Player statistics

You can find this function under ***Competitions/Print.../Player statistics.*** Select the desired tournament and print the list on the screen, which shows the number of eagles, birdies, pars, bogeys and double bogeys for each tournament player.

Decide for yourself which holes are to be counted (if you do not enter any holes, all will be counted), which group of players and whether the gross or net result is to be taken into account. You can also see in the following lines on which holes the players have achieved these results, so that you can also analyse your birdie pool, for example. Via the button ***Print*** button (F8) to start the process:
