TimeNoShow

You can configure the automatic NoShow check under the TimeNoShow menu item.

1. Removes the start time and moves it to the NoShow area.
2. Automatically via service
3. Set times as required: When is checked? When is it removed? Waiting time as a buffer
4. Which areas should it apply to?
5. All persons or certain groups?

NoShow setting

You can find the exact instructions here
