## Ordering an ID card

### Receipt for cancellation

From 2018, there will also be receipts for badge cancellations. You can cancel badge orders as usual in the intranet information system (IIS). You will then see the cancellation receipts, just like order receipts, directly in PC CADDIE after you have made the intranet comparison.

### Regionality check

The regionality check is automated for each member as soon as you edit addresses.

The regionality check is therefore not necessary for all members when ordering ID cards, which

means that repeat orders can be placed quickly and easily.
