

# World Handicap System (Germany)

On this page we provide you with an overview of the current topics that we are communicating in co-operation with the German Golf Association as part of the WHS changes.

The topics listed here are also available on the service portal of the German Golf Association at [Kompakt informs you about the handicap rules \(dgv-intranet.de\)](https://www.dgv.de/kompakt)

## DGV Player ID

PC CADDIE automatically communicates with the DGV intranet regarding the player IDs of your members and the participants in competitions.

## Handicap-History-Sheet

You can view your members' handicap history sheet (tournament results, called „Stammblatt“ with EGA system until 2020) at any time on the DGV portal:

To do this, go to the person mask in PC Caddie and click on Intranet (1) and then select Open Handicap History in the service portal (2).

The DGV service portal will then open in the correct place via your standard browser. To be able to use this functionality, you need an up-to-date Internet browser such as Microsoft Edge, Chrome or Firefox as your default browser.

The screenshot shows a 'World Handicap Director' window with a table of golf scores. The table has columns for Date, Tournament, Score, Handicap, and HCP Index. The data is as follows:

01.01.2019	Handicap-Übungen	49	Handicap-Übungen	18
