

# Simple start list

You can create an empty start list un which you can enter the players using the menu **Competitions/Multiple Tournaments, Golf Weeks/Print.../Registration List**.

HINT: This is particularly useful, for example, if you can register the players for a scramble in groups of four, and use this list as an entry or start list after adding a corresponding description.

Print out of a plain list starting times, where the players can enter their names!

Title:

First starting time:  o'clock      Last starting time:  o'clock

Flight intervall:  minutes      Flight size:  persons

Additional information:

Make all the desired entries and confirm with **Print** (F8):
