Results list

You can access the results output directly in the tournament mask, by pressing the ***Print*** button on the right hand side, or under ***Competitions/Print.../Results List***. You can also call this functionality via the ***Print results list*** button or by setting the Prize adjustment of a tournament:

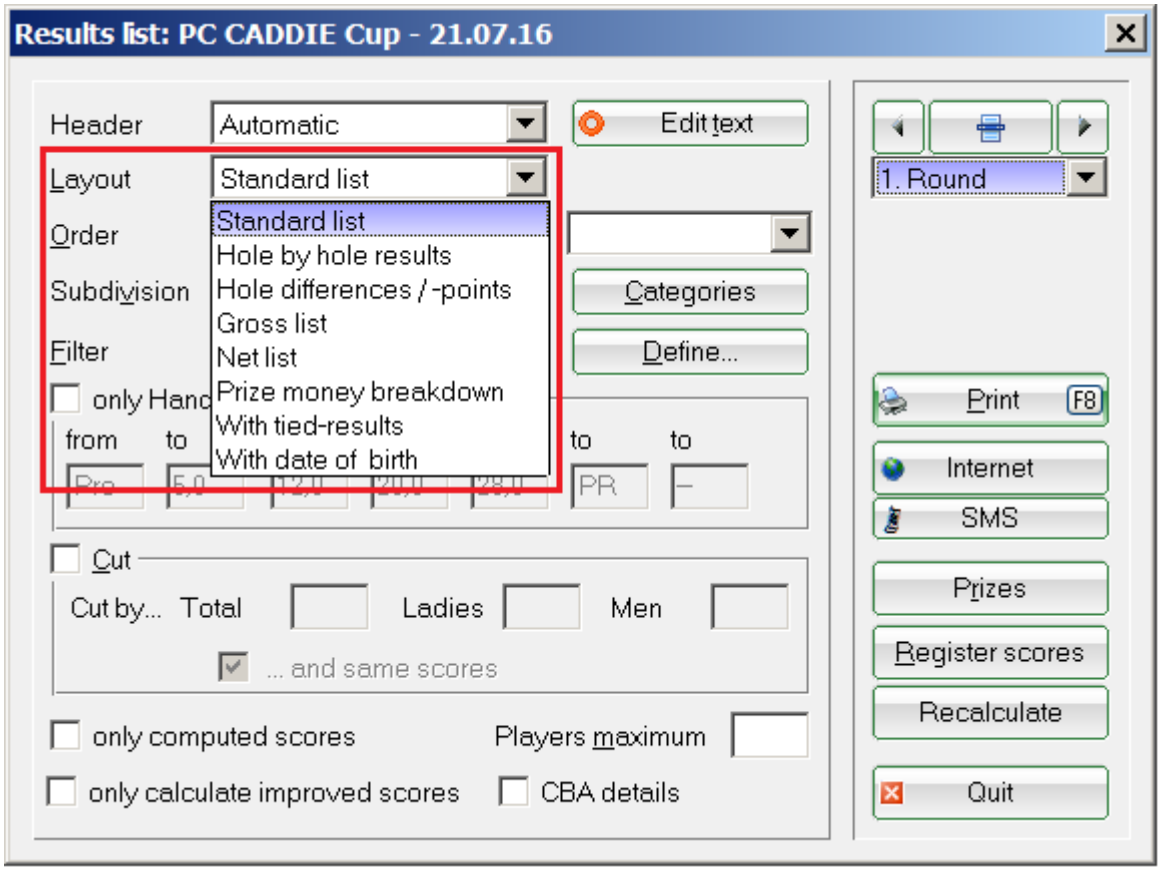

The following window opens:

Create the results list

The ***Header*** offers you the same possibilities as with the as for the Entry list and the Start list. The ***Layout*** is very important — this determines which information is printed in the result list:

Standard list

All necessary information will be printed: gross and net overall score, as well as the net difference or the rated net Stableford points, as soon as the competition has been completed (with new handicap).

From 2019, the gross column is sorted according to the gross points actually played, the result with CR compensation is listed on the right side. Only the BOLDED printed winners are brought upwards in the list, all others remain below them according to original played points: cr_compensation

In this example, the winner without CR compensation points has already clearly won with 26 points. However, you can see from the other players that CR balancing points have been added (right), but they have no effect in sorting the list, the players are listed based on the original played points!

Results List

Single- Stableford
Handicap effective competition; handicap limit: 36.0
Provisional results without handicap updating

Championship course Men Standard: YELLOW Par:72 Slope: 132 Course: 71,9
Special: WHITE Par:72 Slope: 132 Course: 74,1
Women: RED Par:72 Slope: 131 Course: 74,1

Stand: 01.08.19, 10:59 Uhr

Pl.		Name, First name	Information	Hcp.	Gross	Net	P/HCP
		Gross					
1	1			7,1/ 8	26	34	
	2			10,5?/12	25	36	
	3			6,9/10	23 (25)	32	
	4			12,8/15	22	36	
	*			11,6/13	22	34	
	6			11,5/13	21	34	
	*			12,6/17	21 (22)	35	
	8			8,2/ 9	20	29	
	*			13,2?/15	20	31	
	*			12,0/16	20 (21)	33	
	*			12,9/17	20 (21)	36	
	*			11,8/16	20 (21)	33	
	*			14,6/19	20 (22)	36	

Just informative, if you print older tournament lists: ***2017 and 2018 - the gross column is extended by the additional indication of the actually played gross points***, if the gross points are calculated by the cr_compensation. Take a look here: The winner has played 40 gross points, but receives 42 gross points because of the CR compensation! From 2019, the sorting will change again due to adjustments in the CR compensation, as described above!

HINT: If you want to print the hole results with different colors, you have to make the necessary adjustments in the print settings. To do this, click in the print window on ***Setup:***

Assign the colors using the buttons (1). Then it is best to rename the print layout (2).

Assign one color per button (1), for example green (255 = full color saturation) for *italics*.

The results are now colored on the print-out.

Net results

Prize-Money-Breakdown

The Prize-Money-Breakdown is used to calculate the distribution of money in professional tournaments. To do this, you must enter the prize money using the ***Prize money*** button:

You can separately write in the two lists the prize money for men and women using the button ***Type***. PC CADDIE then calculates the correct amount for each.

The money is only distributed to pros.

With playoff results

In addition to the overall results, the partial results are also printed in the list, according to the playoff stroke:

Net results

Check results with playoff details

Use the results list with the details for the playoff if you are not sure why two players have the same points, and one of them is the winner.

See what is set in the basic settings of the tournament for the playoff. The correct way to make the setting if you have ***Most difficult/Easiest*** playoffs is presented in the following screen-shot:

PC CADDIE then compares (for players with the same score) the results for the first 9 holes;
PC CADDIE automatically checks the difficulty level - 1,18,3,16,5,14,7,12,9 - for each hole in the course data, previously entered in the tournament's settings (see DGV Guidelines and game regulations, 2012 to 2015, page 210, example 4).
These 9 results are then added, and whoever has more points has already won in the playoff. For further equal scores only 6 results are compared (confirming to DGV regulations), etc...

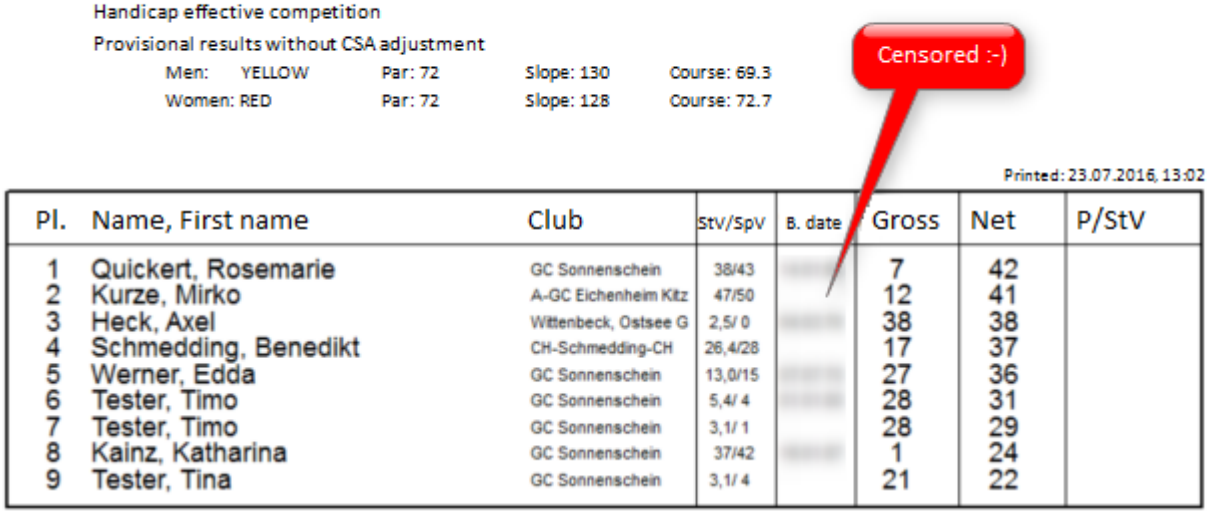

After comparing the 9 holes, the results are ordered as presented below, even if the score is the same:

Pl.	Name, First name	Information	StV/SpV	Gross	Strokes
Gross members without juniors HCP 18,1 to 38					
1	1	[redacted]	[redacted]	26	15/ 8/ 2/ 1
	*	[redacted]	[redacted]	26	14/10/ 3/ 1
	*	[redacted]	[redacted]	26	12/ 7/ 4/ 1
	4	[redacted]	[redacted]	24	14/10/ 4/ 0
	5	[redacted]	[redacted]	23	13/ 8/ 5/ 2

With date of birth

A column with the birth-dates is printed together with the results.

Results list for the flag competition

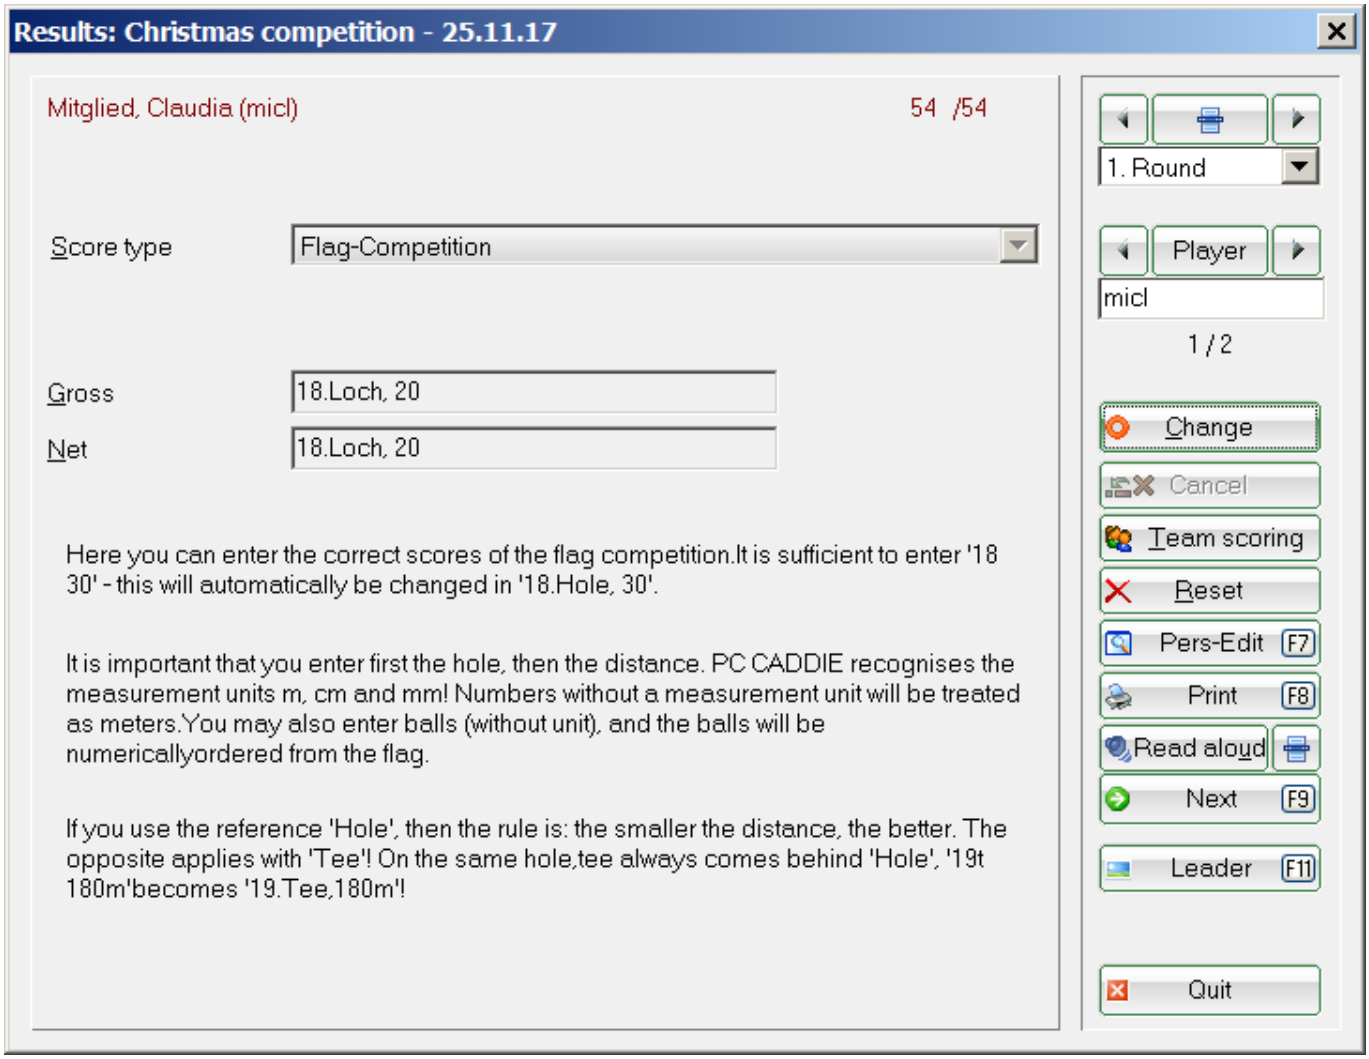

You can enter the results for the flag competition as soon as you select **Flag-Competition** in the „Result type“ field.

PC CADDIE prints in the result list the entries of the field „Gross“, if sorting gross list is set - or that of the field „Net“, if sorting net list is set.

You can enter the results as text. It is sufficient to enter **18 30**, and it automatically becomes **18.hole, 30**.

Important: Enter first the hole and then the distance. PC CADDIE even recognizes the units of measurement *m, cm and mm*!! Values entered without a measurement unit are considered as meters. Accordingly, you could number the balls from the flag without unit information.

As soon as you enter the identifier **Hole**, the following applies: the shorter the distance, the better the result. As soon as you enter the identifier **Tee**, the following applies: the larger the distance, the better the result.
For example, if you enter **19t 180m**, that would be automatically converted to **19.Tee, 180m**.

This is how a result list looks like:

Several rounds playoff

When the playoff is used on two rounds, the last one is always used to determine the winner.

Example: If in a multi-round tournament you have 3 players with the same overall results after 2 rounds, the last round will be used for the playoff.
First, it is checked whether in the second round the results are already different, for example, 2 players have 33 net Stableford points and the 3rd player has 32 points. Just because the 3rd player has 1 point less than the other two players in the 2nd round, it is already clear that this player gets 3rd place, no matter how he played the rest of the rounds.
For the other two you have to print the Result list with playoff details only for the second round to decide who gets the first place.

More examples with screenshots:

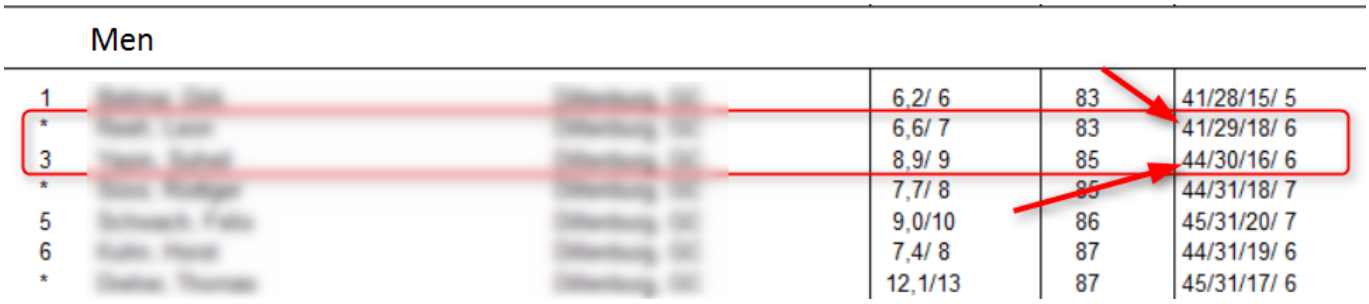

Position of the men gross after 3 rounds: in the playoff is set: Hardest/Easiest - 9,6,3,1

Men

1	[redacted]	[redacted]	6,2	81	83	83	247	+31

The 3rd round is used to determine the score - result list for round 3 with playoff details:
The player with 44 points wins after comparing the results for the 9 holes.

Men

1	[redacted]	[redacted]	6,2/ 6	83	41/28/15/ 5
*	[redacted]	[redacted]	6,6/ 7	83	41/29/18/ 6
3	[redacted]	[redacted]	8,9/ 9	85	44/30/16/ 6
*	[redacted]	[redacted]	7,7/ 8	85	44/31/18/ 7
5	[redacted]	[redacted]	9,0/10	86	45/31/20/ 7
6	[redacted]	[redacted]	7,4/ 8	87	44/31/19/ 6
*	[redacted]	[redacted]	12,1/13	87	45/31/17/ 6

You could also set (depending on the tender): Hardest/Easiest - 18,9,6,3,1
In this case, the last round is also used to determine the winner. But first, all 18 holes of the last round are compared. In the following example, the same player wins:

Men

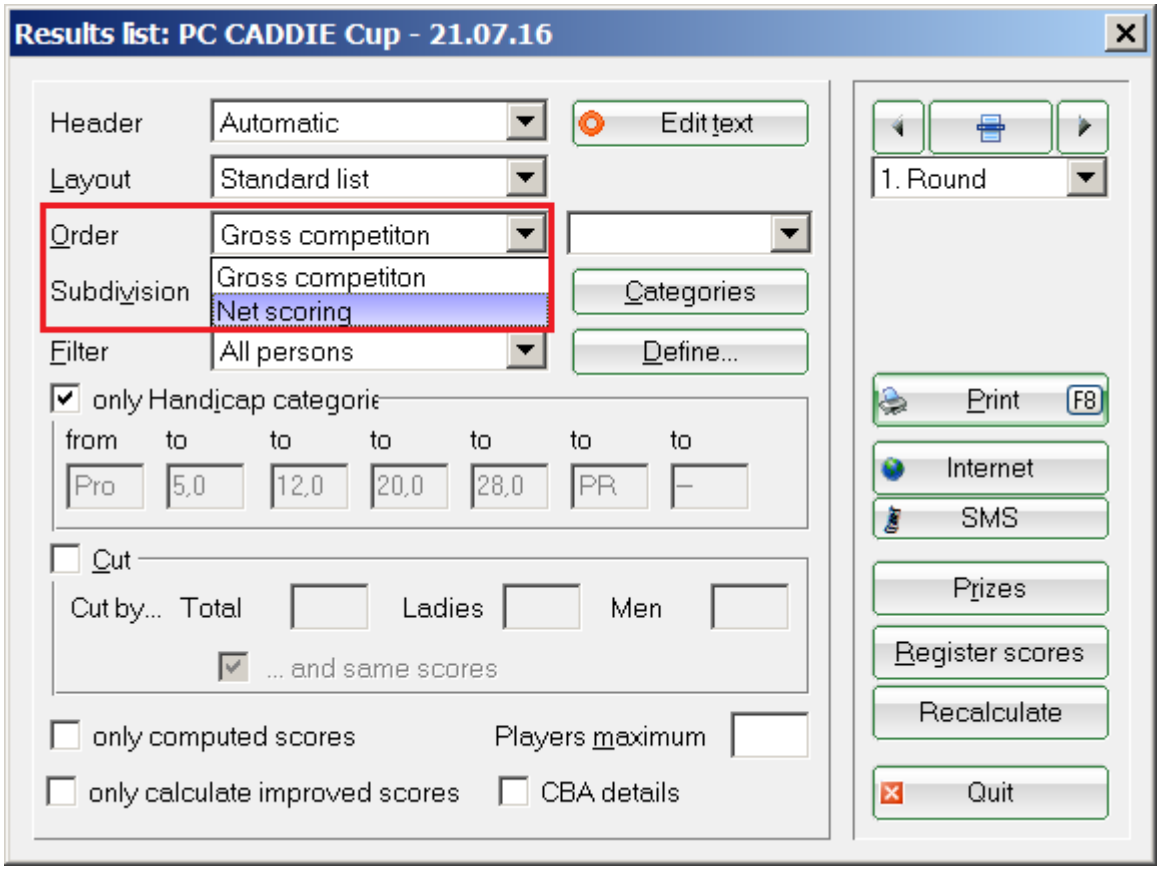

1	[redacted]	[redacted]	6,2/ 6	83	83/41/28/15/ 5
*	[redacted]	[redacted]	6,6/ 7	83	83/41/29/18/ 6
3	[redacted]	[redacted]	8,9/ 9	85	85/44/30/16/ 6
*	[redacted]	[redacted]	7,7/ 8	85	85/44/31/18/ 7
5	[redacted]	[redacted]	9,0/10	86	86/45/31/20/ 7
6	[redacted]	[redacted]	7,4/ 8	87	87/44/31/19/ 6
*	[redacted]	[redacted]	12,1/13	87	87/45/31/17/ 6
[redacted]	[redacted]	[redacted]	13,5/15	88	88/45/31/18/ 6
[redacted]	[redacted]	[redacted]	17,1/19	88	88/46/32/18/ 7

If there is a full tie at the playoff (for all adjusted holes) the randomness will decide and the result will

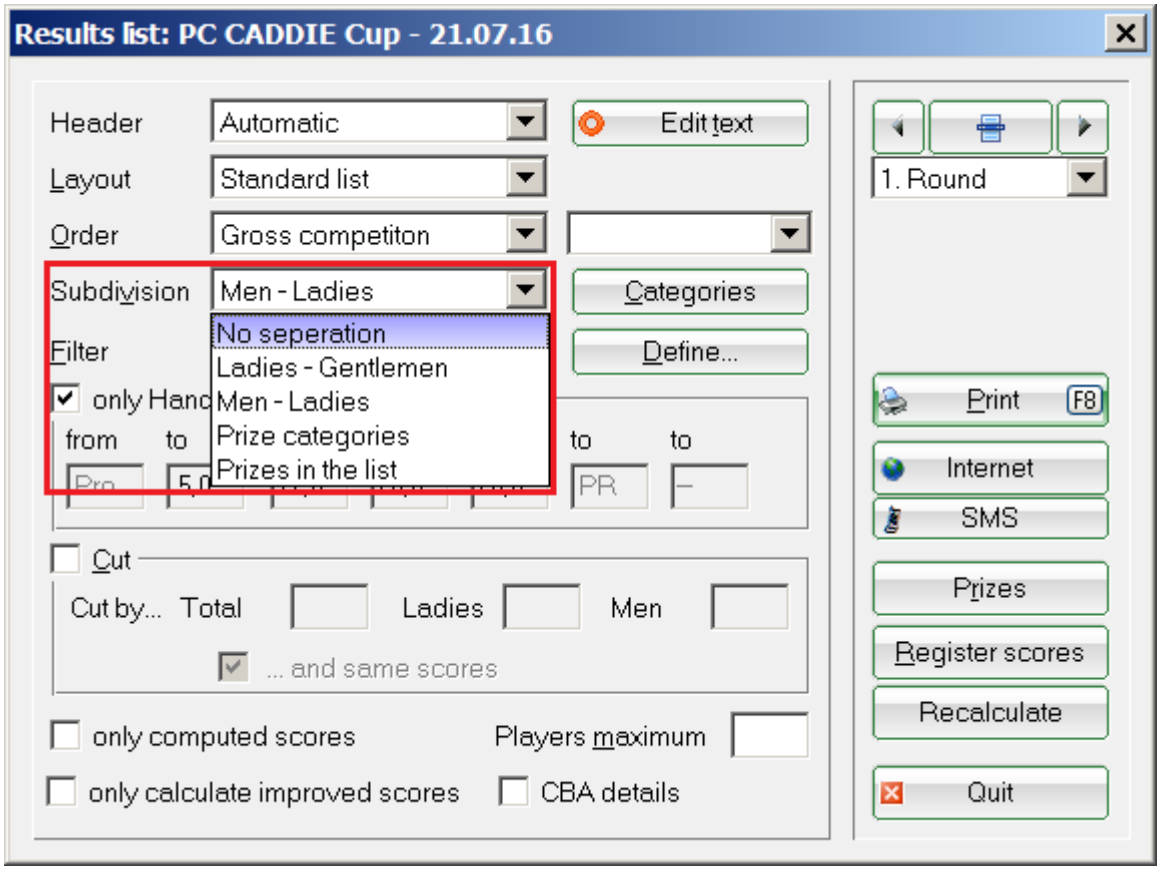

be marked with 2 asterisks. The penultimate round will not be used to determine the score. Recommended for the tender is also Sudden Death (playoff).

More settings

Use ***Sort*** to select between „Gross evaluation“ and „Net evaluation“. Note that this setting is ignored when using the ***Subdivision*** „Prize class“ or „Prize in list“. You can also activate ***Alphabetic*** to process the list alphabetically.

The following options are available for ***Subdivision***:

„Prizes in list“ should be chosen in most cases when prizes have been defined. Then, the result list is automatically divided into the classes that you have defined in the ***Prize definition***. In this case, the players who have won a prize are shown in bold:

Results

Single – Stableford Stroke play; 18 Holes
Handicap effective competition
Provisional results without CSA adjustment

Men:	YELLOW	Par: 72	Slope: 130	Course: 69.3
Women:	RED	Par: 72	Slope: 128	Course: 72.7

Printed: 23.07.2016, 20:52

Pl.		Name, First name	Club	StV/SpV	Gross	Net	P/StV
		Gross Women					
1	**1**	**Werner, Edda**	**GC Sonnenschein**	**13,0/15**	**27**	**36**	
	2	Tester, Tina	GC Sonnenschein	3,1/ 4	21	22	
	3	Quickert, Rosemarie	GC Sonnenschein	38/43	7	42	
	4	Kainz, Katharina	GC Sonnenschein	37/42	1	24	
		Gross Men					
1	**1**	**Heck, Axel**	**Wittenbeck, Ostsee**	**2,5/ 0**	**38**	**38**	
	2	Tester, Timo	GC Sonnenschein	3,1/ 1	28	29	
	*	Tester, Timo	GC Sonnenschein	5,4/ 4	28	31	
	4	Schmedding, Benedikt	CH-Schmedding-CH	26,4/28	17	37	
	5	Kurze, Mirko	A-GC Eichenheim Kitz	47/50	12	41	
		Net HCP up to 4,4					

It would be good to distinguish between players with the same name, for example by using the words

senior and junior.

If you select „Prize categories“, the subdivision is also according to the prize definition, but the winners are not printed in bold:

Results

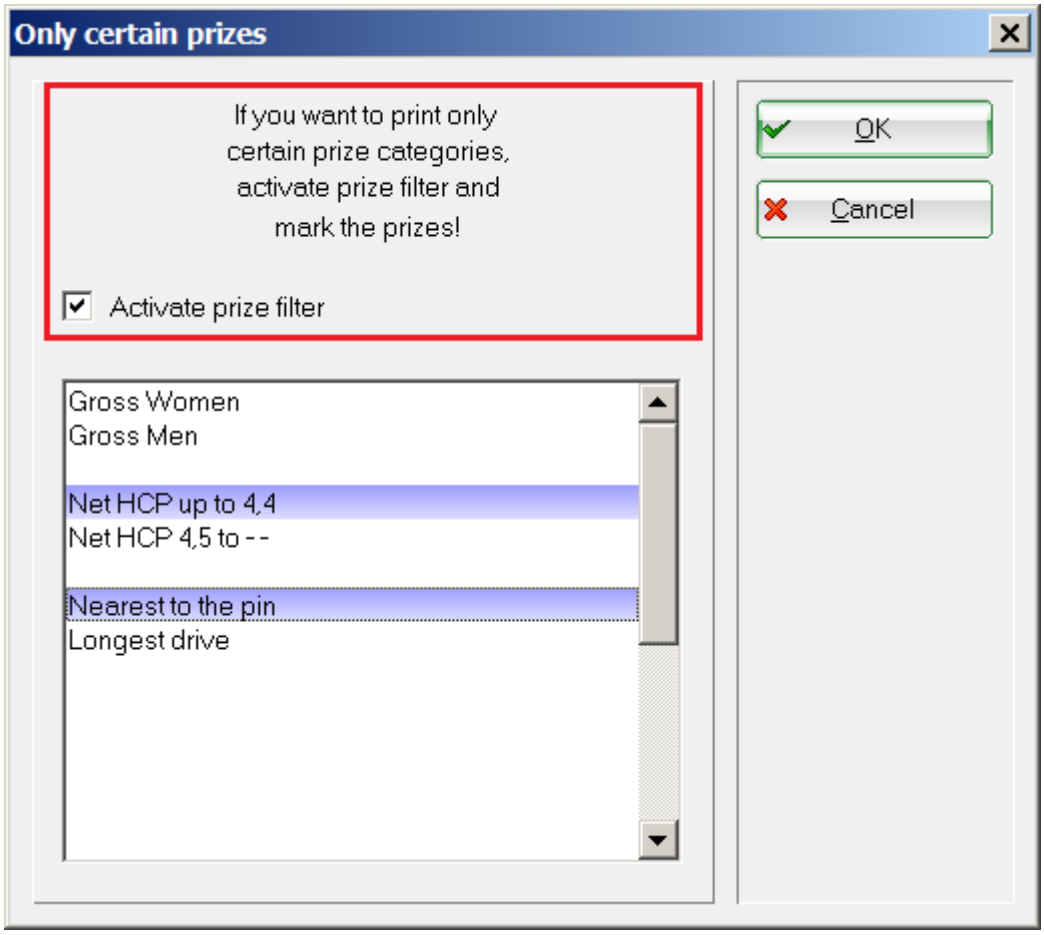

Single – Stableford Stroke play; 18 Holes
Handicap effective competition
Provisional results without CSA adjustment

Men:	YELLOW	Par: 72	Slope: 130	Course: 69.3
Women:	RED	Par: 72	Slope: 128	Course: 72.7

Printed: 23.07.2016, 20:52

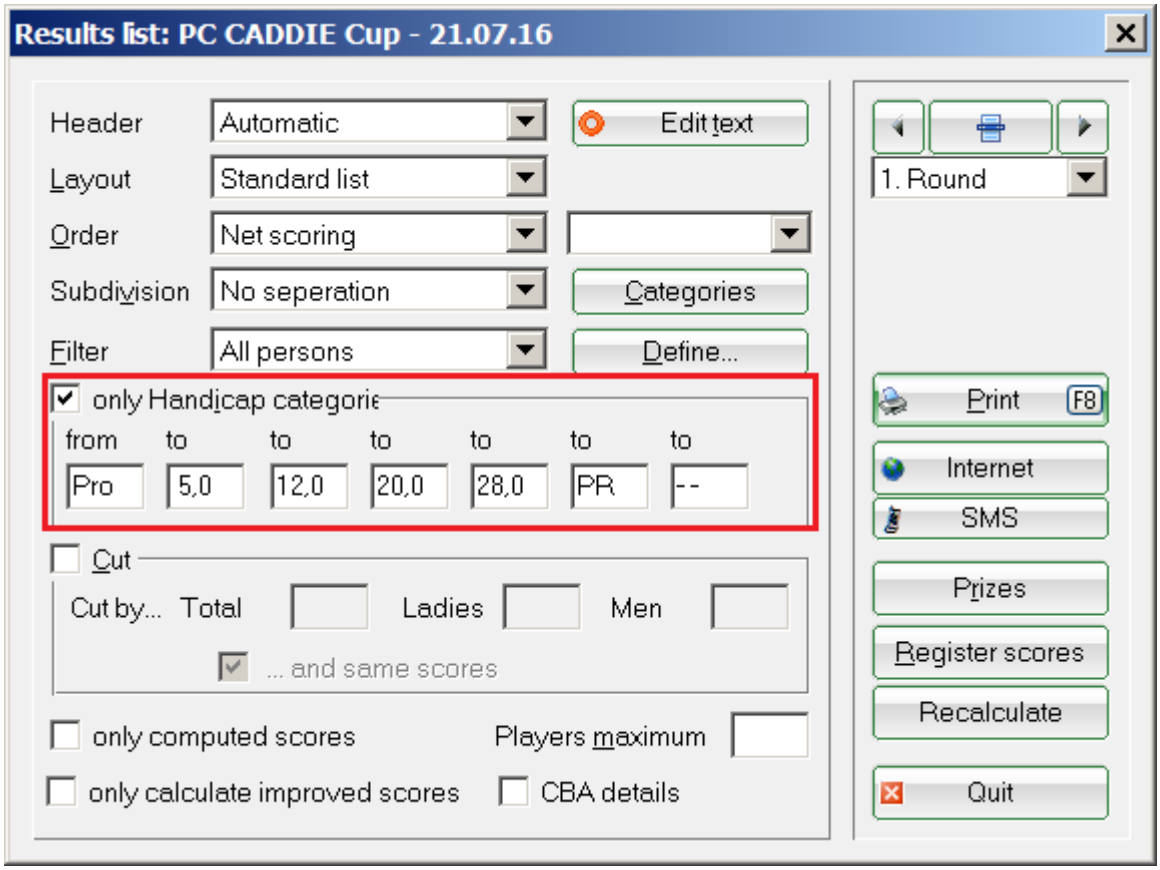

Pl.	Name, First name	Club	StV/SpV	Gross	Net	P/StV
	Gross Women					
1	Werner, Edda	GC Sonnenschein	13,0/15	27	36	
2	Tester, Tina	GC Sonnenschein	3,1/ 4	21	22	
3	Quickert, Rosemarie	GC Sonnenschein	38/43	7	42	
4	Kainz, Katharina	GC Sonnenschein	37/42	1	24	
	Gross Men					
1	Heck, Axel	Wittenbeck, Ostsee G	2,5/ 0	38	38	
2	Tester, Timo	GC Sonnenschein	3,1/ 1	28	29	
*	Tester, Timo	GC Sonnenschein	5,4/ 4	28	31	
4	Schmedding, Benedikt	CH-Schmedding-CH	26,4/28	17	37	
5	Kurze, Mirko	A-GC Eichenheim Kitz	47/50	12	41	
	Net HCP up to 4,4					

Then use the button ***Certain prizes*** if only individually defined prizeses should be printed:

If you have not selected a breakdown by prize, you can use ***Filter*** to specify a person filter. Only the players that fulfill the filter conditions will be printed.

If you select the ***Only Handicap Classes*** option, you can easily classify into handicap classes. Here's an example:

On the printout you get a classification into the set handicap classes:

Net results

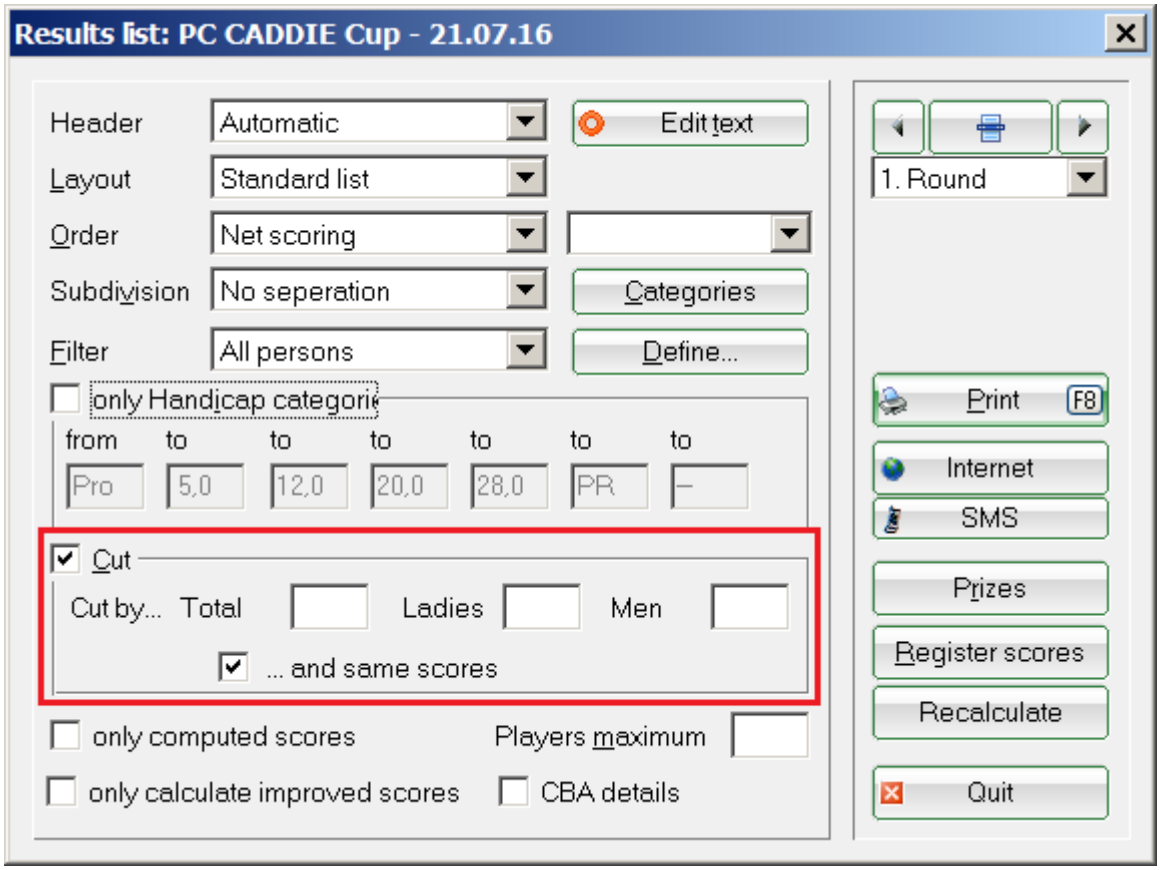

Single – Stableford Stroke play; 18 Holes
Handicap effective competition
Provisional results without CSA adjustment

Men:	YELLOW	Par: 72	Slope: 130	Course: 69.3
Women:	RED	Par: 72	Slope: 128	Course: 72.7

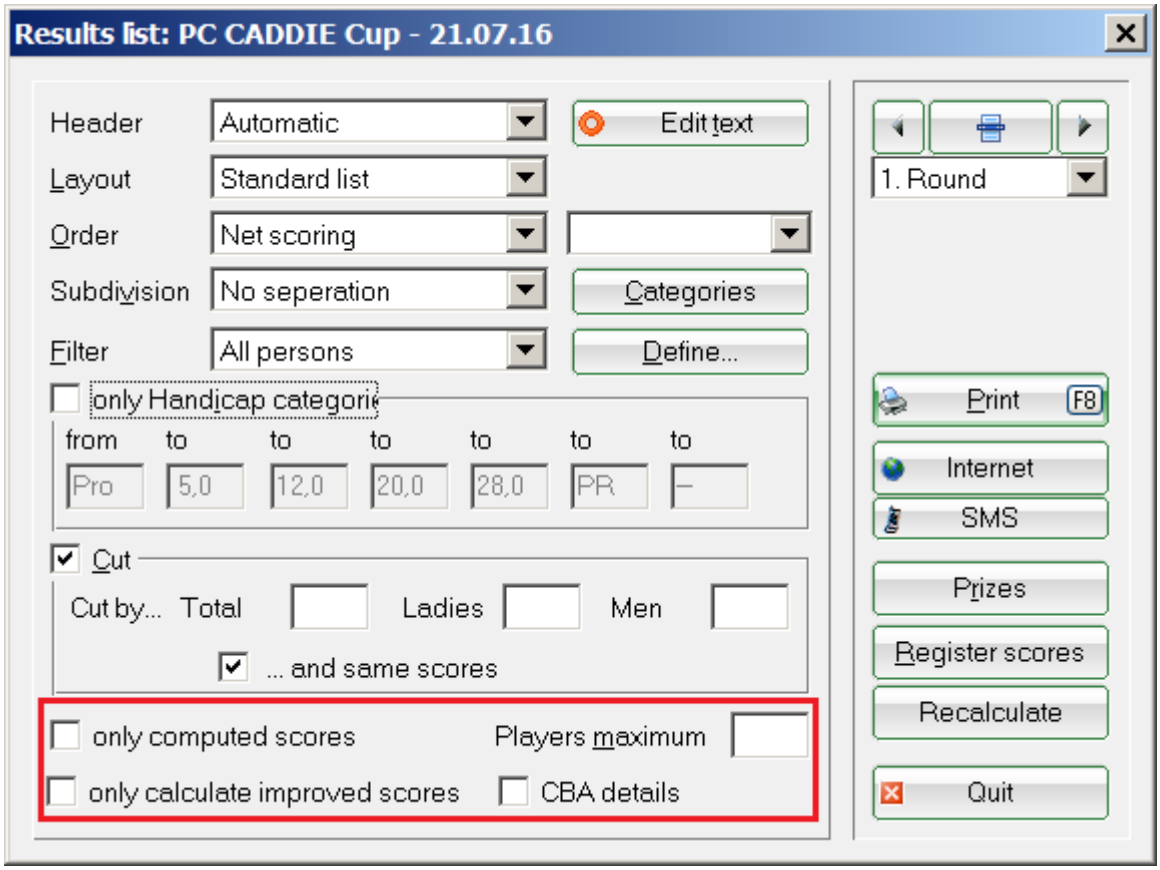

Printed: 23.07.2016, 21:12

Pl.	Name, First name	Club	StV/SpV	Gross	Net	P/StV
	Up to handicap 5,0					
1	Heck, Axel	Wittenbeck, Ostsee G	2,5/ 0	38	38	
2	Tester, Timo	GC Sonnenschein	5,4/ 4	28	31	
3	Tester, Timo	GC Sonnenschein	3,1/ 1	28	29	
4	Tester, Tina	GC Sonnenschein	3,1/ 4	21	22	
	Handicaps 5,1 to 12,0					
	Handicaps 12,1 to 20,0					
1	Werner, Edda	GC Sonnenschein	13,0/15	27	36	
	Handicaps 20,1 to 28,0					
1	Schmeddina, Benedikt	CH-Schmeddina-CH	26.4/28	17	37	

When classifying handicap classes, you should always keep in mind that you are excluding a player with handicap 1 (better than 0) when making a definition as above. Therefore, for example, enter „Pro“ at ***from***.

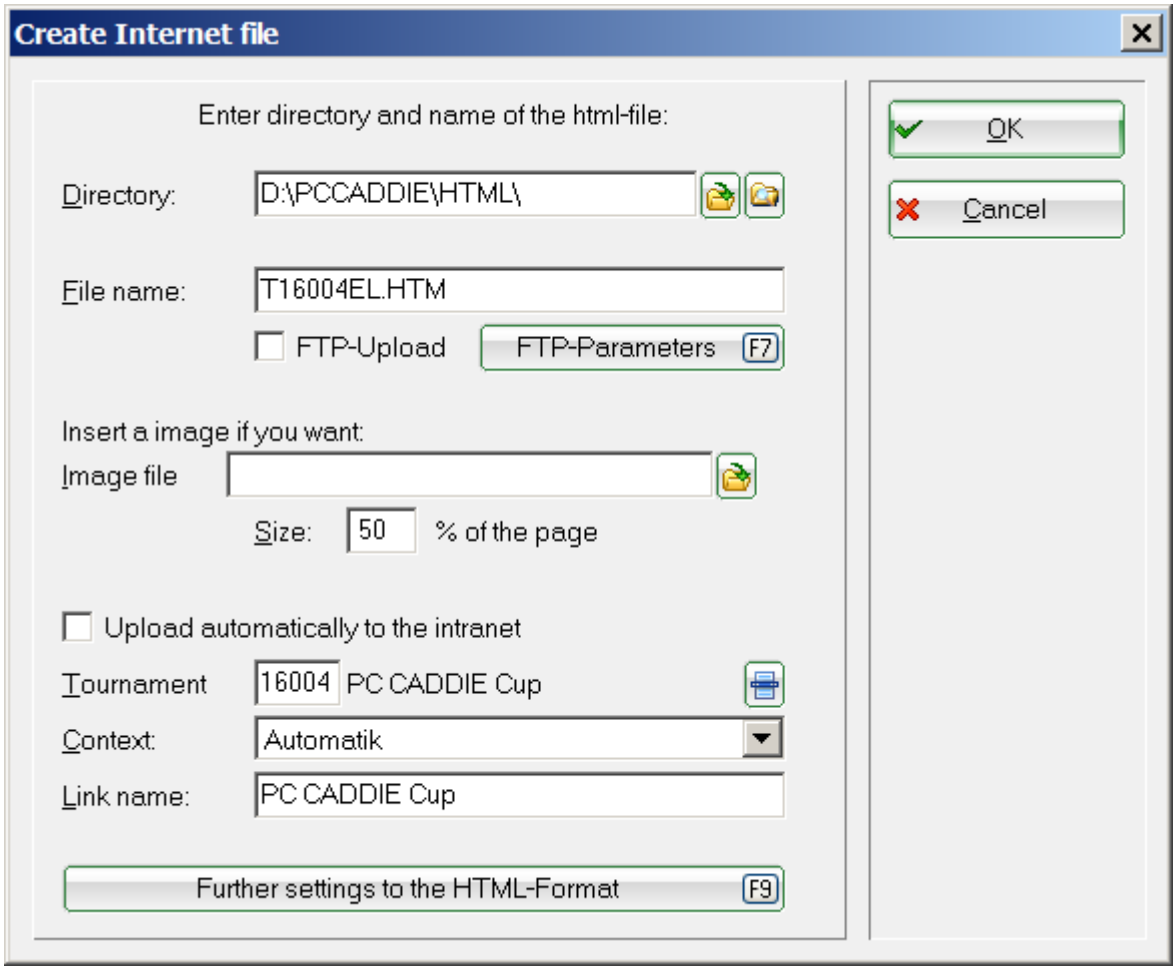

Check ***Cut*** if you want to show a cut in the result list. This feature is independent of the actual cut described in the ***Enter player, Setup starting list*** feature. For example, if you enter „10“ for ***ladies*** and „20“ for ***men***, the cut will be displayed after the 10th lady or after the 20th gentleman. The list must of course be divided into ladies and gentlemen. This can be done either via the ***Subdivision***, the filter or the prize definition. Usually you should activate the option ***... and the same results***, then the players in the cut who are tied to the 10th lady or the 20th gentleman are also taken into the cut.

For intermediate result lists, you can enable ***only collected results***, then only players with valid results will be printed. Players who have not yet entered a result will not be considered. For example, if you enter „7“ for „Players-maximum“, only the first seven players in each group will be printed. This allows you to print a short, clear result list, for example, for award ceremonies.

Result lists as HTML file

You can call this function using the button ***Internet***. It sends the file to the DGV intranet, to Swiss golfnetwork
and to the PC CADDIE://online Tournament.
In addition, the file can be transferred via FTP to any server, provided appropriate data is stored.

Start the process with ***OK.***

More information about this topic can be found under FTP transfer.

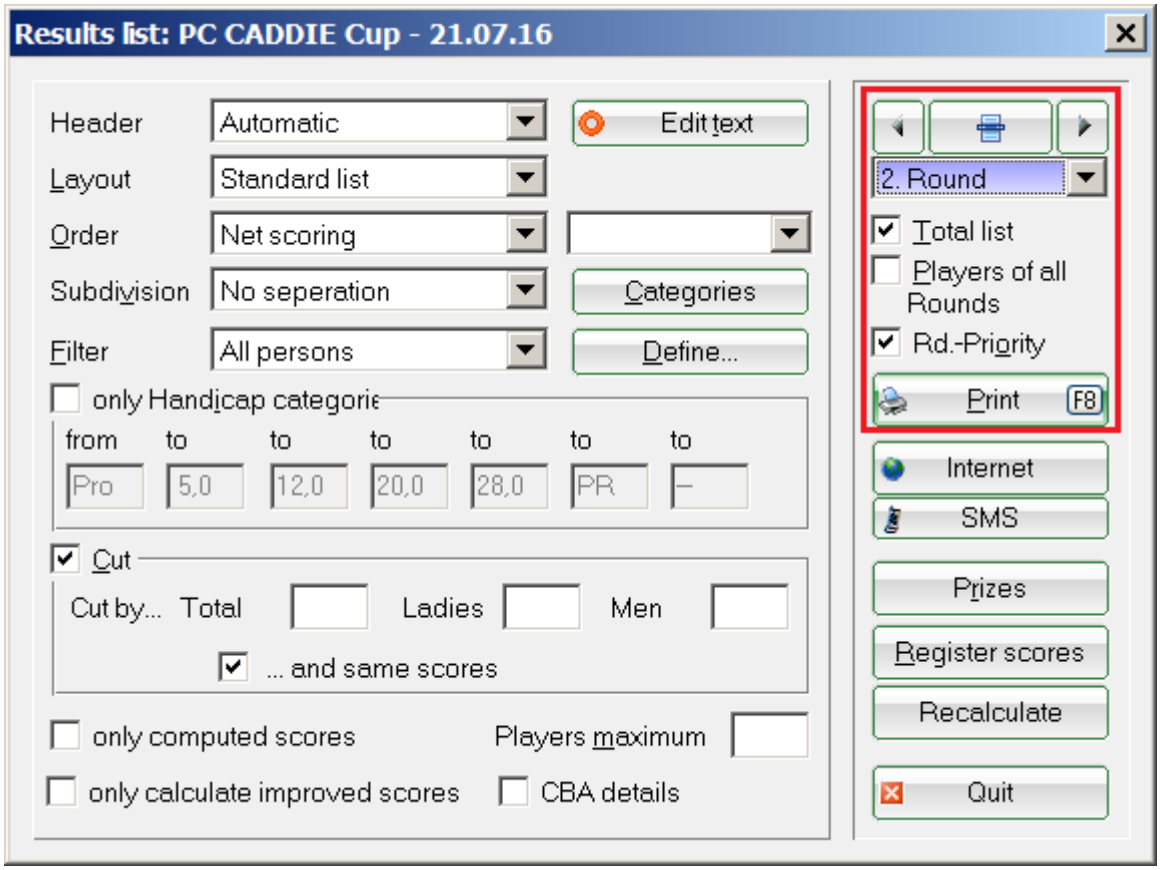

Send results via SMS

😉 Clicking on the ***SMS*** button creates an SMS to every tournament participant who has stored a mobile phone number, with their own results and the new handicap.

Read more about this under Send result and new handicap.

Choose round

For multi-rounds tournaments you can determine which round should be evaluated. PC CADDIE automatically suggests the last round of the current day:

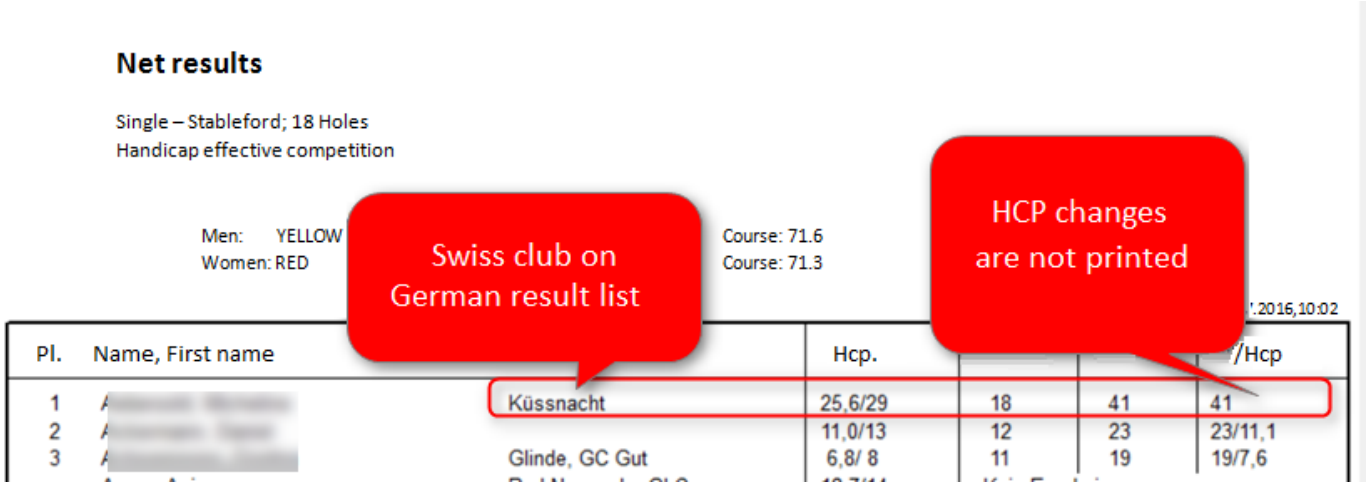

The ***Total list*** is set by default. You can only print the list for a single round if you disable this option. This is very handy if you want, for example, to print only the second round after the tournament, because then the HCP changes of the 2nd round are on the list.
Players of all rounds is marked if you want to have not only the players of the last round in the result list. This is especially used for Eclectic tournaments, where not every player has to play in the last round to get a valid result.
If the option ***Rd.-Priority*** is activated, the players who have played the most rounds are always sorted first in the result list. This option should be disabled for Eclectic tournaments.

Start the printout

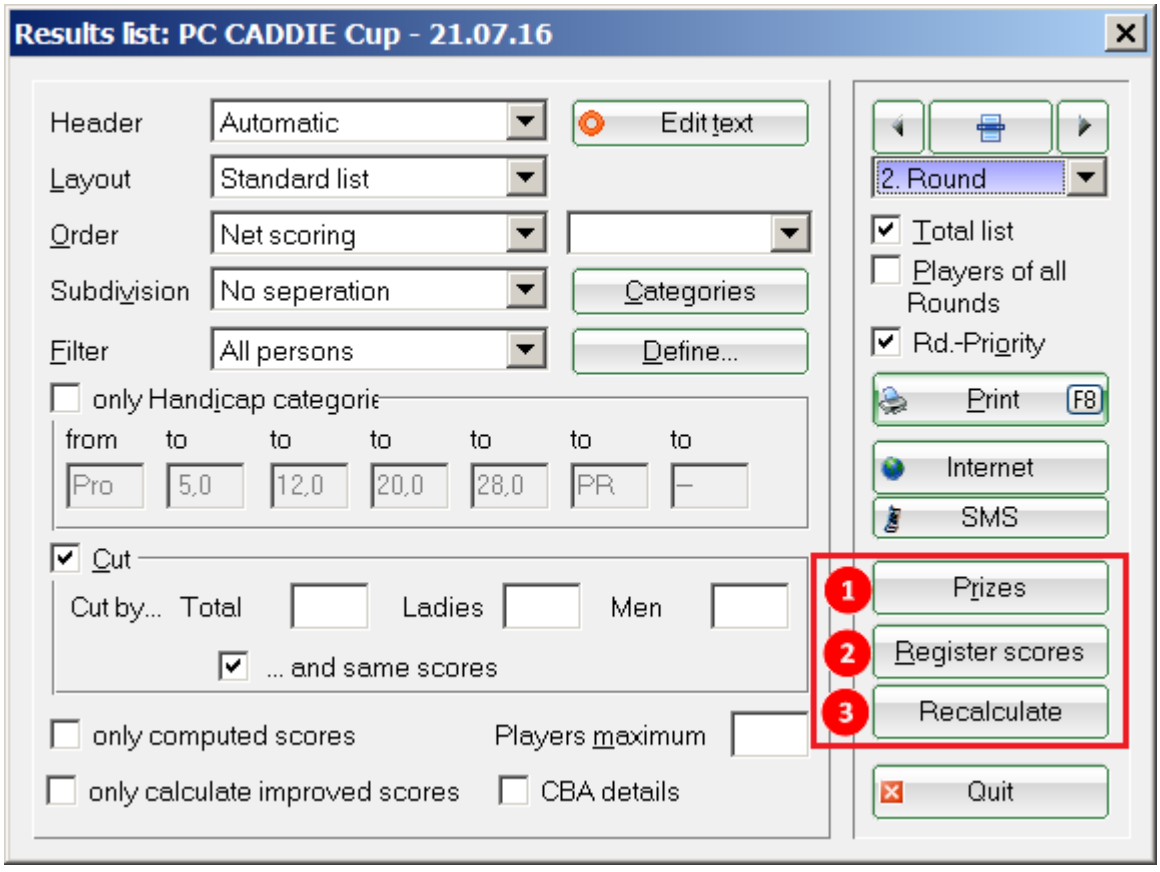

Click on ***Print (F8)*** to start the printout.

Foreign guests on result lists

As of April 1, 2016, no new handicaps will be printed on the results list of players with foreign home clubs after having been declared effective, because countries' handicap systems are different.
Here is an example of a result list, ***printed with a German PC CADDIE version and a player with Swiss home club!*** Analog would have been, for example, a printout from a Swiss PC CADDIE version with a player with German home club - the player with German home club does not have a new handicap on the list.
Of course, the results will be transmitted as usual over the intranet and players can then find out from their home club the current state of your handicap, or use „Mygolf“.

More functions

1. Use the ***Prizes*** button to go directly to the prize definition.
2. Go directly to the results input with ***Get Results***.
3. HINT: Click ***Recalculate*** to have the results calculated again before printing, which is important if you have made subsequent changes in the tournament settings or results.
