as a decimal number ending in .0.

Search for intranet tournament ID enabled when selecting a tournament or event

January 2025

Old accounting export option “DATEV OBE” removed

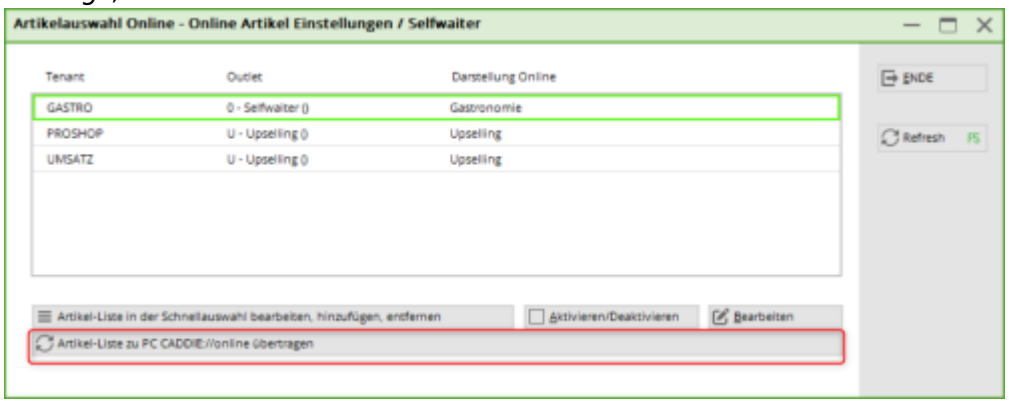

Remote maintenance via RustDesk added to the Support menu (green ‘i’)

Adjustment: Do not treat the surname “Zur” as a standalone name suffix

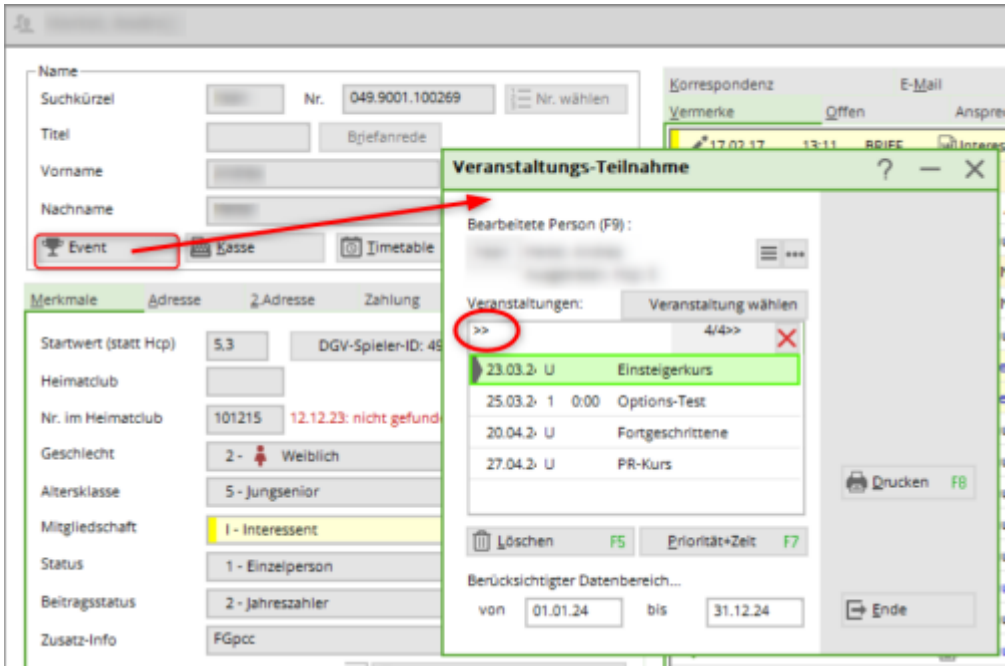

The ‘Print list’ button in the Timetable Rules dialogue was missing from the translation. This has now been added.

Selfwaiter – Transfer updated prices/item list from the local PCC to the online system
There is now a button for this: “Transfer item list to PC CADDIE:online”. This can be found in the “Online Item Selection” settings dialogue under *System/Subscription Type, Items/Online Item Settings, Selfwaiter*.

This is intended to simplify the process. You no longer need to go into Club Manager and click the ‘Synchronise items with the local system’ button there after, for example, renaming an item or changing its price in PC CADDIE.

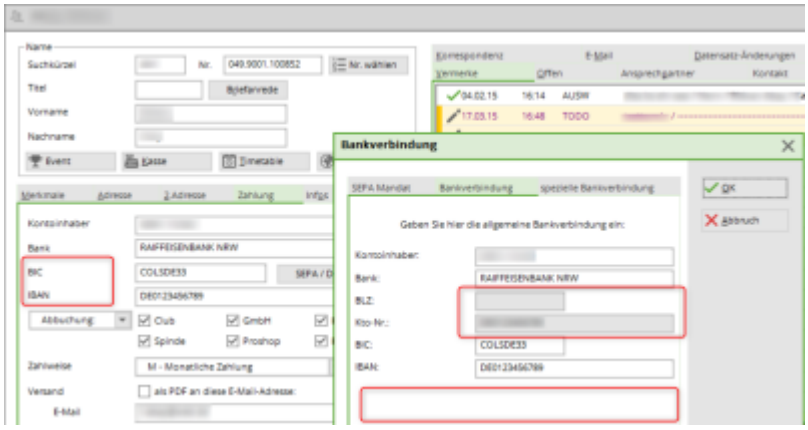

Implemented via the Voting Tool, without a full vote: Printing a list of participants for all course dates for a single person
Tap on the list » and it is automatically copied to the clipboard, ready to be pasted into Excel or Word.

This works in all non-printable lists.

SEPA tool updates:

- The label in the person editor has been changed to show only BIC/IBAN (without ‘Account’ or ‘Sort code’)
- The ‘Account’ and ‘Sort code’ fields in the SEPA details have been disabled
- The ‘Convert’ button for ‘Account’ and ‘Sort code’ has been removed

Correction in the Contribution Editor. An information field was missing from each selection.

Correction to card list printing regarding expired points
