Tournaments against par

The players do not play against each other as in the hole betting game, but „against the course“, so to speak.
Therefore, when entering the scores, you will not see gross and net points as usual, but you will see directly for each hole whether the player has lost the hole (-), won the hole (+) or tied the hole (0).
In the addition, won and lost holes are offset against each other. In the following example, the total looks like this:

- Gross: draw 7, won 2, lost 9: 2x won minus 9x lost = -7
- Net: draw 6, win 9, lose 3: 9x won minus 3x lost = 6

On the handicap result list it looks like this:

Turnier gegen Par - 10.06.2015

Netto-Ergebnisse

Einzel - Gegen Par; 18 Löcher
vorgabenwirksames Wettspiel
Pufferzonenanpassung (CBA) nicht angewendet

18 Löcher, GC Schloss Langenstein	Herren:	GELB	Par: 72	Slope: 129	Course: 71.6
	Damen:	ROT	Par: 72	Slope: 131	Course: 73.7

Pufferzone Klasse 1 bis 4,4: (35-36)
Pufferzone Klasse 2 bis 11,4: (34-36)
Pufferzone Klasse 3 bis 18,4: (33-36)
Pufferzone Klasse 4 bis 26,4: (32-36)
Pufferzone Klasse 5 bis 36,0: (31-36)

Stand: 10.06.15, 10:41 Uhr

Pl.	Name, Vorname	Information	StV/SpV	Brutto	Netto	Gew/StV
1	[illegible]	[illegible]	17,4?/22	-7	+6	42/15,6

The Stableford points calculated for the master sheet are not determined „per hole“ when counting „against par“, but rather 36 points plus 6 (6 up) are calculated for this example, which results in 42 Stableford points for this result. If, for example, a player had played a net score of -2, his stableford points would be 36-2 (2 down) = 34 stableford points

Please also read the rules and regulations of your golf association. The explanation of the stableford calculation for tournaments against par can be found in the DGV handicap and playing regulations.
