Annual update Switzerland 2019

ASG becomes Swiss Golf

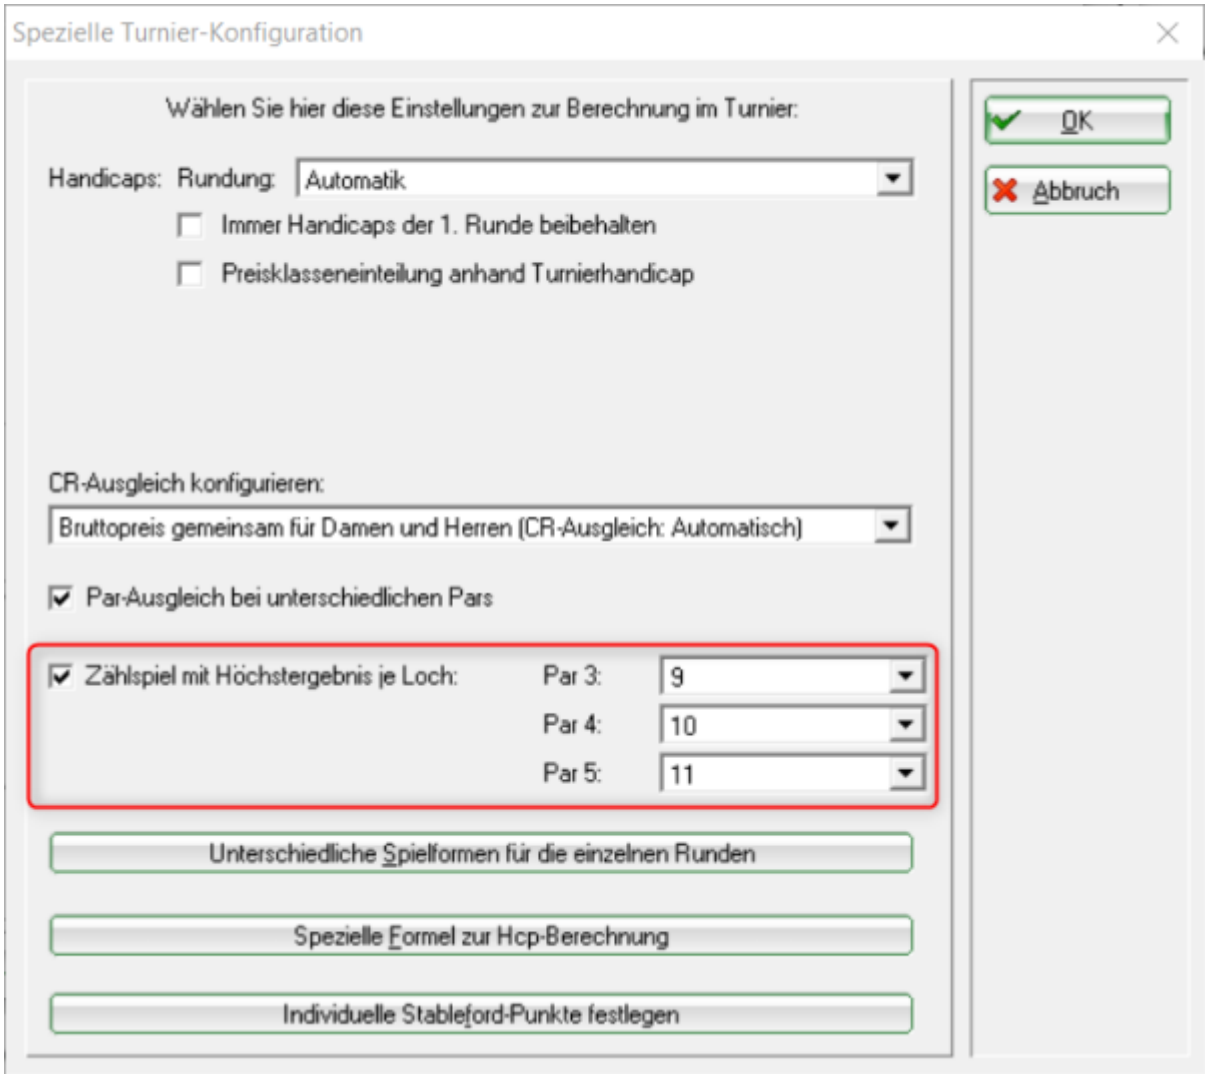

The ASG is now operating under the name ***Swiss Golf***
Swiss Golf

This is also integrated in PC CADDIE, the texts have been changed, e.g. in the person mask:

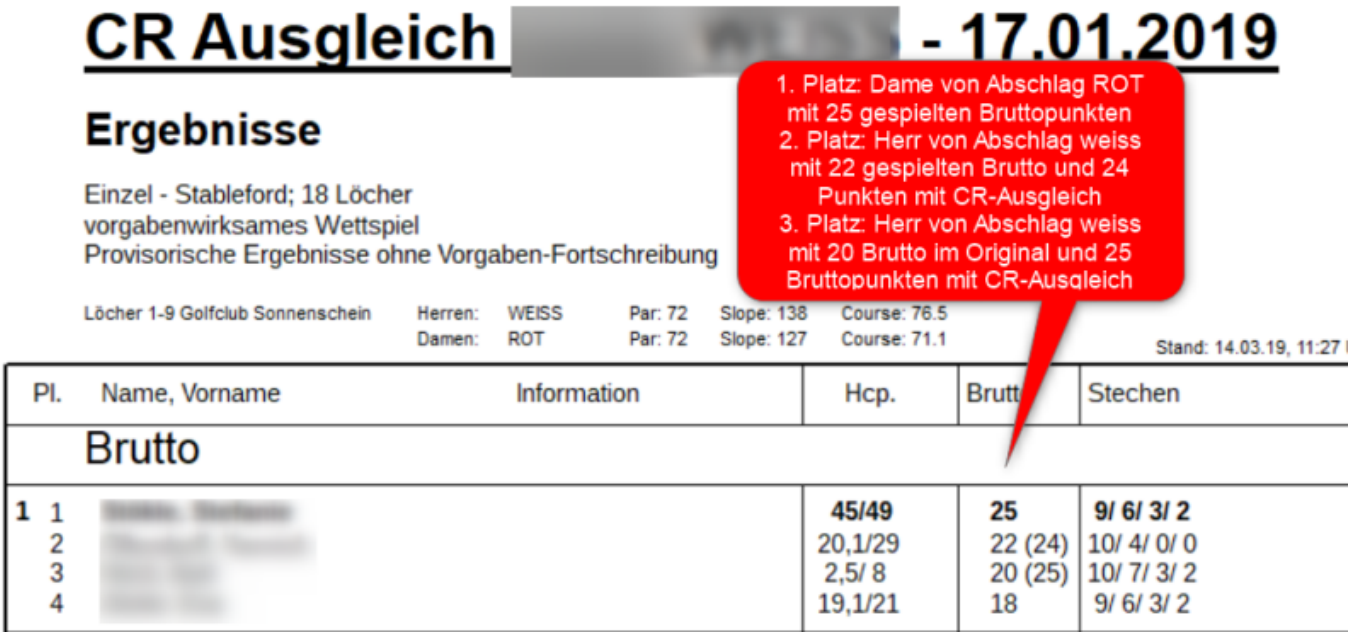

Counting game with maximum score | New form of play

The maximum score per hole improves the speed of play in stroke play tournaments. As the handicap is calculated according to Stableford, this form of play can also be used for handicap tournaments. You can find instructions on how to play here: **⇒Counting game with highest score**

CR equalisation in gross | New sorting

New from 2019: Sorting according to original points played
Example:
In this case *players 2 and 3* have played from the „White men's tee“. The *player 2* is rated better than *player 3*because, without CR compensation, he played better with 22 gross points than *player 3* (Players 2 and 3: both scored from the „tee men white“). However, the gross wins *Player 1*. Because *Player 1* has scored 25 gross points from the „Ladies Red Tee“, and thus she is better than *player 2*who „only“ scored 24 gross points with CR equalisation. The *player 1* is placed in first place.

Course data | Course rating for up to 18 tees / tees

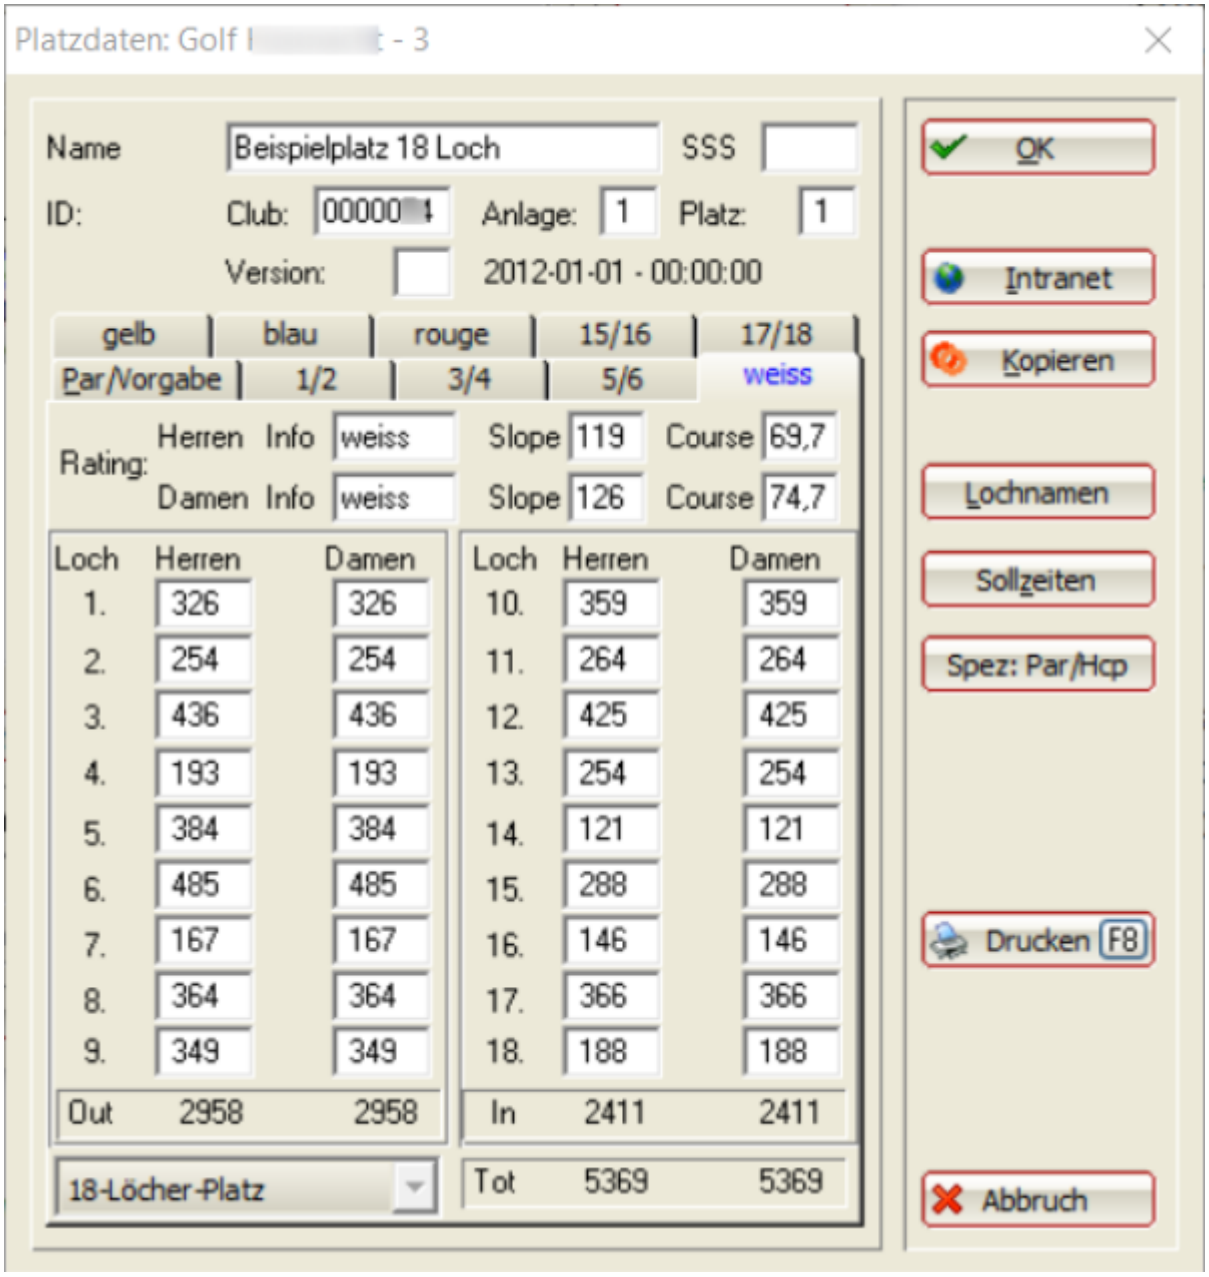

You can now have a course rating carried out for up to 18 tees.
The course data fields have been extended for this purpose: GOLD - SILVER - BLACK - WHITE - YELLOW - BLUE - RED - ORANGE - GREEN.
And you can have every tee colour measured for both men and women!
You can find the instructions for loading the course data: ⇒**here**

Course data | Select tee colours individually via

It is now possible to name the tee colours yourself. However, the tee colours should still be recognisable, e.g. you can change RED → PINK RED. It is not permitted to enter GREEN in the position for RED.
A translation into English or French is also possible.

Here is an example of a club with only a few tees, but individual colour designations:

Printed course data with English colour designations for the tees.
