

Participant lists

Would you like to invite all tournament participants who have taken part in a tournament more than 3 times or award a bonus for the highest participation?

You will find the appropriate function in the menu under **Tournaments/Multiple tournaments and golf weeks/Participant lists for multiple tournaments Turniere:**

Teilnehmer-Liste

Mit dieser Funktion wird eine Liste aller Spieler gedruckt, die bei mindestens einem der Events gemeldet sind.

Wählen Sie die Events mit dem Knopf [Wahl (F2)] durch Markieren der interessierenden Events mit der Leertaste.

Events:

1 Wahl F2

2 Layout: Turnierstatistik

Benutzen Sie folgende Felder im Layout, um die Eventinformationen in die Liste einzubauen:

<EVENT> = Belegte Events angekreuzt

<EVENT.TIME> = Startzeit belegter Events

3 Personengruppe: Alle Mitglieder

Reihenfolge: Namen

Eventinformation im Listenkopf

Hauptliste Puffer Warteliste

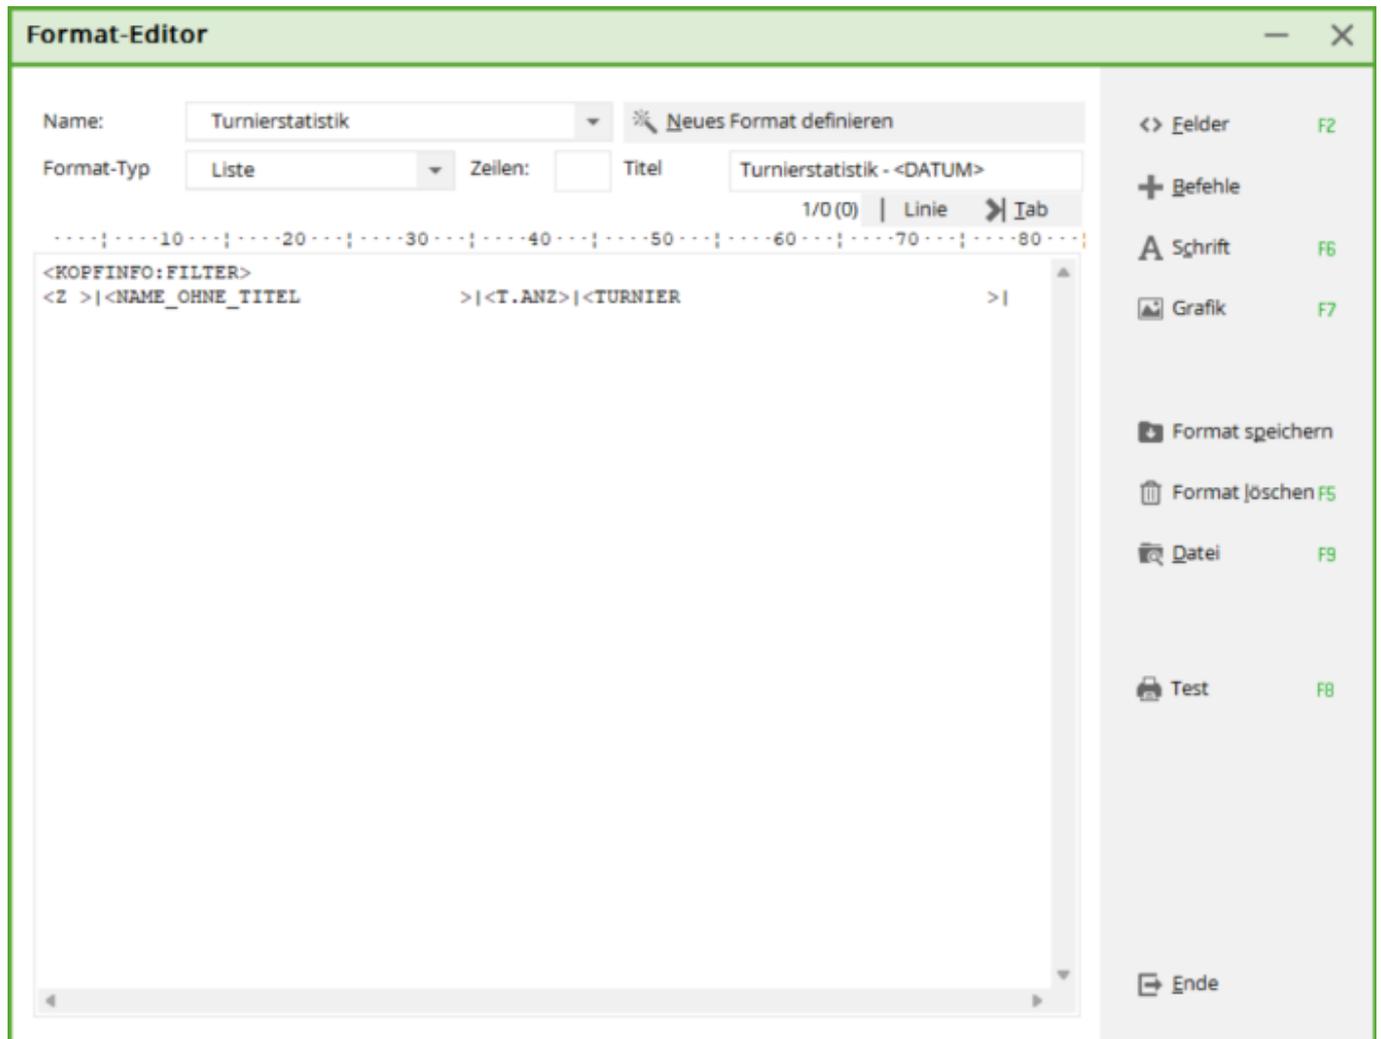

Drucken F8

Ende

1. Use the button **Selection** button (F2) to determine which tournaments are to be taken into

account.

2. Under **Layout** all layouts that are also available for lists of persons etc. are available. If you now want to print a list of participants with the number of tournaments, create a corresponding layout. Tip: Use a layout with this source code:

3. you can also select the **group of people** and the **sequence** determine.

Start the printing process with **Print** (F8):

Turnierstatistik - 08.12.22

1 Turniere:

22011 = Testcup, 29.03.22 (2 Spieler)
 22019 = Tiger & Rabbit, 08.04.22 (1 Spieler)

2 Alle Mitglieder

Stand: 08.12.22, 17:59 Uhr

Nr.	Nachname, Vorname ³	Anzahl	22011	22019
1	Heck, Axel	2 ⁴	X ⁵	X
2	Member, Paul	1	X	

This will produce a clear list showing at a glance which tournaments (1) and which group of people (2) have been selected. You can also see that the members Axel Heck and Paul Member (3) have participated twice and once (4) respectively in the tournaments with the numbers 22011 and 22019 (5).

TIP If you want to sort this list according to the number of participations, [first export it to Excel](#) and then sort by the Number column.
