DGV Qualified Electronic Scorecard (QeSC)

To be able to use the functions for the „Qualified Electronic Scorecard“ (QeSC), you need an additional module from PC CADDIE. This is easily installed together with you.

During installation, we also make sure that the ***Service Manager*** and the automatic ***intranet service*** are set up to ensure that everything runs smoothly.

The DGV requires mandatory target times for the use of QeSC

Please enter in your course data the ***target times*** in your course data!

Procedure for a competition with QeSC

If you want to play competitions with the „Qualified Electronic Scorecard“,
read more under: ***Playing a competition with QeSC***

Procedure for RPR with QeSC

In the current PC CADDIE version there is now also the function to activate the QeSC with the RPR scorecard printing function. You no longer need to create betting games for RPR (registered private round) with QeSC!

If you want to process RPR (registered private round) with the „Qualified electronic scorecard“,
read more under: ***Processing RPR with QeSC***
