

Annual update Germany 2017

Competitions - Result lists with CR equalisation

From 2017, the standard results list for competitions now includes the gross results with 2 values - with and without CR equalisation (course rating equalisation in gross)
Standard results list with additional value CR equalisation
Information and explanations on CR equalisation settings:
Configuration CR equalisation in gross

HCP entries in persons with home club only

According to the DGV, an HCP (handicap) may only be entered for a person (guest) for whom a home club is also specified. Please see here for further details:
Enter home handicap

Identity card order - regionality check

Information from the German Golf Association can be found at: www.golf.de
Regionality check of members with PC CADDIE: Regionality check
As soon as the members have been checked for regionality, you can order your cards: Generation of the intranet ID card order

Enter your own club information

In addition to your own club address, you can now also enter a postal address and a separate billing address.
Access all entries for the intranet
Enter your own club information

Transfer green fee prices to the intranet

From 2017, you can transfer green fee prices directly to the intranet with PC CADDIE. It is no longer necessary to maintain the green fee prices in the intranet information system (IIS) again.
The green fee items can be transferred directly from the cash register account area to the intranet;

without the PC CADDIE cash register functions, you enter the green fee prices for the intranet:
Green fee configuration

Direct link to results messages

There is now a direct link to your members' results notifications - in the Intranet Information System (IIS)
Call up external results notifications
