With this setting in the Internet options, you will then have the following tab in the game editor:

The screenshot shows a tournament software window titled "Startliste: TEST LIGA Ersatzspieler, 1. Runde - 30.05.24". The menu bar includes "Turnier", "Bearbeiten", "Sortieren + Formatieren", "Block", "Puffer", "Drucken", "Info", "Speichern", and "Ende". The toolbar includes "Rückgängig" (Undo), "Automatische Partiegröße: Aus" (Automatic game size: Off), and a "Puffer" (Buffer) icon. The main area displays a list of players for group 1/1, player 1/2. The columns are "Tee", "Zeit", "SUKZ", "Name", "HCP", "Club", and "Prior.". One player is listed: "1 10:00 alm7 Alterslos, Maria 54,0". A green bar highlights this row. The right side of the interface shows a "Puffer" (Buffer) window with tabs: "Puffer (0)", "Ersatzsp. (1)" (highlighted with a red box), "Warteliste (0)", "Unbeantwortete Intranet-Anmeldung (0)", and "Entfernt (2)". The "Ersatzsp. (1)" tab contains a list with one item: "1/1 erf3 Erfunden, Fritz 1,9 *** 30.05.-16:08".

This has the following advantage:

Substitute players are not included in team assignments and when loading the players into the result recording!
