

Book activities

The feature **Timetable/Book turnover** serves the posting for elapsed bookings, for clubs that don't work with cash, or green fee prints. These transactions are deposited into the clients' accounts and can be printed as a list, if necessary.

HINT: This procedure is rarely applied in practice because many new features, which show the desired lists and statistics with much more details, have emerged (e.g. [Timetable statistics](#), list of people with lap number etc.).

Transfer into the turnover account

Select the time that should be transferred into the turnover accounts.

CAREFUL: You should only start this function for out of date bookings!!

Area: 18 Holes

From: Date: 10.03.19 Time: 00:00

To: Date: 10.03.19 Time: 24:00

No show: Yes, no show too

OK Cancel

Please note that transactions in the timetable have to be reviewed and/or cancelled if required before posting.

Determine the period and the division the update is supposed to be made for, then confirm with **OK**. The transaction is now posted as an open position into the customers' account division that hosts all timetable transactions. You can select the division of transaction in the menu under **Timetable/Configure Timetable-Rules**.
