Annual update Switzerland 2022

Frozen Handicap

According to WHS, you can freeze the Hcp index (up to a certain fixed date). If you select a „frozen status“ and leave the date blank, the date is automatically set to „in one year“.
In principle, the „frozen“ status should freeze the Hcp completely - „frozen up“ should prevent a further increase, „frozen down“ should prevent the Hcp from falling.
For further information on the application and consequences, please contact Swiss Golf, PC CADDIE only transmits the status to Swiss Golf and has no influence on the calculation!
