

Register players for multiple tournaments

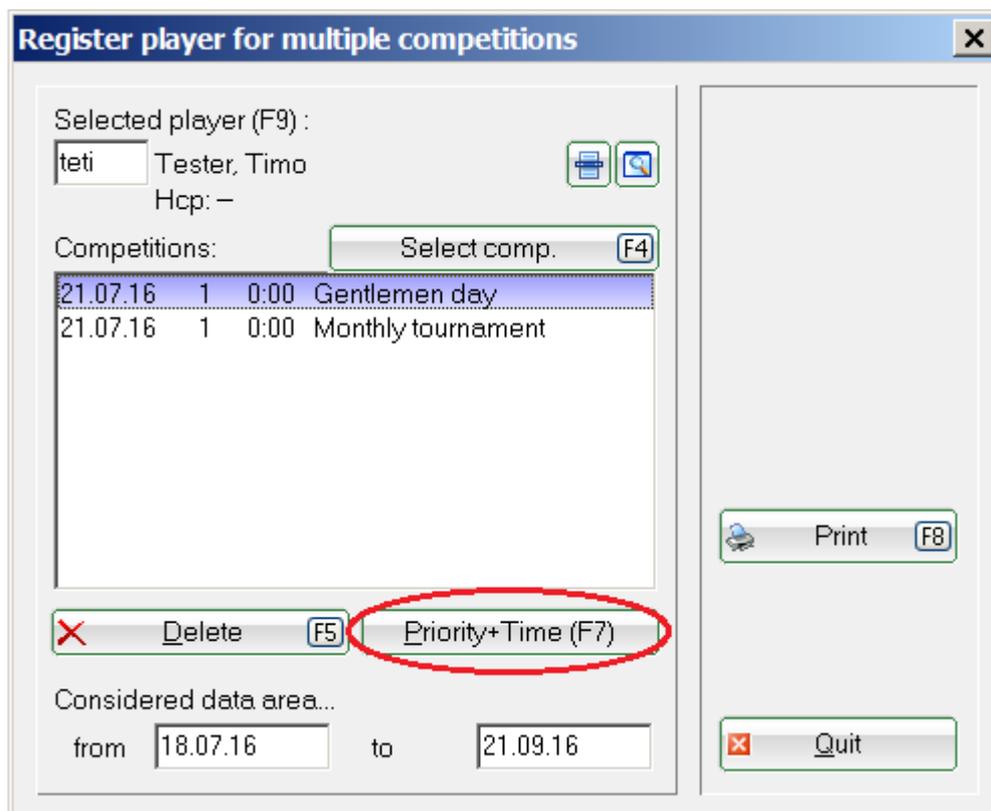

About **Competitions/Multiple tournaments and golf weeks/Register player for multiple tournaments** you have the option of registering a specific player for several tournaments. You also have this option directly in the person mask if you click on the button **Competitions** button. For both options, it is necessary to fill in the information for the number of players and the closing date for entries in the competitions (Internet button).

The screenshot shows a dialog box titled "Register player for multiple competitions". It features a "Selected player (F9)" field with the text "teti" and "Tester, Timo", and an "Hcp: -" field. Below this is a "Competitions:" section with a "Select comp. (F4)" button. At the bottom, there is a "Considered data area..." section with "from 18.07.16" and "to 21.09.16". Action buttons include "Delete (F5)", "Priority+Time (F7)", "Print (F8)", and "Quit".

Enter at **Edited player** (F9), enter the desired player. Then determine the data range to be taken into account. Via the button **Select tournaments** button (F4), you can activate the tournaments in which „Stefanie Stökle“, for example, would like to participate:

Confirm your entries with **Done**. If Stefanie Stökle would also like to start at a specific time, simply select the desired tournament, click on **Priority+Time** (F7) and enter e.g. **F** for „Early“:

Edit registered player [X]

Event: Gentlemen day
Player: Tester, Timo

Priority: **E**

Start Hole: (WL = Waiting List)
Time:

[F7]

[O]
 [C]

Enter all the required information in this dialogue and exit with **OK**.
