Edit product groups

Under ***Sales/contribution types/articles/edit, swap, summarise merchandise categories*** you can edit merchandise categories in the following window:

1. Via ***New*** you can create a new product group.
2. If you log in to the ***New*** you have made a mistake, you can use ***Edit*** (F7) to correct your entry.
3. You should only delete a product group if ***Delete,*** if the merchandise category is no longer used in the articles. If you delete a merchandise category that is still used in the articles, the short form of the merchandise category is saved in the article text.
4. Under ***Swap merchandise categories in the items*** the following window opens, which you can close after making the settings with ***OK*** after making the settings.
