

# Sign up players for multiple competitions

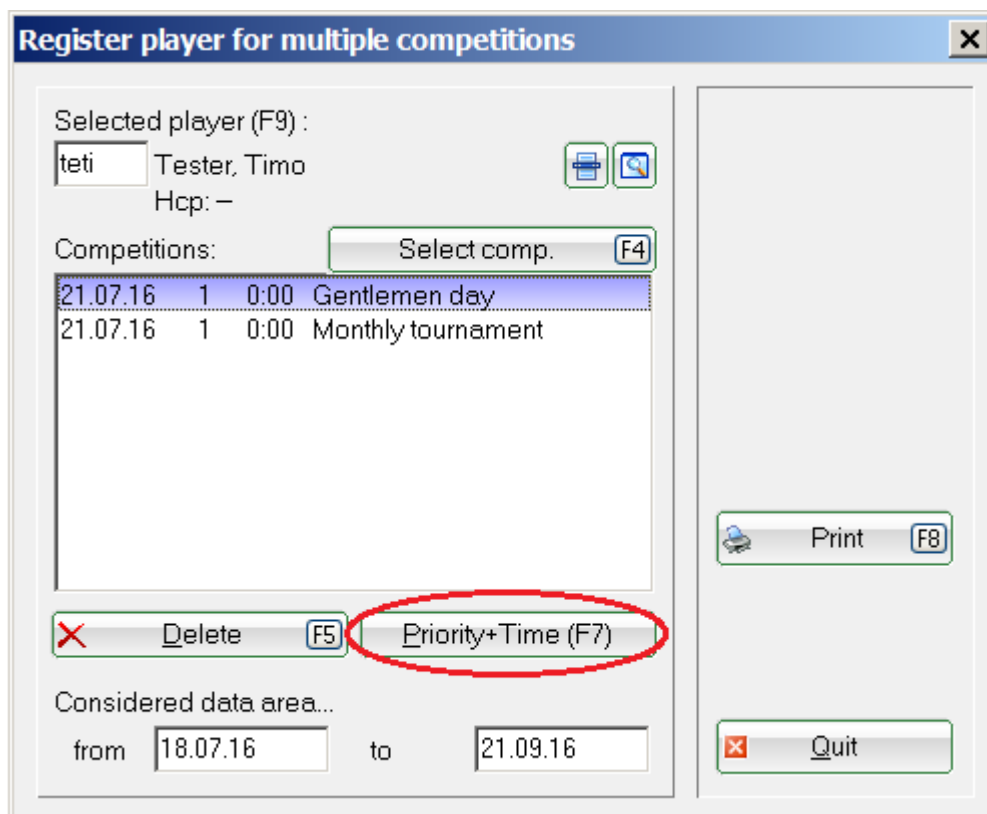

You have the possibility to register a player for multiple tournaments via **Competitions/Multiple Tournaments, Golf Weeks/Register Player for multiple Tournaments**. You can also do this directly from the person mask by clicking on the **Competition** button. In both cases, it is necessary that the number of players and the entry limits are previously set for the competition (via the **Internet** button from the competition mask).

The screenshot shows a software dialog box titled "Register player for multiple competitions". It features a "Selected player (F9)" field with the text "teti" and "Tester, Timo", and a "Hcp: -" label. Below this is a "Competitions:" section with a "Select comp. (F4)" button highlighted by a red circle. At the bottom, there are buttons for "Delete (F5)", "Priority+Time (F7)", "Print (F8)", and "Quit". A "Considered data area..." section includes date pickers for "from 18.07.16" and "to 21.09.16".

Enter the player in the **Selected player** (F9) field. Then determine the data area to be considered. Use the button **Selected comp.** (F4) to activate those tournaments where the player should participate:

Confirm your inputs with **Ready**. If the player also has a preferred starting time frame, you should mark the desired tournament, click on **Priority+Time** (F7) and enter, for example, **E** for early:

**Edit registered player** [X]

Event: Gentlemen day  
Player: Tester, Timo

Priority: **E**

Start: Hole:  (WL = Waiting List)  
Time:

[F7]

[O]

Enter all the required data and close the dialog with **OK**.
