Add up gross and net special scoring

Status 5 November 2024

Due to the HCPI relevance check of the DGV, and also because the DGV's specifications no longer allow the results to be copied, this evaluation has become more labour-intensive

As a special classification, this is very individual and therefore only a special classification. Normally there is a gross **or** a net classification!

An experienced PC CADDIE user can add the gross and net scores manually, but you need a second tournament (a copy of the tournament, whereby you can only copy the players with the start list, everything else - including the results - must be entered twice in the two tournaments)! You can add gross and net points with the team score. To do this, use the multi-team scoring to add up the points for the original tournament and the copied tournament.

Copy tournament

Copy the tournament as soon as the start list has been created and the teams have been put together. Read how to do this: =>here

It is important that you first open a new tournament, preferably with the setting "free game form" then click on **copy** and, after selecting the tournament to be copied, tick the following boxes (please do not copy the tournament configuration, as this will also copy the HCPI relevance) - the "free form of play" is automatically not HCPI relevant, so that you do not inadvertently complete the results HCPI relevant twice!

Editing the copied tournament

For better recognition, it is best to add any text to the tournament name, e.g. Brutto: "Tuniername BRUTTO".

uchbegriff:	flühli	✓ Turnier	Kurse	Events		✓ <u>O</u> k	
Datum	Bezeichnung	Typ Kat.	Loch Teilnehm	er Kennung		+ <u>N</u> eu	F9

Now simply set the Hcp formula to "0" as follows - then all results are "gross", even in net rankings!

VORSICHT: PC CADDIE rechnet alle Turnierformen automatisch korrekt gemäß Spiel- und Wettspielordnung. Anpassungen in diesem Fenster sind nur in Ausnahmen nötig. Benutzen Sie diese Felder in der Formel: H1 = HCP des ersten Spielers H2 = HCP des zweiten Spielers H2 = Grösseres HCP SUM = Summe der Einzel-HCPs ANZ = Anzahl der Spieler Rechen-Operatoren: + (plus) + (plus) - (minus) * (Multiplikation) / (Division) Hinweis zu Dezimalzahlen (Zahlen mit Komma wie 0.5): Bitte zur Trennung der Kommastellen einen PUNKT verwenden! The copied tournament with these settings should under no circumstances be completed with HCP relevance! (If this happens by mistake, the results in the handicap history sheets at the DGV are duplicated, and may also be calculated once with the 0 formula)!

Use annual prices for the addition

For the addition of gross and net points, use the module Annual prices

The "BRUNE" price (addition of gross and net) is set as follows:

Edit annual prize	×
Name: Net and Gross - GRONE Calculation: Net Points: Stableford-Points	✓ <u>OK</u> ★ <u>C</u> ancel
<u>G</u> roup: (neutral) ▼ Define Hcp <u>from:</u> <u>to</u> <u>to</u> ✓ Use filter for computing the points (not printing only) According to the prize categories in the competitions	
Hcp from (empty=day of comp.)	
Only players with at least 1 round(s)	
Consider only the <u>b</u> est 999 results	
Calculate with 0 digits after the point	

As the HCP calculation in the copied tournament is set to zero, the net results in the copied tournament are the same as the gross results, so you only need to add the net results from both tournaments and you have the desired list:

Net and Gross - GRONE

Use multi-team scoring for addition

You can also use these two tournaments to add gross and net in the team ranking: You make the settings with the <u>Multiteam scoring</u>!
