Tournaments/Events with Golf.at

Admin Golf.AT

// **RIGHT-CLICK**// on the GOLF.AT Logo at the top of the bar in your PC CADDIE to access your GOLF.AT-ADMIN account:

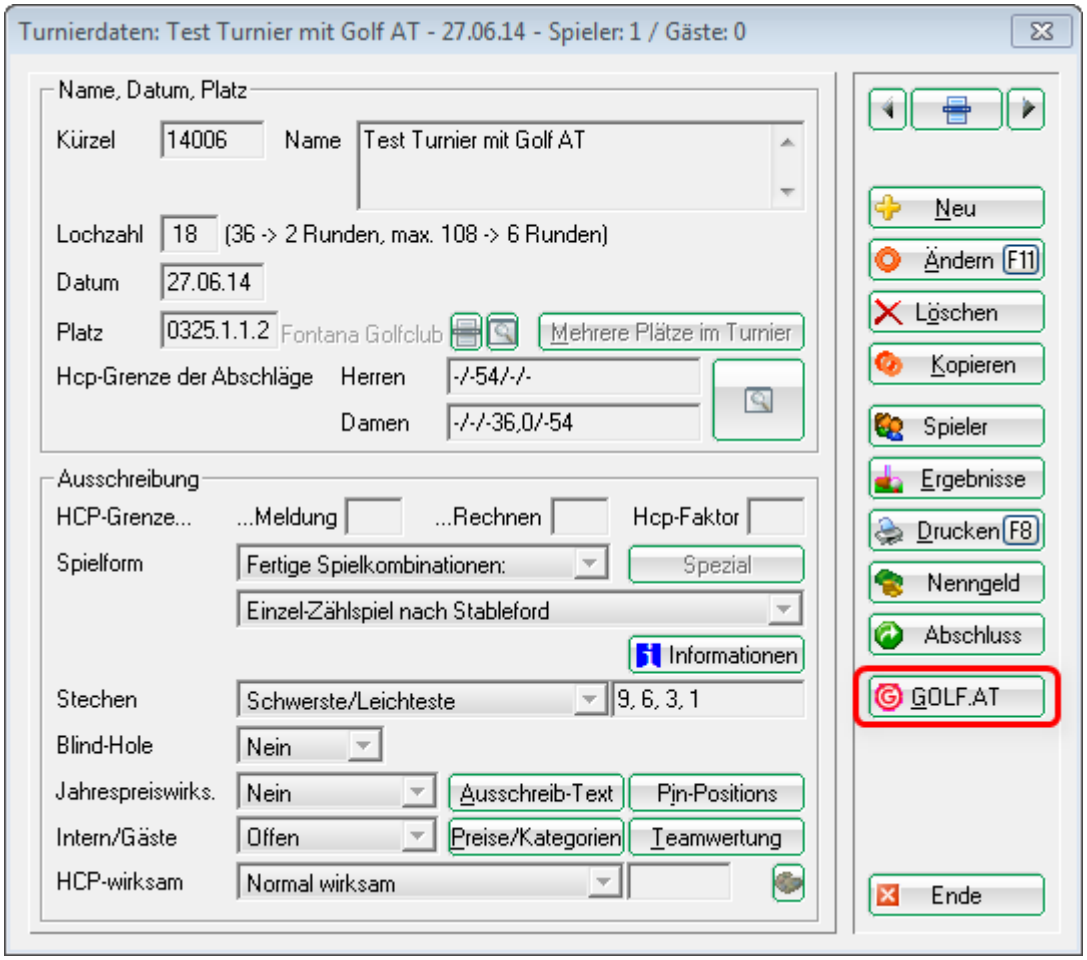

Transfer tournaments to GOLF.AT

More information available here: Tournaments on the Internet International

Only transfer tournament information

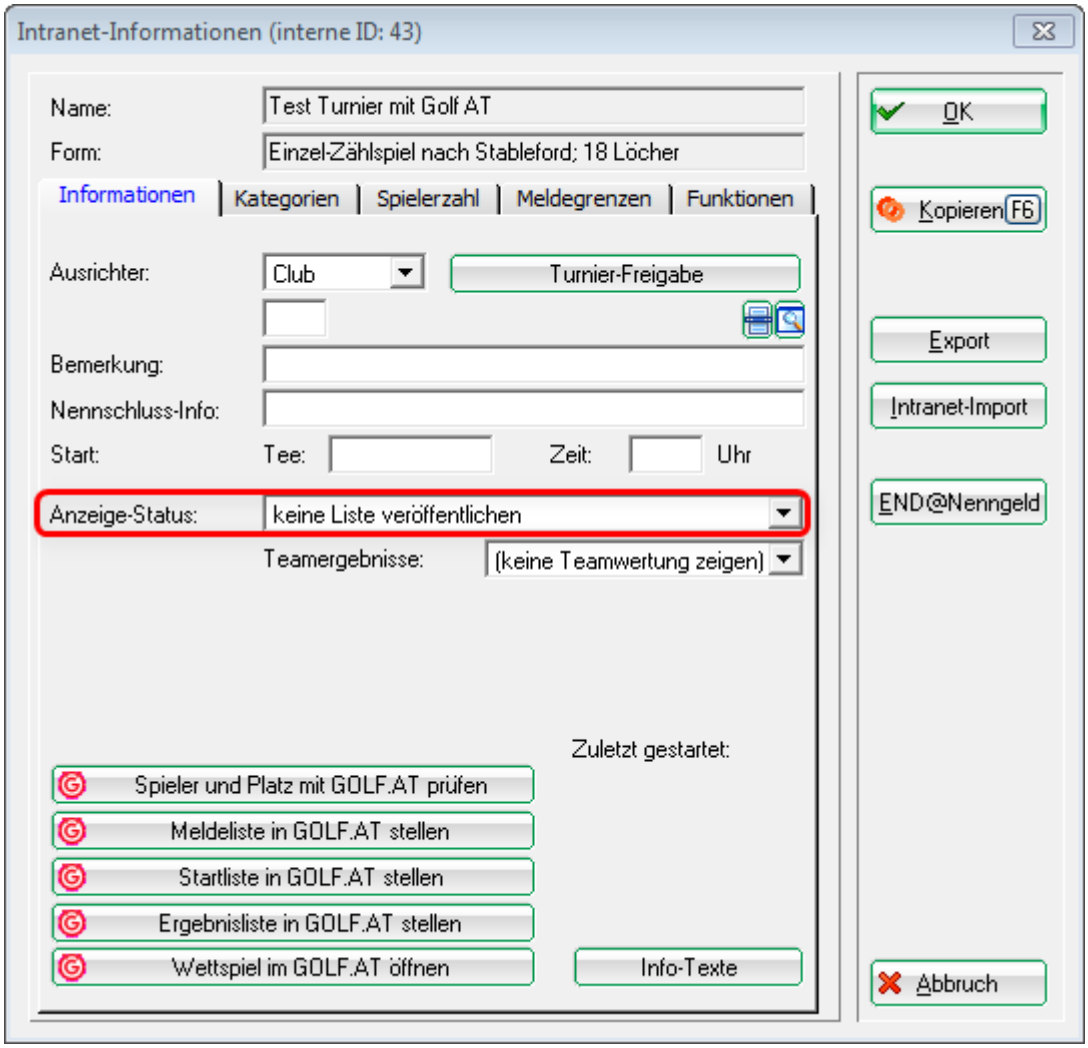

If you click on the GOLF.AT button in your basic tournament settings and then confirm with OK, this is sufficient for the tournament information to be sent to GOLF.AT, with the next FTP butler transfer.

After you have processed all tournaments, start the FTP butler via the Golf.at icon and send all tournaments together.

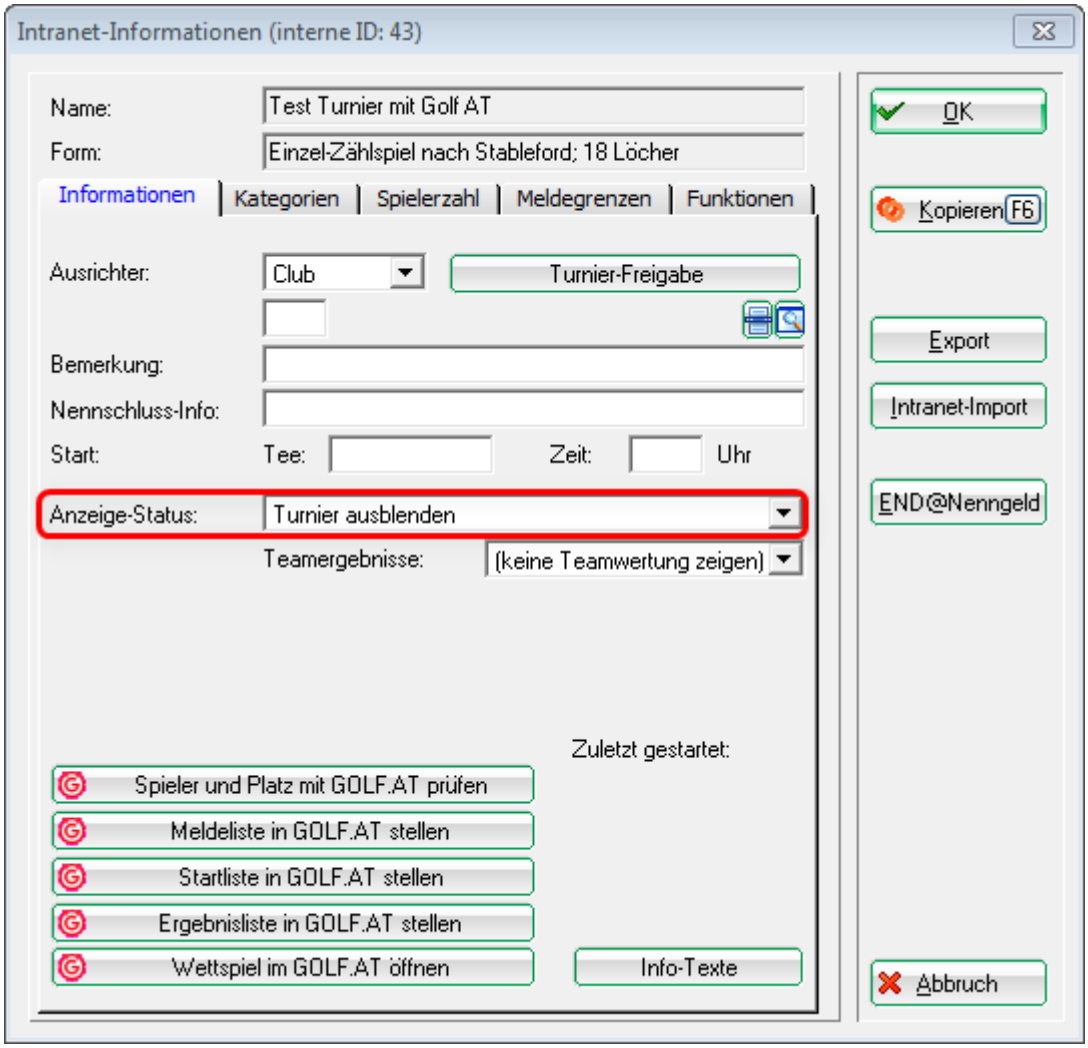

If you really only want to transfer the information and do not want to display start lists and result lists, change the setting for Display status to ***do not publish any list***, before clicking OK.

Don't show tournament on GOLF.AT

If you **do not** want to transfer any tournament information to GOLF.AT, set in display status to ***hide tournament***.

Delete tournament from GOLF.AT

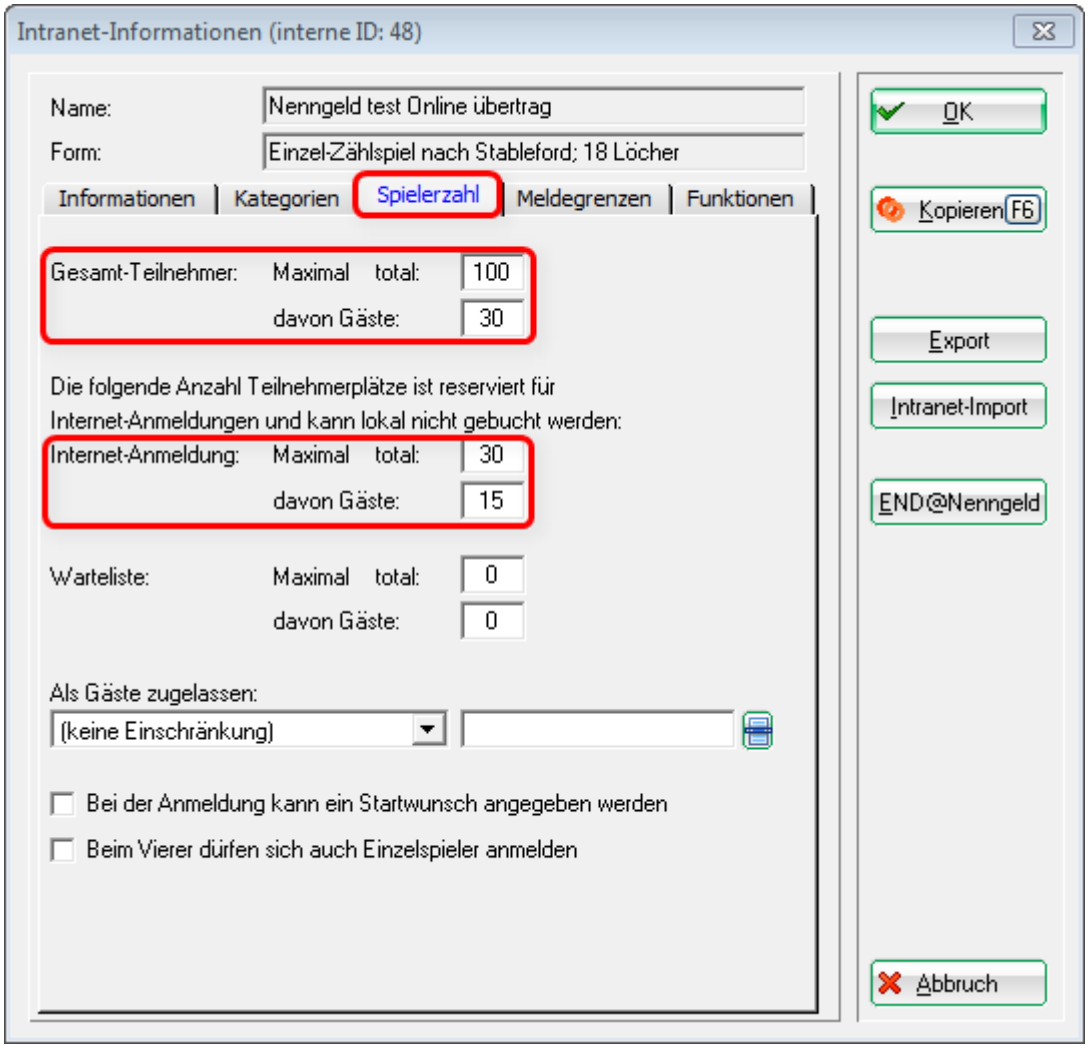

You can only delete tournaments that have already been transferred to GOLF.AT from your GOLF.AT ADMIN area!

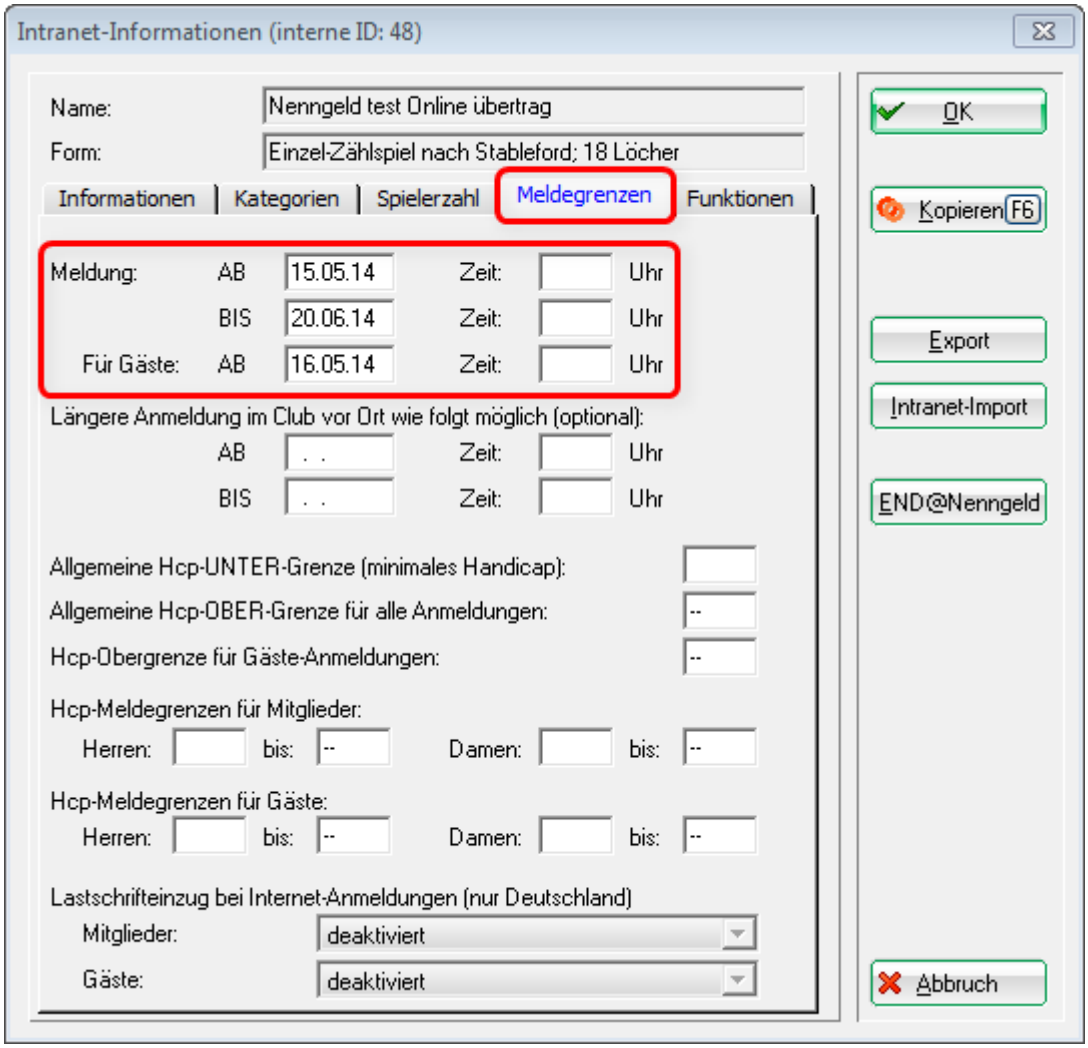

Prevent transmission of tournament information and lists

Please write an email to support@pccaddie.com if you would like us to set your PC CADDIE so that no information and lists of tournaments are transferred to GOLF.AT without your previous confirmation.

Allow ÖGV tournament entry

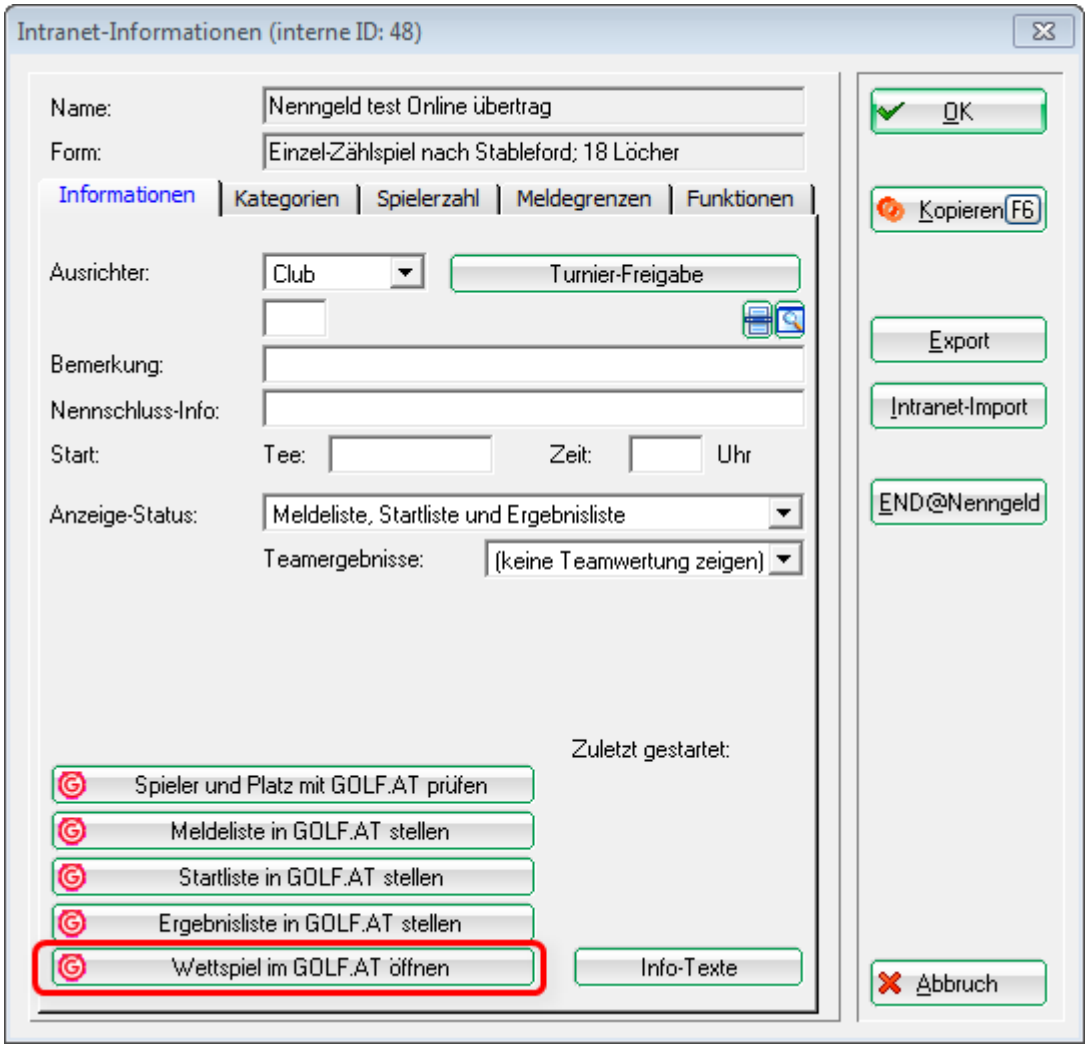

A prerequisite is that ***the number of players and registration limits are filled*** in PC CADDIE; you can do this in the basic tournament settings under GOLF.AT:

Intranet-Informationen (interne ID: 48)
Name:
Nenngeld test Online übertrag
Form:
Einzel-Zählspiel nach Stableford; 18 Löcher
Informationen
Kategorien
Spielerzahl
Meldegrenzen
Funktionen
Gesamt-Teilnehmer:
Maximal total:
100
davon Gäste:
30
Die folgende Anzahl Teilnehmerplätze ist reserviert für
Internet-Anmeldungen und kann lokal nicht gebucht werden:
Internet-Anmeldung:
Maximal total:
30
davon Gäste:
15
Warteliste:
Maximal total:
0
davon Gäste:
0
Als Gäste zugelassen:
(keine Einschränkung)
Bei der Anmeldung kann ein Startwunsch angegeben werden
Beim Vierer dürfen sich auch Einzelspieler anmelden
OK
Kopieren F6
Export
Intranet-Import
END@Nenngeld
Abbruch

If you confirm with OK, the setting is transferred with the next synchronization with GOLF.AT. You can also check what you have transferred to GOLF.AT.

Open the competition in GOLF.AT

After you have filled in the number of players and the registration limits, you will see the prepared setting for online tournament entry in GOLF.AT. However, no player can still register because there are other requirements from the ÖGV!

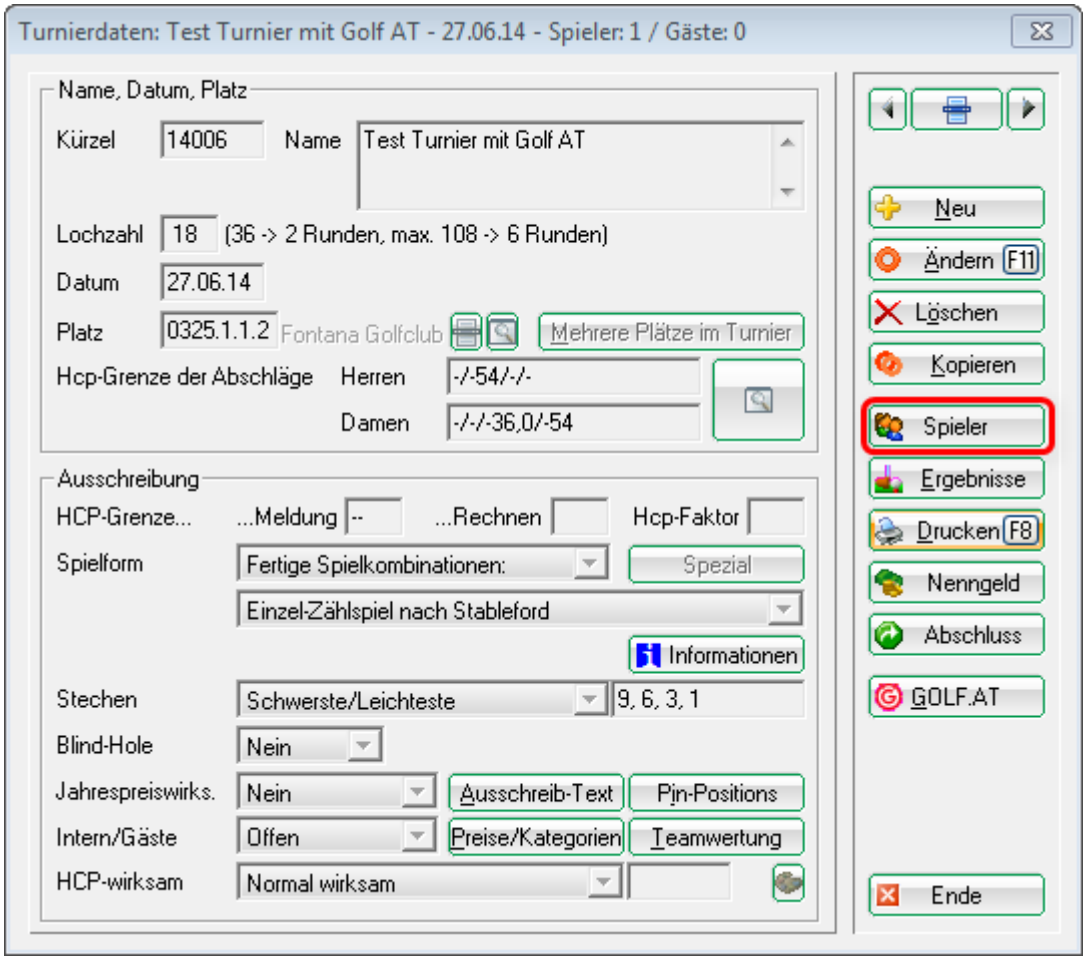

ÖGV requirement for ONLINE tournament entry

From the ÖGV you still need your club access for www.Golfanmeldung.com in order to manually import tournaments for which you want to allow online tournament entries. A player can only register for a tournament imported into www.Golfanmeldung.com . There you can also make further settings for your tournaments. Ask your ÖGV contact!

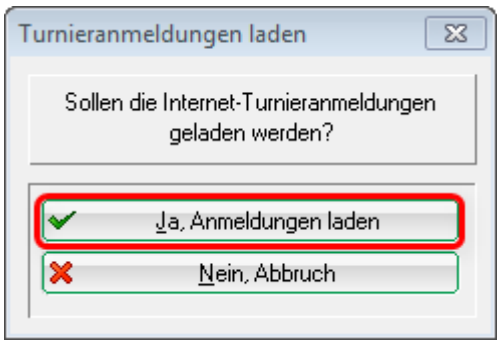

Load players registered online to the tournament

:!:The number of players and registration limits must be filled, since PC CADDIE checks this data when loading the players! If these fields are empty, PC CADDIE cannot load the players into the tournament.

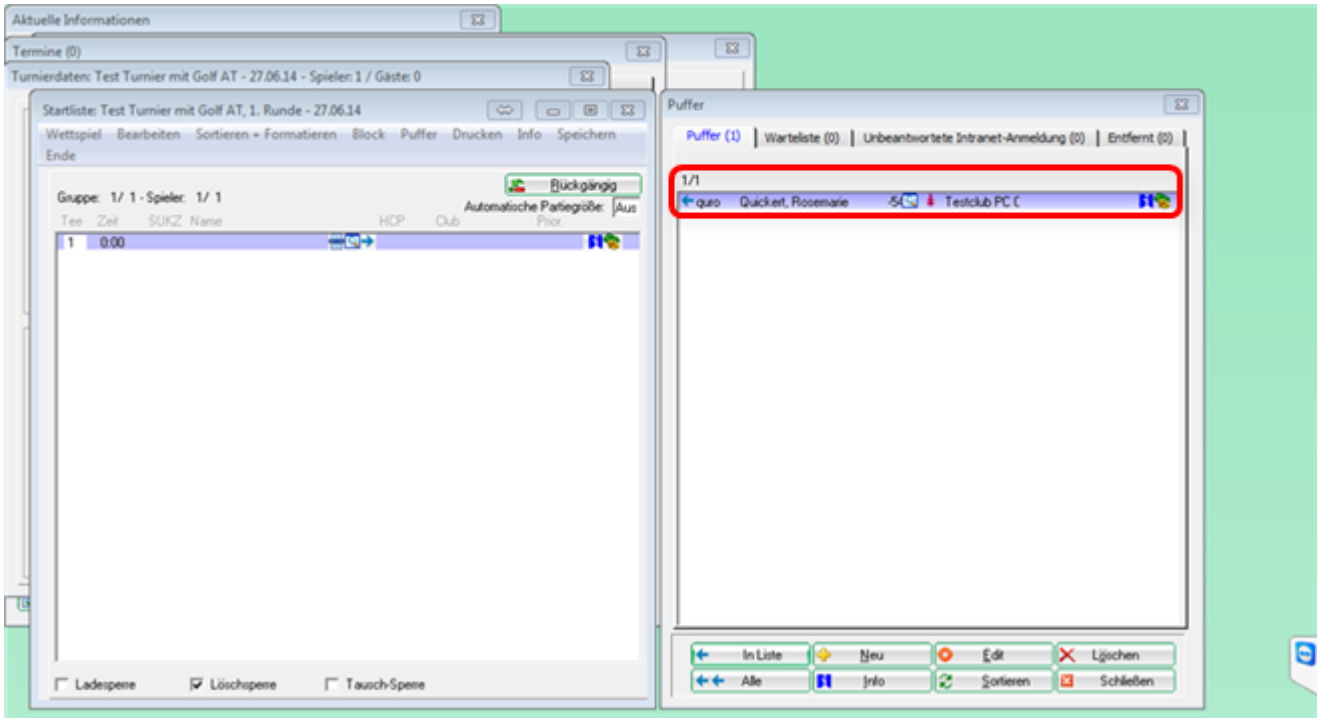

Open your player editor. Here you are always “on the go” when you edit your start list.

For tournaments that are approved for the tournament entry, you will automatically be asked whether you want to load registrations as soon as the first tournament entry occurs. This query is repeated every time you open the player editor (even if there are no new registrations). New tournament entries are then added.

The registered players are loaded into the buffer of the player editor and are automatically available for further creation of the start list:

If you are unable to load the players, check the settings for ***player numbers and registration limits*** again. These fields are mandatory!!!
