

Operational comparison BVGA

PC CADDIE calculates with your data

From your sales and contributions recorded in PCCADDIE, from the booked golf rounds booked rounds of golf, competitions, other revenues and membership figures this module calculates all the relevant statistical values, both for the business comparison of the Bundesverband Golfanlagen e.V. (BVGA) as well as for the business comparison of the German Golf Association (DGV); and uses them to create a standardised and comparable form for direct forwarding to the DGV and/or BVGA.
