The function **Book timetable/turnover** function is used to post bookings that have already expired for clubs that do not work with a cash register or greenfee printing. These bookings are written to the customer's account and can be printed as a list if required.

TIP This procedure is rarely used in practice, as a number of functions have now been developed that display the required lists and statistics in a more detailed and clearer way (e.g. Timetable statistics, person list with number of laps etc.).

Please ensure that the bookings in the timetable have been checked and any necessary cancellations made before posting.

Specify the period and the area for which the booking is to be made and then confirm with **OK**. The booking is now posted to the customer as an open item in the account area used for the timetable bookings. The posting area that applies to the timetable is defined under the menu item **Timetable/Define timetable rules** menu item.
